INDEPENDENT AUDITORS' REPORT

To the Board of Commissioners
Housing Authority of the City of Reno
Reno, Nevada

We have audited the accompanying financial statements of the governmental activities, the business-type activities and the major fund of the Housing Authority of the City of Reno, Nevada, as of and for the year ended June 30, 2009, which collectively comprise the Authority's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the Housing Authority of the City of Reno, Nevada's management. Our responsibility is to express opinions on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and the significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type and each major fund of the Housing Authority of the City of Reno, Nevada, as of June 30, 2009, and the respective changes in financial position, and cash flows, where applicable, thereof for the year then ended in conformity with accounting principles generally accepted in the United States of America.

In accordance with *Government Auditing Standards*, we have also issued our report dated December 18, 2009, on our consideration of the Housing Authority of the City of Reno, Nevada's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be considered in assessing the results of our audit.

MANAGEMENT'S DISCUSSION AND ANALYSIS
JUNE 30, 2009**

As management of the Housing Authority of the City of Reno (the "Authority"), we offer readers of the Authority's financial statements this narrative overview and analysis of the financial activities of the Authority for the fiscal year ended June 30, 2009.

The Management's Discussion and Analysis (MD&A) is an element of the reporting model adopted by the Governmental Accounting Standards Board (GASB) in their Statement No. 34 *Basic Financial Statements – and Management's Discussion and Analysis – for State and Local Governments* issued in June 1999. Certain comparative information between the current year and the prior year is required to be presented in the MD&A.

Financial Highlights

Investments in capital assets, net of related debt, saw the largest increase in assets this year from \$17.1 million last year to \$18.7 million in 2009. This is a result of purchasing a number of properties for future development. Overall assets have increased by \$1.1 million over last year's \$39.2 million. Liabilities last year were \$6.8 million and this year they are \$6.7 million which represents a slight decrease of \$0.1 million.

The total expenses for all Authority programs increased by \$1.2 or 2.7%. Total expenses were \$44.6 million and \$45.8 million for fiscal years 2008 and 2009 respectively. The primary area of increase was in the housing assistance payments area. Total revenue was \$45.4 million and \$47.0 million for fiscal years 2008 and 2009 respectively. The greatest increase was in governmental subsidies and grants.

Required Financial Statements

The Financial Statements of the Authority report information about the Authority using accounting methods similar to those used by private sector companies. These statements offer short and long-term financial information about its activities. The Statement of Net Assets includes all of the Authority's assets and liabilities and provides information about the nature and amounts of investments in resources (assets) and the obligations to Authority creditors (liabilities). It also provides the basis in evaluating the capital structure of the Authority and assessing the liquidity and financial flexibility of the Authority. All of the current year's revenues and expenses are accounted for in the Statement of Revenues, Expenses, and Changes in Net Assets. This statement measures the success of the Authority's operations over the past year and can be used to determine whether the Authority has successfully recovered all its costs through its rental income and other charges and profitability. The final required financial statement is the Statement of Cash Flows. The primary purpose of this statement is to provide information about the Authority's cash receipts and cash payments during the reporting period. The statement reports cash receipts, cash payments, and net changes in cash resulting from operations, investing, and financing activities and provides answers to such questions as where did cash come from, what was cash used for, and what was the change in cash balance during the reporting period.

Financial Analysis of the Authority

One of the most important questions asked about the Authority's finances is "Is the Authority as a whole better off or worse off as a result of the year's activities?" The Statement of Net Assets, and the Statement of Revenues, Expenses and Changes in Net Assets report information about the Authority's activities in a way that will help answer this question. These two statements report the net assets of the Authority and changes in them. You can think of the Authority's net assets, (the difference between assets and liabilities), as one way to measure financial health or financial position. Over time, increases or decreases in the Authority's net assets are one indicator of whether its financial health is improving or deteriorating. However, you will need to consider other non-financial factors such as changes in economic conditions, population growth, and new or changed government legislation.

The Authority's Programs

Business Type Programs

Public and Indian Housing - Under the Public and Indian Housing Program, the Authority rents units that it owns to low-income households. The Public and Indian Housing Program is operated under an Annual Contributions Contract (ACC) with the Department of Housing and Urban Development (HUD), and HUD provides Operating Subsidy and Capital Grant funding to enable the Authority to provide the housing at a rent that is primarily based upon 30% of household income. The Public and Indian Housing Program also includes the Capital Fund Program, which is the primary funding source for physical and management improvements to the Authority's properties.

Housing Choice Voucher Program - Under the Housing Choice Voucher Program, the Authority administers contracts with independent landlords that own the property. The Authority subsidizes the family's rent through a Housing Assistance Payment made to the landlord. The program is administered under an Annual Contributions Contract (ACC) with HUD. HUD provides Annual Contributions Funding to enable the Authority to structure a lease that sets the participants' rent at 30% of household income.

Section 8 Housing Assistance Payments Program - Under the Section 8 Housing Assistance Payments Program the Authority is the Contract Administrator for the State of Nevada charged with carrying out 16 Incentive Based Performance Standards for HUD. Typical standards include approving tenant payments, processing rental adjustments, life threatening and non-life threatening health and safety issues, and conducting Management and Occupancy Reviews. Approximately 45 projects and 3,219 units are covered by this contract. This contract started October 1, 2000 with an initial two year period and three one-year renewal options. Since then we have been awarded several renewals, the most recent of which expires September 30, 2009.

(Continued)

Section 8 Moderate Rehabilitation Program – Under the Section 8 Moderate Rehabilitation Program, the Authority administers contracts with landlords. This program is similar to the Housing Choice Voucher Program. This program is down to only one landlord with less than 10 units.

Business Activities – This represents non-HUD resources developed from a variety of activities that consist basically of housing units not receiving Federal financial assistance.

Other Programs

In addition to the programs above, the Authority also maintains the following:

Public Housing Capital Fund – This fund provides for capital, management, and financing activities, including payments of debt service and customary financing costs.

Public Housing Capital Fund Stimulus (Formula) Recovery Act Funded – The Act provides funds for the capital and management activities of Public Housing Agencies as authorized under section 9 of the United States Housing Act of 1937 (42 U.S.C. 1437g) (the “Act”), with the exception that funds cannot be used for operations or rental assistance. The funds will be used for capital and management activities, including modernization and development of public housing.

Resident Opportunity and Supportive Services – This is a grant from HUD designed to help provide tenants with skills necessary to seek, obtain and maintain better employment.

Shelter Plus Care – Shelter Plus Care is a program where the Authority can obtain contract funding through the State of Nevada and provide physical inspections.

Community Development Block Entitlement Grants – The Community Development Block Grants are designed to develop viable urban communities by providing decent housing, a suitable environment, and expanding economic opportunities, principally for persons of low and moderate income.

Community Development Block Grants / Brownfields Economic Development Initiative – The Brownfield Economic Development Initiative is a program to carry out projects to redevelop abandoned, idled or underutilized real property.

Major Factors Affecting the Statement of Net Assets

During this year the capital assets increased by \$1.2 million over last year due to the fact that we acquired a small apartment complex, various homes and increased efforts to spend Capital Fund monies. Total assets increased by \$1.1 million and total net assets increased by \$1.2 million.

Major Factors Affecting the Statement of Revenue, Expenses and Changes in Net Assets

This year we experienced an increase in revenues of \$1.6 million from \$45.4 million in 2008 to \$47.0 million in 2009. This increase is predominantly in the Governmental Subsidies and Grants area for the Capital Fund Program, the Neighborhood Stabilization Program and the Capital Fund Recovery Grant. Expenditures rose from \$44.6 million in 2008 to \$45.8 million in 2009. The housing assistance payments area shows the greatest increase with \$1.7 million.

Capital Assets and Debt Administration

Capital Assets

As of year end, the Authority had \$23.5 million invested in a variety of capital assets as reflected in the following schedule, which represents a net increase (addition, deletions and depreciation) of \$1,160,333 from the end of last year.

**TABLE 3

Debt Outstanding

As of year-end, the Authority had \$4,932,688 in debt (bonds, notes, etc.) outstanding compared to \$5,152,357 last year, a \$219,669 net decrease:

Outstanding Debt, at Year-End

Current portion	<u>228,268</u>		<u>219,840</u>
Total	<u>\$ 4,932,688</u>		<u>\$ 5,152,357</u>

Economic Factors

The Authority is primarily dependent upon HUD for the funding of operations; therefore, the Authority is affected more by the Federal budget than by the State or local economic conditions.

Given the dependency upon HUD it is in the Authority's best interest to seek and pursue other economic sources. With the profits from prior year's sale of vacant land we will pursue the investment of these monies in either additional land, development of existing land and/or purchase of existing housing stock.

NOTES TO THE FINANCIAL STATEMENTS
JUNE 30, 2009

Note 1 - DEFINITION OF REPORTING ENTITY

The Housing Authority of the City of Reno, Nevada (the Authority) was established on August 8, 1940 by a resolution of the City of Reno City Council. The Authority is a public body corporate and politically organized pursuant to the laws of Chapter 315 of the State of Nevada. The Authority is governed by a five member Board of Commissioners. The City Council appoints the members of the Board of Commissioners to a maximum of two four year terms.

Although they are legally separate entities from the Authority, the Washoe Affordable Housing Corporation and Transitional Housing Corporation are reported as if they were part of the Authority because their sole purpose is to work in conjunction with the Authority to assist with the provision of housing for low and moderate individuals, and the members of the Board of Commissioners of the Authority act as members of the Board of Directors of these corporations. Therefore, the financial information of the Washoe Affordable Housing Corporation and the Transitional Housing Corporation are included in the accompany financial statements as blended component units of the Authority.

At June 30, 2009 the Authority was administering the following programs which consisted of 6,767 units of low and moderate income housing:

	<u>Number of Units</u>
<u>Conventional Low Rent Program:</u>	
Mineral Manor	143
Tom Sawyer Village	100
Silverada Manor	149

Note 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A. Basis of Presentation

The accompanying financial statements are presented on the basis set forth in Government Accounting Standards Board Statement 34, *Basic Financial Statements-and Management's Discussion and Analysis-for State and Local Governments*. GASB 34 requires that the financial statements described below be presented.

Government-wide Statements: The Statement of Net Assets and Statement of Activities display information about the primary government (the Authority). These statements include the financial activities of the overall Authority. These statements distinguish between the *governmental and business-type activities* of the Authority. Business-type activities are financed in whole or in part by fees charged to external parties. There were no governmental type activities for the Authority for fiscal year 2009.

The Statement of Activities presents a comparison between direct expenses and program revenues for each segment of the business-type activities of the Authority and for each function of the Authority's governmental activities (if such activities were to exist). Direct expenses are those that are specifically associated with a program or function and are clearly identifiable to a particular function. Program revenues include grants and contributions that are restricted to the operations of a particular program. Revenues that are not classified as program revenues are presented as general revenues.

Fund Financial Statements: The fund financial statements provide information about the Authority's funds. The emphasis of fund financial statements is on major individual governmental funds, each of which is displayed in a separate column. There are no governmental fund types for this Authority.

B. Basis of Accounting

The government-wide financial statements are reported using the *economic resources measurement focus* and the *full accrual basis* of accounting. Revenues are recorded when earned and expenses are recorded at the time liabilities are incurred, regardless of when related cash flows take place.

Revenue from grants and donations are recognized in the fiscal year in which all eligibility requirements have been satisfied. It is the policy of the Authority to expend amounts received by the Authority under Capital Fund Grants from HUD for operating costs, and these grant amounts are reflected on the Statement of Revenues, Expenses, and Changes in Net Assets as operating revenues.

HOUSING AUTHORITY OF THE CITY OF RENO
NOTES TO THE FINANCIAL STATEMENTS

JUNE 30, 2009

(Continued)

Note 2 (continued)

The Authority has elected under GASB Statement 20, *Accounting and Financial Reporting for Proprietary Funds and Other Governmental Entities That Use Proprietary Fund Accounting*, to apply all applicable GASB pronouncements as any applicable pronouncements of the Financial Accounting Standards Board, the Accounting Principles Board or any Accounting Research Bulletins issued on or before November 30, 1989, unless those pronouncements conflict with or contradict GASB pronouncements. The GASB periodically updates its codification of existing Governmental Accounting and Financial Reporting Standards which, along with subsequent GASB pronouncements (Statements and Interpretations), constitutes accounting principles generally accepted in the United States of America for governmental units. The Authority has elected not to follow subsequent private-sector guidance of the Financial Accounting Standards Board after November 30, 1989.

Proprietary Fund Types

Proprietary funds use the economic resources measurement focus. The accounting objectives are a determination of net income, financial position and cash flows. All assets and liabilities associated with a proprietary fund's activities are included on its Statement of Net Assets. The Proprietary Fund's Net Assets are segregated into amounts Invested in Capital Assets, net of related debt; Restricted Assets; and Unrestricted Assets.

C. Fixed Assets

Fixed assets are valued at historical cost. Contributed general fixed assets are recorded at fair market value at the time received. Interest expense incurred during the development period is capitalized.

Fixed assets include all land and site improvements thereon; all dwelling and nondwelling structures, including fixtures permanently attached thereto or installed in a fixed position; and all items of nonexpendable equipment acquired and held for the projects, all items of expendable equipment paid for from funds provided for the development of projects, and amounts of capital funds received from HUD for the purpose of purchasing capital improvements to its low rent projects.

Maintenance, minor repairs and replacements are recorded as expenses; extraordinary replacements of property resulting in property betterments are charged to the property accounts.

Depreciation is charged to operations using the straight-line method based on the estimated useful life of the related asset. The estimated useful lives of the various asset categories are as follows:

Buildings	40 years
Improvements	15 years
Equipment and vehicles	5 to 10 years

Note 3 - CASH AND INVESTMENTS

A. Policies

Nevada law requires banks and savings and loan institutions to pledge government securities with a market value of 110% of the Authority's cash on deposit or first trust deed mortgage notes with a market value of 150% of the deposit, as collateral for these deposits. Under Nevada law this collateral is held in a separate investment pool by another institution in the Authority's name and places the Authority ahead of general creditors of the institution.

The Authority and its fiscal agents invest in individual investments and in investment pools. Individual investments are evidenced by specific identifiable *securities instruments* or by electronic entry registering the owner in the records of the institution issuing the security, called the *book entry* system. In order to increase security, the Authority employs the Trust Department of a bank as the custodian of certain managed investments regardless of their form.

The Authority's investments are carried at fair value as required by generally accepted accounting principles. The Authority adjusts the carrying value of its investments to reflect their fair value at each fiscal year end, and it includes the effects of those adjustments in income for that fiscal year.

Cash and cash equivalents are considered to be liquid assets for purposes of measuring cash flows.

B. Classification

Cash and investments are classified in the financial statements as shown below based on whether or not their use is restricted under the terms of the Authority debt instruments or agency agreements. Cash and investments as of June 30, 2009 are as follows:

Cash and cash equivalents	\$ 5,804,170
Investments with trustees	<u>9,606,235</u>
Total cash and investments	<u>\$ 15,410,405</u>

The \$15,410,405 of cash and cash equivalents reflect \$5,802,920 maintained on deposit in banks, \$1,250 of petty cash, \$2,890,977 in bonds, \$5,621,326 in money market mutual funds, and \$1,093,932 in U.S. government securities. Of the amounts deposited into banks and certificates of deposit, \$1,981,216 is covered by federal deposit insurance. The remaining \$3,821,704, as previously stated, is required by Nevada law to be collateralized by governmental securities with a market value of 110% of the deposit or with first trust deed mortgages with a value of 150% of the uninsured amount.

The \$9,606,235 of investments with trustees reflects amounts held by trust departments of various Authority lending agencies. These investments are carried at fair value.

Cash and cash equivalents are considered to be liquid assets for purposes of measuring cash flows.

C. Interest Rate Risk

Interest rate risk is the risk that changes in the market interest rates will adversely affect the fair value of an investment. In general, the longer the maturity of an investment, the greater the sensitivity of its fair value to changes in market interest rates. Information about the sensitivity of the fair values of the Authority's investments (including investments held by bond trustees) to market rate fluctuations is provided by the following table that shows the distribution of the Authority's investments by maturity:

<u>Investment Type</u>	<u>12 Months or Less</u>	<u>One to Five Years</u>	<u>More Than Five Years</u>	<u>Total</u>
Bonds	\$ 2,890,977	\$ -	\$ -	\$ 2,890,977
U.S. government securities	1,093,932	-	-	1,093,932
Mutual funds	5,621,326	-	-	5,621,326
Total	<u>\$ 9,606,235</u>	<u>\$ -</u>	<u>\$ -</u>	<u>\$ 9,606,235</u>

D. Credit Risk

Generally, credit risk is the risk that an issuer of an investment will not fulfill its obligation to the holder of the investment. This is measured by the assignment of a rating by a nationally recognized statistical rating organization. Presented below is the actual rating as of June 30, 2009 for each Authority investment type as provided by Standard and Poor's. The following is a categorization of credit risk of the security investments.

The deposits and investments are classified by investment risk as prescribed by generally accepted accounting principles as follows:

- Category 1 – Deposits which are insured by deposit insurance
- Category 2 – Deposits which are collateralized
- Category 3 – Deposits which are uninsured or uncollateralized

Investments are carried at fair value and are categorized as follows at June 30, 2009:

	<u>Category</u>		<u>Total</u>
	<u>1</u>	<u>2</u>	
Certificates of deposit	\$ 2,890,977	\$ -	\$ 2,890,977
Money market mutual funds	-	5,621,326	5,621,326
U.S. Government Securities	-	1,093,932	1,093,932
Total Investments	<u>\$ 2,890,977</u>	<u>\$ 6,715,258</u>	<u>\$ 9,606,235</u>

Note 4 - INVESTMENTS IN PARTNERSHIPS

Investments in partnerships at June 30, 2009 consist of the following:

Joint Venture – Silver Sage Court	\$ 20,186
Yorkshire Terrace Limited Partnership	<u>69,396</u>
	<u>\$ 89,582</u>

The Authority entered into a joint venture agreement with Silver Sage Corporation to construct a sixteen-unit affordable housing complex for the elderly. Each of the units is a one bedroom unit. The joint venture agreement provided for the Authority to construct and administer the complex. The units were constructed on land previously owned by the Authority. As of June 30, 2009, the Authority's investment is \$20,186. The joint venture is accounted for on the equity basis of accounting. The Authority's share of the increase in equity for the 2009 fiscal year was \$2,424.

The Authority also entered into a limited partnership agreement with Yorkshire Terrace Limited Partnership. This partnership agreement was entered into for the purpose of constructing and administering a thirty-unit complex of three and four bedroom units. To assist with the construction costs the partnership received tax credits from the State of Nevada. The Authority acts as the general partner in the partnership and holds a one percent interest in the partnership. In order to construct the units the Authority contributed 5.21 acres of land for its one percent interest. The land was originally obtained by the Authority from the City of Reno. As of June 30, 2009, the Authority's investment is \$69,396. The partnership is accounted for on the equity basis of accounting. The Authority's share of partnership net loss for the fiscal year 2009 was \$1,495.
