General Instructions for Registering in DUNS / SAM

If you have not previously registered in DUNS or SAM, read all instructions below before you register in these systems.

IMPORTANT FACTS

1. All organization/entity information MUST BE IDENTICAL IN BOTH DUNS and SAM.
   - You cannot enter one address for DUNS and then a different address for SAM. This will cause a system error and result in significant delays.
   - You cannot have unequal spacing between words in the primary contact information fields. Be very precise when entering all data.

2. Certain internet browsers work better than others for navigating the SAM system. If you have technical difficulties, read “Browser Settings for Optimal Use of SAM”: https://inside.fws.gov/media/FinancialAssistance/Documents/Browser%20Use%20of%20SAM.pdf

CAGE and NCAGE Code in SAM
The Commercial And Government Entity (CAGE) Code is a five-character ID number used extensively within the U.S. federal government, assigned by the Department of Defense’s Defense Logistics Agency (DLA). The CAGE code provides a standardized method of identifying a given facility at a specific location. CAGE codes for entities located outside the United States are called NATO Commercial and Government Entity (NCAGE) codes. NCAGE codes are assigned internationally as part of the NATO Codification System (NCS), and are required for all foreign entities or the registration will be considered incomplete.
A CAGE code or NCAGE code will be automatically assigned to you as a part of your entity's registration in SAM. NCAGE is required for all foreign entities or the registration will be considered incomplete. Information on how to obtain NCAGE codes may be found at http://www.dljs.dla.mil/Forms/Form_AC135.asp.

The DLA is the government agency responsible for administering CAGE codes. You should email or call the DLA Customer Interaction Center to clarify the error. Agents are available 24 hours a day, 7 days a week, including holidays. Once the error is cleared then you can go back in SAM and resubmit your registration.

- Toll Free: 1-877-352-2255
- Commercial: 1-269-961-7766
- Email: dlacontactcenter@dla.mil

To research or cross reference what is registered on a recipient's CAGE or NCAGE code account you can visit the DLA's website (http://www.logisticsinformationservice.dla.mil/BINCS/begin_search.aspx) and search by "DUNS" or the "Name" of the entity to see CAGE or NCAGE code registration information.

**SWIFT Code**

SWIFT code is a standard format of Bank Identifier Codes (BIC) and it is a unique identification code for a particular bank. These codes are used when transferring money between banks, particularly for international wire transfers. Banks also used the codes for exchanging other messages between them. The SWIFT code consists of 8 or 11 characters. When 8-digits code is given, it refers to the primary office.

- First 4 characters - bank code (only letters)
- Next 2 characters - ISO 3166-1 alpha-2 country code (only letters)
- Next 2 characters - location code (letters and digits) (passive participant will have "1" in the second character)
- Last 3 characters - branch code, optional ('XXX' for primary office) (letters and digits)

Currently, there are over 7,500 "live" SWIFT codes. The "live" codes are for the partners who are actively connected to the SWIFT network. On top of that, there are more than 10,000 additional codes, which are used for manual transactions. These additional codes are for the passive participants. The registrations of SWIFT Codes are handled by Society for Worldwide Interbank Financial Telecommunication ("SWIFT") and their headquarters is located in La Hulpe, Belgium.

**NAICS**

The North American Industry Classification System (NAICS) is the standard used by Federal statistical agencies in classifying business establishments for the purpose of collecting, analyzing, and publishing statistical data related to the U.S. business economy. **You DO NOT need a NAICS code if you are a non-governmental organization applying for a grant.**
