

**Housing Authority of the City of Reno
Neighborhood Stabilization Program 2 Proposed Amendment**

The Housing Authority of the City of Reno (RHA) is proposing an amendment to the Neighborhood Stabilization Program 2 (NSP2) plan. Under the original plan, RHA identified six census tracts to work in using NSP2 funds. In a later amendment, 47 additional census tracts were added to expand the target area for mobility purposes under the Moving to Work program.

RHA's previous proposed amendment has been changed to not delete 35.12. RHA will be purchasing at least one property in this census tract before the closeout process is complete.

As RHA prepares to closeout the NSP2 grant, HUD guidelines state that any census tracts not actually worked in must be subtracted prior to closeout of the grant. Accordingly, RHA proposes to remove the following census tracts from the plan in preparation for the closeout process:

Census tract numbers in Washoe County proposed for subtraction from RHA's NSP2 plan
