# FY 2023 MOVING TO WORK

# **ANNUAL REPORT**

# **About RHA**

The Housing Authority of the City of Reno (RHA) was established on October 6, 1943, as a municipal corporation under Nevada Revised Statute (NRS) 315. Following its creation, RHA was appointed as the Public Housing Authority (PHA) for both the City of Sparks and Washoe County.

#### **Mission Statement**

Provide fair, sustainable, quality housing in diverse neighborhoods throughout Reno, Sparks and Washoe County that offers a stable foundation for low-income families to pursue economic opportunities, become self-sufficient and improve their quality of life.

# **Board of Commissioners**

David Aiazzi *Chairman* 

Jazzmeen Johnson *Vice Chairman* 

Hillary Schieve

Mark Sullivan

Kathleen Taylor

# **Management Team**

# Section I INTRODUCTION

# I. Introduction

# A. Agency Overview

Fiscal Year (FY) 2023, was RHA's tenth year as a Moving to Work (MTW) agency. Throughout the year, housing choice remained limited in the Truckee Meadows, and costs continued to climb. Although several consecutive years of economic growth and the resulting population influx diversified the workforce and bolstered the area's economy, the region's available housing inventory failed to keep pace. A housing shortage followed which led to significant increases in rents and an overall lack of affordable housing options for many low-income families. With the area's housing shortage continuing to linger, RHA's mission to provide sustainable and quality housing as a foundation for low-income families to pursue economic opportunities, become self-sufficient and improve their quality of life remained at the forefront for the agency. RHA's participation in MTW for over a decade has provided the agency with innovative ways to support the local community while also staying true to the agency's mission.

#### B. What is MTW?

MTW is a federal demonstration program, established by Congress in 1996, that offers a limited number of "high performing" PHAs the opportunity to propose and test innovative, locally designed approaches to administering housing programs and self-sufficiency strategies. The program permits PHAs to combine federal funds from the Public Housing (PH) operating fund, Capital Fund Program (CFP) and Housing Choice Voucher (HCV) program into a single, agency-wide funding source known as a "block grant". This block grant approach does not provide MTW PHAs with

additional funding from the U.S. Department of Housing and Urban Development (HUD) but allows PHAs to use their federal funding in a more flexible manner.

After receiving HUD's approval, PHAs participating in the MTW program can waive certain provisions in the United States Housing Act of 1937 along with some of HUD's requirements and regulations to explore different and creative ways to improve their housing programs. Implementing policy changes based on unique local circumstances allows each MTW PHA to more effectively address the challenges faced by low-income families in their community. However, each of the activities proposed and implemented by the PHA must address at least one of three MTW statutory objectives.

# RHA's designation as an MTW agency

After a national competition was held in 2012, RHA was selected and designated as one of four new MTW agencies in 2013. The MTW agreement between RHA and HUD, executed on June 27, 2013, was initially effective through RHA's FY 2018. On December 18, 2015, President Obama signed the FY 2016 Consolidated Appropriations Act into law. Pursuant to Section 239 of Title II, Division L of the Act, RHA's MTW agreement was extended through FY 2028.

#### **MTW Statutory Objectives**

- Increase housing choices for low-income families.
- Give incentives to families with children where the head of household is working, is seeking work, or is preparing for work by participating in job training, educational programs, or programs that assist people to obtain employment and become economically self-sufficient.
- Reduce costs and achieve greater cost effectiveness in federal expenditures.

Section I. Introduction Page | 6 of 126

# What is the purpose of the MTW Annual Report?

The MTW Annual Report highlights and details the MTW activities approved by HUD and implemented by RHA during the plan year. The report provides comparisons of actual outcomes to the benchmarks set forth in the FY 2023 MTW Annual Plan for each newly approved activity. It also provides an update on each of the ongoing activities that were approved and implemented by the agency in previous plan years. Overall, the report describes RHA's accomplishments in the areas of housing choice, self-sufficiency, and cost effectiveness. It is presented in the required outline and format established in Attachment B of RHA's executed MTW agreement with HUD.

Although RHA did not propose any new MTW activities in FY 2023, RHA received approval to amend the following two activities previously approved by HUD:

- Triennial recertifications for elderly and/or disabled participants on fixed incomes RHA revised this policy to allow any changes in the HCV payment standard to be applied if/when a contract rent increase (CRI) is implemented by the participant's landlord.
- Workforce Development Program
  RHA amended this activity to allow for any adult member of the household to sign a contract to participate in the Workforce Development Program while also allowing the household to accrue and receive an escrow upon program completion.

### Overview of RHA's short and long term MTW goals and objectives

RHA's MTW activities are focused on the principals set forth in the agency's mission statement as well as the goals outlined in its strategic plan. As a result, RHA identified the following four goals that continue to guide the agency's MTW program: (1) provide sustainable, quality housing in diverse neighborhoods; (2) offer a stable foundation for low-income families to pursue economic opportunities; (3) improve the quality of life for RHA's families; and (4) create activities that assist in the community's effort to house at risk populations. Throughout FY 2023, RHA's management and the agency's Board of Commissioners continued their execution of RHA's strategic plan which builds upon these core goals.

#### Progress toward goals and objectives

Utilizing the flexibilities available through MTW to expand housing choice, streamline agency operations and develop creative solutions that meet the needs of low-income families in our community continues to be the overarching goal of RHA's MTW program. New initiatives that further both the MTW statutory objectives and RHA's strategic plan will always be explored and proposed as an MTW activity if feasible.

In FY 2023, RHA explored new construction opportunities and continued to review the capital needs of each of its PH properties to identify necessary capital improvement expenditures that will preserve, maintain, and enhance each of these complexes. Despite the lack of federal funding to address the necessary repairs needed at PH properties across the country, RHA has strived to maintain its portfolio to the highest standards possible to ensure long-term viability.

To get a more accurate assessment of the current needs of RHA's PH properties, RHA procured a new PNA in FY 2022. Utilizing this data along with the portfolio analysis provided by Praxis Consulting Group, LLC, RHA began reviewing the viability of each property and ways the agency may sustain its portfolio over time. As a result, RHA applied for Section 18 Disposition for Hawk

Section I. Introduction Page | 7 of 126

View Apartments and applied for a blend of Rental Assistance Demonstration (RAD)/Section 18 at Silverada Manor.

Currently, RHA has no additional pending or approved applications for RAD, however each application will follow the prescribed disclosure and public/resident engagement process required by HUD. As resident engagement is required before and during the process, RHA's residents will be the first to know if/when an application for a RAD conversion is being considered.

#### Non-MTW goals and objectives

In addition to the short-term and long-term goals and objectives previously identified, in FY 2023 staff worked to achieve the short-term strategic goals identified by RHA's Board of Commissioners. Throughout FY 2023, RHA:

- Began asset repositioning utilizing RAD and Section 18.
- Reviewed and updated the HCV payment standards to ensure their viability with today's rental market to maintain adequate lease up levels within the HCV program.
- Assessed RHA's scattered site portfolio to evaluate estimated appraised value, capital needs, operating efficiency, energy efficiency, etc. A strategy will soon be developed to determine the best use of the portfolio to further affordable housing development and possibly provide homeownership opportunities to members of the community.
- Increased staff efficiencies through the implementation of an electronic document management system to manage the creation, use, and storage of documents in multiple formats that are created throughout the organization.
- Implemented new PHA application specific software, Yardi Systems, to increase staff efficiencies.
- Reviewed and revised the agency's Organization Chart to address the growing needs of the agency.
- Created a strategy to expand the overall footprint of RHA's Resident Services programs.

# **Section II**

# GENERAL OPERATING INFORMATION

# **II.** General Housing Authority Operating Information

#### **About RHA**

Currently, RHA manages 751 units of PH in eight different locations within the cities of Reno and Sparks that are leased to eligible low-income families, the elderly, and persons with disabilities. Utilizing the Neighborhood Stabilization Program (NSP) and other identified funding sources, RHA acquired over 200 scattered site properties throughout the local area; 166 of these are still a part of the agency's housing portfolio. While some of these scattered site rental properties are leased to higher income families, the majority are specifically allocated to house very low-income households. In addition to these PH and scattered site units, RHA owns nine unaided multi-family housing properties that provide an additional 376 affordable housing units and one LIHTC property providing 44 units of affordable housing to seniors. Working with a private property manager, RHA ensures that many of these properties are leased at levels that are lower than HUD's Fair Market Rents (FMRs) for Washoe County.

RHA also operates several rental assistance programs created under Section 8 of the 1974 Federal Housing and Community Development Act which provides housing assistance to more than 2,500 low-income families and individuals residing in privately owned housing throughout Reno, Sparks and Washoe County. RHA also works closely with the local Department of Veterans Affairs (VA) office to provide assistance to over 400 veterans through the HUD-VA Supportive Housing (VASH) Program. RHA was also awarded 137 Emergency Housing Vouchers (EHV) to assist unsheltered community members with housing and 15 vouchers through the Foster Youth to Independence (FYI) Program. Through all of these programs, RHA helps ensure nearly 6,000 people in the Truckee Meadows have a safe, secure place to call home.

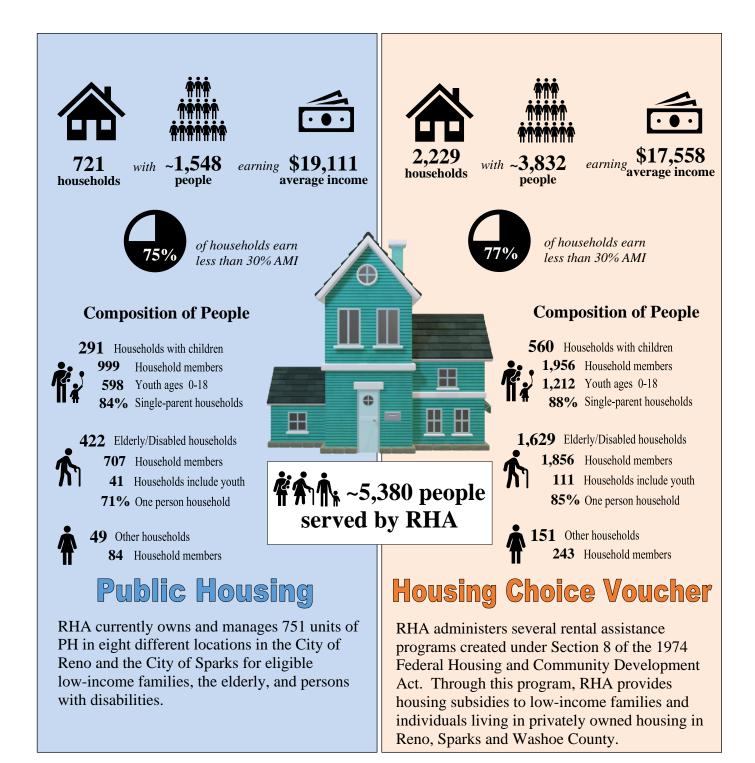

#### **Households Served**

Throughout FY 2023, RHA served 3,186 households through its PH and HCV programs of which 236 households moved off for various reasons. Overall, this included 1,985 children, 1,796 people with disabilities and 1,620 elderly household members. At the end of FY 2023, the average income for households living in RHA's PH complexes was \$19,111 and 74.76% of these households had annual incomes at or below 30% of the Area Median Income (AMI). Similarly, the average income for households assisted through RHA's HCV program on June 30, 2023, was \$17,558 and 77.21% of these households had annual incomes at or below 30% of the AMI.

Some household members are both elderly and disabled. On June 30, 2023, RHA had served 686 HCV household members and 200 PH household members who were both elderly and disabled.

On June 30, 2023, RHA was providing housing assistance to 2,950 active households through its PH and HCV programs.<sup>2</sup>

<sup>&</sup>lt;sup>2</sup> Number of active households indicated here does not include VASH, FYI or EHV participants.

The following table shows demographic information for active PH residents and HCV participants who were housed on June 30, 2023. The table includes residents/participants who were leased up under RHA's programs but excludes households who ported out of RHA's jurisdiction as well as those assisted through the VASH, EHV, and FYI programs.

Assisted families housed on June 30, 2023				
	PH res	PH residents		rticipants
Total # households	721	100%	2,229	100%
Income Level

# A. Housing Stock Information

# i. Actual New Project Based Vouchers

The following table reflects tenant-based vouchers that RHA project-based for the first-time during FY 2023 and includes only those where at least an Agreement to enter a Housing Assistance Payment (AHAP) was in place by the end of FY 2023.

Property Name	Number of Vouchers Newly Project-Based		Status at End of Plan Year**	RAD?	Description of Project	
	Planned*	Actual	т еаг 🐃			
Privately Owned Properties	25	16	Committed	No	Privately owned properties are assigned PBVs through a competitive process in exchange for their commitment to provide affordable housing to individuals and/or families.	
Total: Planned or Actual Newly Project-Based	25	16				

<sup>\*</sup> Figures in the "Planned" column should match the corresponding Annual MTW Plan.

#### Differences between the Planned and Actual Number of Vouchers Newly Project-Based:

RHA has 16 PBVs assigned to two privately owned complexes that are under construction. Both properties had an AHAP is in place at the end of FY 2023.

<sup>\*\*</sup> Select "Status at the End of Plan Year" from: Committed, Leased/Issued

#### ii. **Actual Existing Project-Based Vouchers**

The following table reflects tenant-based vouchers that RHA is currently project-basing in FY 2023 and includes only those where a HAP contract was in place by the beginning of FY 2023.

Property Name	Number of Project-Based Vouchers		Status at End of Plan RAD?		Description of Project	
	Planned*	Actual	Year**			
Mobility/ Opportunity Properties	38	19	Leased/ Issued	No	PH residents in good standing are allowed to move to RHA's scattered site properties on a two-year PBV.	
Single Family Home PBVs	16	11	Leased/ Issued	No	Single-family homes purchased under NSP2 and other programs are shifted to PBVs if a vacancy occurs.	
Yorkshire Terrace	16	11	Leased/ Issued	No	RHA is assigning PBVs to units at Yorkshire Terrace, a 30-unit LIHTC property.	
Partnerships	11	5	Leased/ Issued	No	RHA has agreements with several nonprofit community partners to provide affordable housing to their clients.	
Willie J. Wynn Apartments	12	12	Leased/ Issued	No	An affordable housing development designed specifically to support seniors aging in place.	
Privately Owned Properties	25	45³	Leased/ Issued	No	Privately owned properties are being assigned PBVs through a competitive process in exchange for their commitment to provide affordable housing to individuals and/or families.	
Total:	118	103				

Figures and text in the "Planned" column should match the corresponding Annual MTW Plan.

# Differences between the Planned and Actual Existing Number of Vouchers Project-Based:

RHA does not assign a PBV to any agency owned property until the unit is or becomes vacant. Due to the tightening rental market in Reno, Sparks, and Washoe County, many of the properties that RHA staff would have considered for the assignment of a PBV have remained occupied. Furthermore, many of the participants residing in a PBV unit have increased their income enough that they begin paying full contract rent. In many cases, these participants continue to lease the unit without any housing assistance and RHA must remove the PBV from the unit.

Select "Status at the End of Plan Year" from: Committed, Leased/Issued

It is important to note that RHA also has 75 VASH vouchers that have been project-based and assigned to four privately owned properties in Washoe County.

# iii. Actual Other Changes to MTW Housing Stock in the Plan Year

Examples of the types of other changes include (but is not limited to): units held off-line due to relocation or substantial rehabilitation, local, non-traditional units to be acquired/developed, etc.

#### **Actual Other Changes to MTW Housing Stock in the Plan Year**

In FY 2023, there were no changes to the MTW housing stock, however, RHA continues to look for single family homes, duplexes, and condominiums for use with PBVs. Scattered site properties located in low poverty neighborhoods will be identified and reviewed to determine if they should be used for RHA's Mobility Demonstration. All other properties acquired will be used to provide additional housing choice for low-income families and individuals through RHA's opportunity and single-family home PBVs.

## iv. General Description of All Actual Capital Expenditures During the Plan Year

#### General Description of All Actual Capital Expenditures during the Plan Year

As of June 30, 2023, the following CFP expenditures were carried out:

#### **Essex Manor:**

Water Heater Replacement \$605,000 Playground Upgrade \$75,000

#### **Myra Birch:**

Playground Upgrade \$47,195.96

#### **McGraw Court:**

Water Heater Replacement \$158,149 HVAC Replacement \$304,000

**FY23 Actual Capital Expenditures** 

\$1,189,344.96

# **B.** Leasing Information

#### i. Actual Number of Households Served

Snapshot and unit month information on the number of households RHA served on June 30, 2023.

Number of Households Served Through:	Number of U Occupied/		Number of Households Served**	
	Planned^^	Actual	Planned^^	Actual
MTW Public Housing Units Leased	8,676	8,652	723	721
MTW Housing Choice Vouchers (HCV) Utilized	26,868	26,748	2,239	2,229
Local, Non-Traditional: Tenant-Based	0	0	0	0
Local, Non-Traditional: Property-Based	516	444	43	37 <sup>4</sup>
Local, Non-Traditional: Homeownership	0	0	0	0
	26.060	25.044	2.00=	• • • •

Planned and Actual Totals: 36,060 35,844 3,005 2,987

#### Please describe any differences between the planned and actual households served:

On June 30, 2023, RHA had its PH program leased at 94% of the MTW baseline. This is only a slight decrease from the number of households the agency planned to serve.

The number of actual families served by RHA's HCV program on June 30, 2023 was 2,229. Although a slight decrease from the planned number of households, RHA has continued to maintain lease up within its HCV program when comparing prior years. Staff will continue to monitor the HCV program to ensure that efforts put in place to increase and maintain lease up remain effective.

As plans to reposition Silverada Manor and Hawk View Apartments, two of RHA's PH complexes, progress RHA has begun to hold Public Housing units for future relocation purposes. In addition to these PH units, RHA will utilize HCVs for relocation.

Eddy House, RHA's first LNT Property Based partnership, had planned 43 shelter beds; a portion of which are allocated specifically to house youth on a semi-permanent basis up to six months.

<sup>\* &</sup>quot;Planned Number of Unit Months Occupied/Leased" is the total number of months the MTW PHA planned to have leased/occupied in each category throughout the full Plan Year (as shown in the Annual MTW Plan).

<sup>\*\* &</sup>quot;Planned Number of Households to be Served" is calculated by dividing the "Planned Number of Unit Months Occupied/Leased" by the number of months in the Plan Year (as shown in the Annual MTW Plan).

AA Figures and text in the "Planned" column should match the corresponding Annual MTW Plan.

To accurately report on the number of households served utilizing this LNT activity, this number is based on a 12-month average rather than the actual number of beds funded for the month of June 2023.

Local, Non- Traditional	MTW Activity Name/Number	Number ( Mont Occupied/l	hs	Number of Households to be Served*	
Category		Planned^^	Actual	Planned^^	Actual
Tenant-Based	N/A	N/A	N/A	N/A	N/A

Homeownership	N/A	N/A	N/A	N/A	N/A
	Planned/Actual Totals:	576	444	43	37

<sup>\*</sup> The sum of the figures provided should match the totals provided for each Local, Non-Traditional category in the previous table. Figures should be given by individual activity. Multiple entries may be made for each category if applicable.

<sup>^^</sup> Figures and text in the "Planned" column should match the corresponding Annual MTW Plan.

Households Receiving Local,	Average Number of	Total Number of
Non-Traditional Services Only	Households per Month	Households in the Plan Year
Program Name/Services Provided	N/A	N/A

# ii. Discussion of Any Actual Issues/Solutions Related to Leasing

Discussion of any actual issues and solutions utilized in the MTW housing programs listed.

Housing Program	Description of Actual Leasing Issues and Solutions
MTW Public Housing	At the end of FY 2023, RHA leased this program at 94% of the MTW baseline. Currently, units are being held at several locations to accommodate relocation of residents at Silverada Manor and Hawk View Apartments in preparation for repositioning. For units that are not being held, common leasing issues typically involve tenant preferences being requested, which if not provided, result in the tenant's refusal to lease a unit. These preferences often include the size of the unit being offered, the location of the property, or the lack of desired amenities. Compounding the longer leasing times are the normal vacancy issues that delay the turn of the unit including tenant damage and the disposal of personal property in accordance with Nevada Revised Statutes (NRS). RHA continues to select applicants off the waiting list based on preferences set forth in the Admissions and Continued Occupancy (ACOP) for Public Housing for referral to vacant PH units.
MTW Housing Choice Voucher	Washoe County continues to experience a strengthening housing market that resulted in an overall shortage of affordable housing units. With limited inventory and an influx in population due to the relocation of several tech companies to the region, the need for additional housing stock continues to grow. This tight market led to an increase in the desire for many private landlords to make more profit rather than rent to HCV participants.  In FY 2023, RHA leased this program steadily around 91% of the MTW baseline. To maintain lease up numbers within its HCV program, RHA continued to monitor its payment standards to ensure they are accurately reflecting local market conditions, expanded its Landlord Incentive Program, and implemented a "lease in place" preference. In November 2022, RHA adopted Exception Payment Standards for 12 specific zip codes throughout the Truckee Meadows where rents were unaffordable based on RHA's traditional payment standards. Staff anticipates that the adoption of these small area payment standards will facilitate leasing in low-poverty neighborhoods and increase housing choice for RHA's voucher holders. To further assist the lease up of this program, RHA hired a Landlord Liaison. The Landlord Liaison serves as the primary point of contact for anything landlord related and works to promote the HCV program to new landlords while retaining existing landlords throughout Washoe County.

# C. Wait List Information

#### i. Actual Wait List Information

Snapshot information on the actual status of MTW wait lists at the end of FY 2023 including detail on the structure of the wait list and the population(s) served. The information reflected below is current as of June 30, 2023.

Wait List Name	Description	Number of Households on Wait List	Wait List Open Partially Open or Closed	Was the Wait List Opened During the Plan Year
Public Housing	1-4 Bedroom Units	5,013	Closed	Yes
Stead PH	2- & 3-Bedroom Units, located at Stead Manor	2,762	Closed	Yes
Elderly and Disabled PH	Studio, 1- & 2-Bedroom Units	2,025	Closed	Yes
Housing Choice Voucher	Section 8	3,244	Closed	No
Project Based Voucher	Unit Based Vouchers	2,195	Closed	No

# Please describe any duplication of applicants across wait lists:

At the time of application, clients may apply for all open wait lists. Therefore, the numbers above could include households who have applied for more than one program and/or bedroom size.

# ii. Actual Changes to Wait List in the Plan Year

Actual changes to the organizational structure or policies of the wait list(s), including any opening or closing of a wait list during FY 2023.

Wait List Name	Description of Actual Changes to Wait List
Housing Choice Voucher	The HCV wait list remained closed throughout FY 2023.
Public Housing	The PH family wait lists for two- ,three- , and four-bedroom sizes were open from March 27, 2023 to April 21, 2023.
Elderly and Disabled PH	On February 28, 2022 the wait lists for elderly/disabled studio units were opened. Both the studio and two-bedroom wait lists remained open until July 13, 2022. The two-bedroom wait list was reopened on November 7, 2022. It remained open until November 30, 2022.
Stead PH	In FY 2023, this wait list was open from March 27, 2023 to April 21, 2023.
Project Based Voucher	The PBV wait lists for all bedroom sizes remained closed throughout FY 2023.

# D. <u>Information on Statutory Objectives and Requirements</u>

# i. 75% of Families Assisted Are Very Low Income

The following table provides data for the actual families housed upon admission during RHA's FY 2023 Plan Year. Families receiving "Local, Non-Traditional Services Only" are not included.

Income Level	Number of Local, Non-Traditional Households Admitted in the Plan Year
80%-50% Area Median Income	0
49%-30% Area Median Income	0
Below 30% Area Median Income	37 <sup>5</sup>

Total Local, Non-Traditional Households Admitted

37

On August 22, 2023, Eddy House provided RHA certification that their clients are under 30% AMI. Many (63.3%) are unemployed upon their initial contact with Eddy House services. Those who are employed (36.7%) fall well under 30% AMI when sharing their paystubs with case managers and the intake team at Eddy House.

### ii. Maintain Comparable Mix

Baseline Mix of Family Sizes Served (upon entry to MTW)						
Family Size	Occupied Public Housing Units	Utilized HCVs	Non-MTW Adjustments*	Baseline Mix Number	Baseline Mix Percentage	
1 Person	284	1,307	0	1,591	50.88%	
2 Person	207	433	0	640	20.47%	
3 Person	115	290	0	405	12.95%	
4 Person	76	192	0	268	8.57%	
5 Person	40	107	0	147	4.70%	
6+ Person	23	53	0	76	2.43%	
TOTAL	745	2,382	0	3,127	100%	

<sup>\* &</sup>quot;Non-MTW Adjustments" are defined as factors that are outside the control of the MTW PHA. An example of an acceptable "Non-MTW Adjustment" would include demographic changes in the community's overall population. If the MTW PHA includes "Non-MTW Adjustments," a thorough justification, including information substantiating the numbers given, should be included.

#### Please describe the justification for any "Non-MTW Adjustments" given:

No baseline adjustments given.

	Mix of Family Sizes Served (in Plan Year)							
Family Size	Baseline Mix Percentage**	Number of Households Served in Plan Year^	Percentage of Households Served in Plan Year^^	Percentage Change from Baseline Year to Current Plan Year				
1 Person	50.88%	1,816	60.80%	8.81%				
2 Person	20.47%	492	16.47%	-3.53%				
3 Person	12.95%	271	9.07%	-3.59%				
4 Person	8.57%	187	6.26%	-2.12%				
5 Person	4.70%	114	3.82%	-0.78%				
6+ Person	2.43%	70	2.34%	-0.03%				
TOTAL	100%	2,958	100%	-1.24%				

<sup>\*\*</sup> The "Baseline Mix Percentage" figures given in the "Mix of Family Sizes Served (in Plan Year)" table should match those in the column of the same name in the "Baseline Mix of Family Sizes Served (upon entry to MTW)" table.

<sup>^</sup> The "Total" in the "Number of Households Served in Plan Year" column should match the "Actual Total" box in the "Actual Number of Households Served in the Plan Year" table in Section II.B.i. of this Annual MTW Report.

<sup>^^</sup> The percentages in this column should be calculated by dividing the number in the prior column for each family size by the "Total" number of households served in the Plan Year. These percentages will reflect adjustment to the mix of families served that are due to the decisions of the MTW PHA. Justification of percentages in the current Plan Year that vary by more than 5% from the Baseline Year must be provided below.

# Please describe the justification for any variances of more than 5% between the Plan Year and Baseline Year:

As of June 30, 2023, 1,692 or 93.17% of RHA's one person households were elderly and/or disabled. Once housed, these families are far more likely to remain in the unit. The average length of stay for the 27 one person households who moved out of RHA's PH complexes throughout FY 2023 was 93.37 months. Similarly, the average length of stay for the 102 one person households who ended their participation in the HCV program was 113.51 months. When comparing the length of stay for all other households, the average length of stay is 52.00 months in the PH program and 90.55 months in the HCV program. This stability coupled with the fact that many of homeless applicants served by RHA are also single person households account for RHA's continued variance between the plan year and the baseline year.

# iii. Number of Households Transitioned to Self-Sufficiency in the Plan Year

In FY 2017, RHA staff began reviewing the agency's definition of self-sufficiency to determine whether it accurately captured whether a household should be considered self-sufficient. After deliberation, RHA staff decided that moving forward, the agency should look at self-sufficiency in two phases. The first phase occurs as household members maintain consistent employment for 12 months or when a reduction in subsidy results in the household being responsible for more than 50% of the rent. The final phase of self-sufficiency occurs automatically once the household is no longer receiving assistance or when the household voluntarily ends participation.

Throughout FY 2023, a total of 235 families moved-off of RHA's HCV and PH programs. Of these, 80 voluntarily left or were determined no longer eligible for the HCV program and 34 moved off the PH program voluntarily.

RHA acknowledges the challenges our clients face in successfully obtaining self-sufficiency. The cost of housing in the Truckee Meadows continues to climb while the obstacles to earn a living wage remain, making the objective of self-sufficiency difficult to attain.

The table below reflects only those households who (1) were affected by one of RHA's implemented MTW activities and (2) met RHA's definition of the final phase of self-sufficiency.

MTW Activity Name/Number	# of Households Transitioned to Self-Sufficiency*	RHA's Definition of Self-Sufficiency
Mobility Demonstration / 2014-02	4	
Simplify rent calculations and increase the minimum rent / 2014-05	17	
Disregard earned income of PH household members, age 18-20, who are not the head of household, co-head, or spouse / 2016-06	0	Household is no longer receiving assistance or has voluntarily ended participation.
Provide incentive to \$0 HAP households / 2019-02	17	
Workforce Development Program / 2022-01	2	
	20	(Households Duplicated Across Activities)
	20	Total Households Transitioned to Self-Sufficiency

<sup>\*</sup> Figures should match the outcome reported where metric SS#8 is used in Section IV of this Annual MTW Report.

**Section III** 

# PROPOSED ACTIVITIES

# **III.** Proposed Activities

All proposed MTW activities that were granted approval by HUD are reported in Section IV as 'Approved Activities'.

**Section IV** 

# APPROVED ACTIVITIES

# IV. Approved Activities

# A. Implemented Activities

The activities discussed in this section have been previously approved by HUD and implemented by RHA. The following table provides an overview of all approved MTW activities including the year it was implemented and amended (if applicable), the primary statutory objective(s) the activity is intended to impact, and the authorization(s) cited.

	Approved/Implemented MTW Activities						
Activity #	Activity Name	Fiscal Year Implemented/ Amended	Statutory Objective(s)	Authorization(s)			
2014-02	Mobility Demonstration	2014	Increase housing choice for low-income families and create incentives for families to work, seek work or prepare for work.	Attachment C Sections D.1.b., D.4., D.7.a., and E.			
2014-05	Simplify rent calculations and increase the minimum rent	2014	Reduce costs and achieve greater cost effectiveness.	Attachment C Sections C.4., C.11., D.2.a., and D.3.b.			
2014-06	Triennial recertifications for elderly/disabled participants on fixed incomes	2014 amended 2015 amended 2017 amended 2018 amended 2023	Reduce costs and achieve greater cost effectiveness.	Attachment C Sections C.4. and D.1.c.			
2015-01	Elimination of all negative rents and simplification of HCV utility allowances	2015	Reduce costs and achieve greater cost effectiveness.	Attachment C Sections C.11. and D.2.a.			
2015-02	Allow RHA to inspect its own HCV units	2015	Reduce costs and achieve greater cost effectiveness.	Attachment C Sections C.9.a. and D.5.			
2016-01	Simplification of medical deductions	2016 amended 2018	Reduce costs and achieve greater cost effectiveness.	Attachment C Sections C.11. and D.2.a.			
2016-02	Redefine near-elderly person	2016	Increase housing choice for low-income families.	Attachment C Section C.2.

# 2014-02: Mobility Demonstration

#### Plan Year Approved, Implemented and Amended (if applicable):

This activity was identified, approved, and implemented in FY 2014.

# **MTW Statutory Objective(s):**

Increase housing choice for low-income families <u>and</u> provide incentives to families with children where the head of household is working, is seeking work, or is preparing for work by participating in job training, educational programs, or programs that assist people to obtain employment and become economically self-sufficient.

#### **Description:**

RHA's Mobility Demonstration allows low-income PH families with children to move to deconcentrated neighborhoods of opportunity. To make this possible for these families, RHA is assigning PBVs to single family homes, duplexes, and condominiums within low-poverty census tracts throughout the cities of Reno and Sparks. Following HUD's approval of a new PBV or the vacancy of an existing PBV unit that has been identified for this activity, PH families who meet the established requirements to participate in the Mobility Demonstration, are offered the opportunity to move into one of the properties.

The demonstration was established to encourage employment and upward mobility amongst qualified PH residents. Therefore, if a household is unemployed at the time of lease up or becomes unemployed at any time during their participation in the Mobility Demonstration, they are given 120 days to obtain employment. If employment is not secured within 120 days, they are referred to the Workforce Development Program unless they are otherwise determined to be exempt.

#### **Impact:**

By the end of FY 2023, a total of 52 former PH families with children had agreed to participate in the Mobility Demonstration and move to properties in low-poverty census tracts. To date, 22 of these families have become completely self-sufficient and moved off housing assistance, while 14 families were removed from the program for various other reasons. There are currently 16 families participating in the Mobility Demonstration.

### **Update/Status:**

Due to current real estate market conditions, the growth of the Mobility Demonstration has remained stagnated. Throughout FY 2023, RHA was only able to increase participation in the program by three households due to the limited availability of properties within low poverty neighborhoods where a PBV can be assigned. Although this program remains small, it continues to be an exciting program for RHA to offer its qualified PH residents.

RHA continues to collect data on each family who agrees to participate in the Mobility Demonstration. This data is being analyzed by the University of Washington (UW) to evaluate the overall progress of these families. UW's most recent analysis of the program can be found at the end of this report (Attachment 1).

The activity remains ongoing.

#### **Activity Metrics:**

The following HUD Standard Metrics were identified and continue to be tracked for this activity.

2014-02 SS #1: Increase in Household Income						
Average earned	income of househ	olds affected by thi	s policy in dollars (increase	?).		
Unit of Measurement	Renchmark					
Average amount of earned income of Mobility Demonstration households.	\$15,007	\$15,757 <sup>6</sup>	\$27,310 <sup>7</sup> FY 2022: \$30,570  FY 2021: \$23,581  FY 2020: \$21,572  FY 2019: \$24,020  FY 2018: \$23,418  FY 2017: \$21,649  FY 2016: \$16,297  FY 2015: \$16,733  FY 2014: No Change	Yes		

2014-02 SS #2: Increase in Household Savings				
Average amount of sa	vings/escrow of he	ouseholds affected	by this policy in dollars (inc	crease).
Unit of Measurement	Baseline	Benchmark	Outcome	Benchmark Achieved?
Average amount of savings/ escrow of participating Mobility Demonstration households.	\$231	\$531 <sup>8</sup>	\$1,349°  FY 2022: \$1,276  FY 2021: \$1,404  FY 2020: \$2,358  FY 2019: \$1,606  FY 2018: \$1,521  FY 2017: \$1,714  FY 2016: \$925  FY 2015: \$410  FY 2014: No Data	No

<sup>&</sup>lt;sup>6</sup> Benchmark based on a 5% increase in earned income year over year, or an increase of roughly \$750/year.

Throughout most of FY 2023, 20 households were leased up under the Mobility Demonstration program of which 11 had earned income as of June 30, 2023. The amount of earned income reported under this metric is based on the 12-month average of all Mobility Demonstration households who had earned income throughout the year.

Benchmark based on an increase in household savings of \$25 per month or \$300 per year.

Six Mobility Demonstration participants have a savings account with an average balance of \$578 and 14 participants have a checking account with an average balance of \$771.

#### 2014-02 SS #3: Increase in Positive Outcomes in Employment Status Report each type of employment status for those head(s) of households affected. **Benchmark** Outcome<sup>10</sup> **Unit of Measurement Baseline** Benchmark Achieved? 5 or 25% (5 HOH, 0 Co-Head) FY 2022: 8 or 38% FY 2021: 8 or 35% FY 2020: 7 or 30% **Employed Full-Time** 8 or 25% 14 or 34% No FY 2019: 8 or 35% FY 2018: 9 or 36% FY 2017: 10 or 38% FY 2016: 7 or 24% FY 2015: 10 or 31% FY 2014: 11 or 50% 5 or 25% (5 HOH, 0 Co-Head) FY 2022: 3 or 14% FY 2021: 6 or 26% FY 2020: 6 or 26% **Employed Part-Time** 9 or 28% 24 or 61% No FY 2019: 9 or 39% FY 2018: 8 or 32% FY 2017: 8 or 31% FY 2016: 9 or 31% FY 2015: 8 or 25% FY 2014: 5 or 23% 0 or 0% FY 2022: 0 or 0% FY 2021: 1 or 4% FY 2020: 0 or 0% Enrolled in an Educational 0 or 0% 0 or 0% FY 2019: 1 or 4% Yes **Program** FY 2018: 2 or 8% FY 2017: 1 or 4% FY 2016: 1 or 3% FY 2015: 1 or 3% FY 2014: 2 or 9%

Throughout FY 2023, 20 households were leased up under the Mobility Demonstration program. The percentage calculation for each employment status within this metric includes co-head members, where applicable. In these instances, the actual breakdown of the number of head of households and co-heads included in the count is clearly noted.

Unit of Measurement	Baseline	Benchmark	Outcome <sup>11</sup>	Benchmark Achieved?
Enrolled in Job Training Program	0 or 0%	0 or 0%	0 or 0%  FY 2022: 0 or 0%  FY 2021: 0 or 0%  FY 2020: 10 or 43%  FY 2019: 10 or 43%  FY 2018: 8 or 32%  FY 2017: 0 or 0%  FY 2016: 0 or 0%  FY 2015: 12 or 38%  FY 2014: no data	Yes
Unemployed	14 or 44%	2 or 5%	11 or 44% (9 HOH, 2 Co-Head) FY 2022: 13 or 62% FY 2021: 12 or 52% FY 2020: 14 or 49% FY 2019: 10 or 43% FY 2018: 12 or 48% FY 2017: 12 or 46% FY 2016: 12 or 41% FY 2015: 13 or 41% FY 2014: 6 or 27%	No <sup>12</sup>
Other	N/A	N/A	N/A	N/A

2014-02 SS #4: Households Removed from Temporary Assistance for Needy Families (TANF)					
Numb	er of households r	eceiving TANF ass	ristance (decrease).		
Unit of Measurement Baseline Benchmark Outcome Benchmark Achieved					
Mobility Demonstration households receiving TANF assistance.	2	2	0 FY 2022: 1 FY 2021: 0 FY 2020: 0 FY 2019: 1 FY 2018: 2 FY 2017: 2 FY 2016: 4 FY 2015: 4 FY 2014: 2	Yes	

Throughout FY 2023, 20 households were leased up under the Mobility Demonstration program. The percentage calculation for each employment status within this metric includes co-head members, where applicable. In these instances, the actual breakdown of the number of head of households and co-heads included is clearly noted.

This metric includes one unemployed HOH with an exemption from being required to participate in the Workforce Development Program.

#### 2014-02 SS #5: Households Assisted by Services that Increase Self-Sufficiency Number of households receiving services aimed to increase self-sufficiency (increase). Benchmark Outcome<sup>13</sup> **Unit of Measurement Baseline Benchmark** Achieved? 20 FY 2022: 21 FY 2021: 23 Mobility Demonstration FY 2020: 24 households receiving FY 2019: 24 0 2 Yes services aimed to increase FY 2018: 21 self-sufficiency. FY 2017: 21 FY 2016: 16 FY 2015: 9 FY 2014: 2

2014-02 SS #6: Reducing Per Unit Subsidy Costs for Participating Households				
Average amount of Section	8 and/or 9 subsidy	per household aff	ected by this policy in dolla	rs (decrease).
Unit of Measurement	Baseline <sup>14</sup>	Benchmark	Outcome	Benchmark Achieved?
Average amount of Section 8 and/or 9 subsidy per Mobility Demonstration household.	\$269,280	\$266,251	\$120,413 <sup>15</sup> FY 2022: \$111,450  FY 2021: \$107,616  FY 2020: \$116,052  FY 2019: \$112,946  FY 2018: \$122,160  FY 2017: \$145,213  FY 2016: \$145,464  FY 2015: \$167,424  FY 2014: \$124,872	Yes

All Mobility Demonstration households can take advantage of the Workforce Development Program, however only those who are unemployed for longer than 120 days are referred to the program and required to participate.

Baseline has been calculated based on the average ceiling rent for each PH complex (\$776) less the average TTP at each PH complex based on the bedroom size (\$235) of current Mobility Demonstration households at time of admission.

RHA paid an average of \$501.72/per family in HAP payments or \$10,034.38 per month for the 20 families who participated in the Mobility Demonstration throughout FY 2023.

2014-02 SS #7: Increase in Agency Rental Revenue				
PHA rental revenue in dollars (increase).				
Unit of Measurement	Baseline	Benchmark	Outcome	Benchmark Achieved?
Increase in RHA rental revenue.	\$0	\$347,534	\$301,644  FY 2022: \$326,520 FY 2021: \$322,638 FY 2020: \$305,304 FY 2019: \$303,810 FY 2018: \$292,554 FY 2017: \$266,107 FY 2016: \$251,700 FY 2015: \$245,553 FY 2014: \$73,058	No

2014-02 SS #8: Households Transitioned to Self-Sufficiency				
Number of households transitioned to self-sufficiency (increase).				
Unit of Measurement	Baseline	Benchmark	Outcome <sup>16</sup>	Benchmark Achieved?
Mobility Demonstration households transitioned to self-sufficiency.	0	2	4  FY 2022: 2  FY 2021: 0  FY 2020: 1  FY 2019: 3  FY 2018: 2  FY 2017: 2  FY 2016: 2  FY 2015: 4  FY 2014: 1	No

In FY 2017, RHA changed its definition of self-sufficiency to two phases. The first phase occurs as household members maintain consistent employment for 12 months or when a reduction in subsidy results in the household being responsible for more than 50% of the rent. The final phase of self-sufficiency occurs automatically once the household is no longer receiving assistance or when the household voluntarily ends participation. The outcome for this metric includes only those households who have met the final phase of self-sufficiency per RHA's definition.

Furthermore, the outcome includes only households who were active in in FY 2023, it does not include families who moved off the program prior to FY 2023. Of the households currently leased up under the Mobility Demonstration, eight have met RHA's first phase of self-sufficiency.

2014-02 HC #5: Increase in Resident Mobility				
Number of households able to move to a better unit and/or neighborhood of opportunity (increase).				
Unit of Measurement	Baseline	Benchmark	Outcome	Benchmark Achieved?
Mobility Demonstration households able to move to a better unit and/or neighborhood of opportunity.	0	40	FY 2022: 49 FY 2021: 49 FY 2020: 47 FY 2019: 45 FY 2018: 43 FY 2017: 39 FY 2016: 36 FY 2015: 32 FY 2014: 22	Yes

2014-02 HC #7: Households Assisted by Services that Increase Housing Choice				
Number of households receiving services aimed to increase housing choice (increase).				
Unit of Measurement	Baseline	Benchmark	Outcome	Benchmark Achieved?
Mobility Demonstration households receiving services.	0	Total # of Mobility Demonstration participants expected overall is 40.	FY 2022: 49 FY 2021: 49 FY 2020: 47 FY 2019: 45 FY 2018: 43 FY 2017: 39 FY 2016: 36 FY 2015: 32 FY 2014: 22	Yes

The following RHA Local Metric was identified and continues to be tracked for this activity:

2014-02 RHA Local Metric: Improvement in poverty level of census tract				
Improvement in poverty level of census tract for families participating in the Mobility Demonstration.				
Unit of Measurement	Baseline	Benchmark	Outcome	Benchmark Achieved?
Improvement in census tract poverty level for participating families.	31.72%	20%	6.63% 17	Yes

\_

This is an average percentage of people who are below the poverty line based on the census tract where each of the Mobility Demonstration properties are located. This ranges from a low of 3.73% of people in the census tract below the poverty line to a high of 24.65%.

The following table provides the actual percentage of people living below the poverty line for each census tract where RHA's PH family complexes are located. It also provides the number of residents from each complex who have participated in the Mobility Demonstration and the improvement in percentage of households below the poverty line within the new neighborhoods chosen by Mobility Demonstration participants. On average, by participating in the Mobility Demonstration, these PH families have moved to neighborhoods where the poverty level has effectively been decreased by 78% based solely on census tract information at the time of Mobility Demonstration move-in.

Improvement in	neighborhood pover	ty lines for Mobility De	monstration participants
PH complex	Number of families in Mobility Demonstration from PH complex	Percentage of people below poverty line in census tracts where PH complexes are located	Percentage of people below poverty line in census tracts chosen by Mobility Demonstration participants from each PH complex
Essex Manor	12	20.42	9.58, 16.03, 14.89, 14.89, 14.89, 14.89, 14.89, 9.79, 10.91, 13.17, 9.58, 4.28, 24.65
Hawk View Apartments	13	44.06	22.21, 22.21, 7.24, 9.58, 9.58, 9.58, 14.89, 14.89, 7.5, 7.5, 22.21, 4.28, 24.65
Mineral Manor	12	30.48	10.25, 22.21, 16.03, 19.31, 14.89, 24.65, 9.79, 10.91, 10.91, 22.21, 4.28, 24.65
Myra Birch Manor	6	23.76	14.89, 22.21, 24.65, 4.44, 7.17, 4.66
Stead Manor	9	34.73	10.25, 9.58, 9.58, 16.03, 10.91, 10.91, 4.28, 4.28, 10.91

## **Hardship Policy:**

For any issues pertaining to a tenant's inability to pay rent, the Housing Choice Voucher Program's hardship policy will be in effect.

For issues pertaining to an unemployed resident's referral and required participation in the Workforce Development Program, the participant must request a temporary exemption within thirty (30) days that can be verified by a medical professional. If a participant does not participate in the Workforce Development Program and does not provide verifiable documentation of his/her inability to comply, the Workforce Development Coordinators may initiate termination of the resident's assistance under the HCV program as allowed under 24 CFR §984.303(b)(5)(iii).

## **Hardship Requests:**

There are currently 11 households with unemployed heads of households or co-heads. Of these 11 households, one is elderly/disabled. The additional households who are currently unemployed will

be referred to the Workforce Development Program should they fail to gain employment in the coming months.

To date, there have been no hardship requests related to this activity.

## **Actual Non-Significant Changes:**

There are no actual non-significant changes.

## **Actual Changes to Metrics/Data Collection:**

There are no actual changes to the metrics/data collection.

## **Actual Significant Changes:**

There are no actual significant changes.

#### **Challenges in Achieving Benchmarks and Possible Strategies:**

As of June 30, 2023, 16 of 36 Mobility Demonstration properties are occupied and leased with a PBV. In addition, 22 families have met the final phase of self-sufficiency and moved off housing assistance and 15 continue to occupy the property they originally leased under the Mobility Demonstration. On average these families spent 4.22 years on housing assistance prior to moving off but continue to occupy the unit. Although this resulted in additional rental revenue (2014-02 SS #7) of \$301,644, it limits the number of new families who can be given the opportunity to participate in the demonstration. While each of the benchmarks were not achieved for this activity in FY 2023, this continues to be an exciting activity for RHA to offer to PH residents who may not have other mobility options.

# 2014-05: Simplify rent calculations and increase the minimum rent

## Plan Year Approved, Implemented and Amended (if applicable):

This policy was identified, approved, and implemented in FY 2014. In FY 2020, this activity was temporarily expanded to provide financial relief to PH residents and HCV participants who experienced a financial loss due to COVID-19. This temporary expansion expired on December 31, 2020.

# **MTW Statutory Objective(s):**

Reduce costs and achieve greater cost effectiveness in federal expenditures.

## **Description:**

To reduce costs and achieve greater cost effectiveness, RHA began excluding all educational financial aid from income calculations and allowing self-certification of assets under \$10,000. Implementation of this activity also raised RHA's minimum rent from \$50 to \$75.

### **Impact:**

Throughout FY 2023, RHA sent student status verifications for 180 household members. For each verification sent, RHA incurred the following cost:

HCV Cost for Verification of Student Status						
Material Time Labor						
Cost For Housing Specialist	.17 hrs @ \$25.86 per hr. \$4.					
Cost for Office Clerk	\$2.33	\$2.33 .23 hrs @ \$22.34 per hr.				
Total	\$2.33					
HCV Total Cost Per Client : \$11.86						

Similarly, RHA verified assets for 69 HCV participants and 28 PH residents with assets greater than \$10,000. For each asset verification sent and processed, RHA incurred the following costs:

HCV Cost for Verification of Asset Calculations					
Material Time Labor					
Cost For Housing Specialist	.325 hrs @ \$25.86 per hr. \$8.4				
Cost for Office Clerk	\$3.13 .37 hrs @ \$22.34 per hr. \$8.2				
Total	\$3.13	\$16.67			
HCV Total Cost Per Client :					

PH Cost for Verification of Asset Calculations					
Material Time Labor					
Cost For Assistant Manager	.43 hrs @ \$27.15 per hr. \$11.67				
Total	1 \$3.13 \$11.67				
	P	H Total Cost Per Client :	\$14.80		

Over the course of FY 2023, a total of 141 PH residents and 235 HCV participants paid minimum rent. However, as of June 30, 2023, only 82 PH residents and 139 HCV participants were housed

paying the minimum rent amount. The remaining 151 households who paid minimum rent during FY 2023 either moved off the program or are still housed paying more than RHA's established minimum rent.

## **Update/Status:**

In FY 2024, RHA will increase the minimum rent to \$100.

This activity remains ongoing.

## **Activity Metrics:**

The following HUD Standard Metrics were identified and continue to be tracked for this activity.

2014-05 SS #1: Increase in Household Income					
Average earned income	Average earned income of households affected by this policy in dollars (increase).				
Unit of Measurement	Baseline <sup>18</sup>	Benchmark	Outcome	Benchmark Achieved?	
Average earned income of households affected by increasing the minimum rent.	\$7,450	\$500/per year	\$4,41819	No	

2014-05 SS #3: Increase in Positive Outcomes in Employment Status						
Data for each type of employment status for those head(s) of households affected.						
Unit of Measurement Baseline Benchmark Outcome <sup>20</sup>						
Employed Full-Time	20 or 5%	7%	0 or 0%	No		
Employed Part-Time	37 or 10%	7%	14 or 6% (8 HCV participants, 6 PH residents)	No		
Enrolled in an Educational Program	13 or 3%	3%	0 or 0%	No		
Enrolled in Job Training Program	0 or 0%	0 or 0%	0 or 0%	No		
Unemployed	309 or 82%	82% No change.	207 or 94% (131 HCV participants, 76 PH residents)	No		
Other	0	0	0	N/A		

Baseline was set using the average earned income for 379 HCV participants and PH residents paying minimum rent in FY 2013. This number also includes the average earned income of families on EID at that time. Average earned income of 270 HCV participants paying minimum rent was \$5,014 and 109 PH residents was \$9,886.

Average earned income for 221 HCV participants and PH residents who are currently paying minimum rent. Of these, only 13 households had earned income.

Outcome percentage based on a total of 221 households who were paying minimum rent on June 30, 2023.

2014-05 SS #4: Households Removed from Temporary Assistance for Needy Families (TANF)					
Number o	f households rece	iving TANF assist	ance (decrease).		
Unit of Measurement Baseline Benchmark Outcome Benchmark Achieved?					
Number of households paying minimum rent who are receiving TANF assistance.	25 or 7%	7%	4 or 2% (2 HCV participants, 2 PH residents)	Yes	

2014-05 SS #8: Households Transitioned to Self-Sufficiency					
Number of	households transi	tioned to self-suffi	iciency (increase).		
Unit of Measurement Baseline Benchmark Outcome <sup>21</sup> Benchmar Achieved					
Number of households paying minimum rent who have transitioned to self-sufficiency.	0	4	17	Yes	

2014-05 CE #1: Agency Cost Savings					
	Total cost of task	k in dollars (decre	ase).		
Unit of Measurement Baseline Benchmark Outcome Benchmark Achieve					
Total cost of rent simplification tasks (student status verifications).	\$2,997 <sup>22</sup>	\$875	\$2,135 <sup>23</sup>	No	
Total cost of rent simplification tasks (self-certification of assets).	\$28,265 <sup>24</sup>	\$1,076	\$1,267 <sup>25</sup>	No	

In FY 2017, RHA changed its definition of self-sufficiency to two phases. The first phase occurs as household members maintain consistent employment for 12 months or when a reduction in subsidy results in the household being responsible for more than 50% of the rent. The final phase of self-sufficiency occurs automatically once the household is no longer receiving assistance or when the household voluntarily ends participation. The outcome for this metric includes only households who met RHA's definition regarding the final phase of self-sufficiency.

Throughout FY 2023, 13 HCV participants and four PH residents who paid minimum rent following implementation of this activity moved off assistance having met the final phase of self-sufficiency. An additional 99 HCV participants and 53 PH residents remain housed but have met RHA's first phase of self-sufficiency.

When this activity was proposed in FY 2014, student status verifications cost the agency \$8.10 per HCV participant.

<sup>&</sup>lt;sup>23</sup> In FY 2023, student status verifications were processed for 180 dependents at an approximate cost to the agency of \$11.86 per HCV participant.

Verification/processing of assets cost RHA approximately \$13.92 per HCV participant and \$10.96 per PH resident when this activity was proposed in FY 2014.

Total cost to verify/process 69 HCV participants and 28 PH residents with assets over \$10,000. In FY 2023, asset verifications cost RHA approximately \$19.80 per HCV participant and \$14.80 per PH resident.

2014-05 CE #2: Staff Time Savings					
Total time to complete the task in staff hours (decrease).					
Unit of Measurement Baseline Benchmark Outcome Benchmark Achieved?					
Total staff hours to complete the	134.4 hours <sup>26</sup>	43.2 hours	72 hours	No	
rent simplification tasks.	1,323.3 hours <sup>27</sup>	51.16 hours	60 hours	No	

2014-05 CE #3: Decrease in Error Rate of Task Execution					
Average erro	Average error rate in completing a task as a percentage (decrease).				
Unit of Measurement Baseline Benchmark Outcome Benchmark Achieved					
Average error rate in completing rent simplification tasks.	6% HCV 3% PH	0.5%	0%	Yes	

2014-05 CE #5: Increase in Agency Rental Revenue					
	Rental revenue	in dollars (increa	se).		
Unit of Measurement	Baseline	Benchmark	Outcome	Benchmark Achieved?	
Increase in rental revenue in	\$0	(\$7,274)	(\$7,274)	Yes	
dollars due to excluding financial aid from income calculations and increasing the minimum rent.	\$0	\$154,200	\$484,441 <sup>28</sup> HCV: \$23,729/month PH: \$16,641/month	Yes	

#### **Hardship Policy:**

Although the change in student status verification is technically a rent reform activity, the benefit of the activity is going directly to the HCV household. As a result, no hardship policy was established or required.

RHA's standard hardship policies for an exception to minimum rent for HCV households and PH residents are still in place and can be requested if the family experiences one or more of the following qualifying events:

a. The household has lost eligibility or is awaiting an eligibility determination for Federal, State or local assistance, including a household with a member who is a noncitizen lawfully admitted for permanent residence under the Immigration and Nationality Act, and

On average staff spend 0.4 hours per student status verification.

On average staff spend 0.695 hours to process and verify assets in the HCV program and 0.43 hours in the PH program.

The HCV number represents the monthly TTP for 154 HCV participants who were housed paying the minimum rent. On June 30, 2023, 15 of these households had moved off paying the minimum rent. Similarly, the PH number represents 88 PH residents who were housed paying the minimum rent. On June 30, 2023, six of these residents were no longer being assisted.

who would be entitled to public benefits but for Title IV of the Personal Responsibility and Work Opportunity Act of 1996.

- b. The household would be evicted as a result of the imposition of the minimum rent requirement.
- c. The income of the household has decreased because of changed circumstances, including loss of employment or death of a household member. "Loss of employment" is defined as being laid off or terminated through no fault of the employee. Loss of employment does not, for the purposes of exemption to minimum rent, include voluntarily quitting employment. "Death in the family", for the purposes of exemption to minimum rent, includes head of household or spouse, or any household member.
- d. Other circumstances as determined by RHA or HUD.

RHA will review all household requests for exception from the minimum rent due to financial hardships. If RHA determines that the hardship is temporary (defined as a duration of less than 90 consecutive days), a minimum rent will not be imposed for a period of up to 90 days from the date of the household's request. At the end of the temporary suspension period, a minimum rent will be imposed retroactively to the time of suspension.

If RHA determines that there is a qualifying long-term financial hardship, RHA must exempt the household from the minimum rent requirements for as long as the hardship continues. The exemption from minimum rent shall apply from the first day of the month following the household's request for exemption.

## **Hardship Requests:**

During FY 2023, 11 HCV participants were approved to pay less than the minimum rent due to a requested hardship. While each of these participants had an approved hardship, it is not known whether the hardship was directly related to RHA's implementation of this activity.

#### **Actual Non-Significant Changes:**

There are no actual non-significant changes.

## **Actual Changes to Metrics/Data Collection:**

There are no actual changes to the metrics/data collection methodology.

## **Actual Significant Changes:**

There are no actual significant changes.

## **Challenges in Achieving Benchmarks and Possible Solutions:**

In FY 2013, RHA established a baseline for increase in earned income (2014-05 SS#1) for this activity based on 379 HCV participants and PH residents paying minimum rent at that time. This baseline number was erroneous as it included the average earned income of families who were paying the minimum rent while participating in EID. In FY 2016, RHA eliminated EID resulting in the removal of the earned income of these participating households from the outcome. The reported outcome for this metric is based on 221 HCV and PH households who were paying the established minimum rent on June 30, 2023. Of these 221 households, 94% had no earned income. Based on the prior elimination of EID and the fact that a high percentage of minimum rent households typically have no earned income, RHA does not anticipate meeting this benchmark.

Should the outcome for this same metric be comprised of households who had previously paid minimum rent following implementation but are now paying more than the minimum rent, the outcome would be quite different. At the end of FY 2023, 341 HCV participants and 150 PH residents, who had previously paid minimum rent, had either moved off assistance or were still housed paying more than the minimum rent. Of these 491 households, 93 PH residents and 197 HCV participants reported an average earned income of \$27,566. Based on the data from these households, the benchmark for increase in earned income would have been met (2014-05 SS#1). Furthermore, the employment status for these households would have increased enough to also meet the established employment benchmarks set for this activity (2014-05 SS#3).

The outcomes reported under agency cost savings (2014-05 CE #1) is completely comprised of the administrative cost RHA incurs to verify and process both assets and student status. To accurately reflect a more realistic cost associated with these verifications, staff costs estimates have been updated to reflect average payroll costs for those staff members who process the verification. This resulted in an increase of 46.42% per student verification, 42.24% per asset verification in the HCV program, and 35.04% per asset verification in the PH program. If metric outcomes were based the costs incurred when this activity was initially proposed, student status verifications would have cost the agency \$1,458 while asset verifications would carry a cost of \$1,267.

# 2014-06: Triennial recertifications for elderly/disabled participants on fixed incomes

## Plan Year Approved, Implemented and Amended (if applicable):

This policy was identified, approved, and implemented as a biennial activity in FY 2014. It was expanded into a triennial activity in FY 2015, amended in FY 2017 to allow for the use of local forms to accommodate the triennial schedule and amended in FY 2018 to disregard Cost of Living Adjustment (COLA) increases between recertifications. In FY 2023, RHA amended the activity to allow for changes in the HCV payment standard to be applied if/when a contract rent increase was implemented by the participant's landlord.

# **MTW Statutory Objective(s):**

Reduce costs and achieve greater cost effectiveness in federal expenditures.

## **Description:**

Elderly and disabled PH residents and HCV participants with stable income sources now have recertifications on a triennial schedule as the amount of rent RHA receives from stable income households when the COLA is applied is completely negligible. Any COLA increases received between recertification dates are retained by the family and will not be counted towards rent until a "true" triennial recertification is processed.

Stable income sources include and are limited to: Social Security benefits, Supplemental Security Income (SSI), Social Security Disability (SSD), and pensions. There can be no earned income in the household and no minors.

If a participant meets both the elderly or disabled definition as defined by HUD <u>and</u> the stable income definition, RHA performs a triennial recertification rather than an annual recertification; if not, the participant remains under the annual recertification schedule. Any elderly/disabled household with additional income sources other than the above-defined stable income sources, or households with minors (even if the head of household is elderly or disabled), are required to have annual recertifications.

# **Impact:**

In FY 2023, RHA continued to experience both staff time savings and agency cost savings. This savings was based on 552 recertifications in the HCV program and 136 recertifications in the PH program that were skipped based on the established triennial recertification schedule.

#### **Update/Status:**

Low vacancy rates due to an extremely tight rental market throughout the Truckee Meadows have resulted in rents that continue to climb. This unpredictable rental market has made it challenging for many of RHA's HCV participants, including the elderly and disabled participants relying only on stable income sources. Beginning in 2017, RHA's HCV landlords began requesting rent increases in direct correlation to market conditions and during that year alone RHA saw the number of rent increase requests increase by 221%. As the region's affordable housing shortage continues, RHA's goal is to ensure continued affordability for RHA's elderly and disabled HCV participants on this triennial recertification schedule. In FY 2023, RHA received approval to update this policy to allow updated payment standards to be applied following a contract rent increase request rather than only allowing them to be applied at the family's annual reexamination. Throughout FY 2023, payment standards were updated for 50 households following a contract rent increase.

The activity remains ongoing.

# **Activity Metrics:**

The following HUD Standard Metrics were identified and continue to be tracked for this activity.

	2014-06 CE #1: Agency Cost Savings						
	Total cost of task in dollars (decrease).						
Unit of Measurement	Kaseline   Kenchmark   Outcome						
Total cost for recertification of elderly/disabled participants on fixed incomes.	\$140,933 HCV: \$112,291 PH: \$28,642	\$113,887 HCV: \$91,989 PH: \$21,898	\$141,426 HCV: \$113,958.54 PH: \$27,467.46 Total annual savings: \$(492) FY 2022: \$129,558 FY 2021: \$112,978 FY 2020: \$124,761 FY 2019: \$120,235 FY 2018: \$118,252 FY 2017: \$120,161 FY 2016: \$104,419	Achieved?			

	2014-06 CE #2: Staff Time Savings						
	Total time to complete the task in staff hours (decrease).						
Unit of Measurement	Baseline	Benchmark	Outcome	Benchmark Achieved?			
Total amount of staff time to complete recertification of elderly/disabled participants on fixed incomes.	6,726.23 hours HCV: 468.02 hours per month or 5,616.23 hours annually PH: 92.5 hours per month or 1,110 hours annually	5,625.94 hours HCV: 401.49 hours per month or 4,817.86 hours annually PH: 67.34 hours per month or 808.08 hours annually Total savings of 91.69 hours per month or 1,100.28 hours annually	3,907.02 hours  HCV: 249.29 hours per month or 2,991.52 hours annually  PH: 76.29 hours per month or 915.50 hours annually  Total savings of 77.03 hours per month or 924.4 hours annually  FY 2022: 3,414.66 FY 2021: 3,381.50 FY 2020: 3,958.86 FY 2019: 3,510.56 FY 2018: 3,570.99 FY 2017: 3,871.53 FY 2016: 3,202.27 FY 2015: 3,323.28	Yes			

2014-06 CE #5: Increase in Agency Rental Revenue					
	Rental revenue in dollars (increase).				
Unit of Measurement	Kaseline   Kenchmark   Olitcome				
Rental revenue in dollars (increase).	\$0	\$0	\$0	Yes	

# **Hardship Policy:**

RHA proposed no hardship policy as no additional burden was being placed on residents, however, residents can request an annual recertification should they experience a decrease in income. Throughout FY 2023, two HCV participants requested an annual recertification instead of waiting for the scheduled triennial recertification.

#### **Actual Non-Significant Changes:**

There are no actual non-significant changes.

## **Actual Changes to Metrics/Data Collection:**

There are no actual changes to the metrics/data collection methodology.

# **Actual Significant Changes:**

There are no actual significant changes.

## **Challenges in Achieving Benchmarks and Possible Strategies:**

Due to the overall nature of this activity, not all benchmarks were achieved for this activity. RHA does not anticipate achieving benchmarks year over year.

# 2015-01: Elimination of all negative rents & simplification of HCV utility allowances

## Plan Year Approved, Implemented and Amended (if applicable):

This activity was identified, approved, and implemented in FY 2015.

# **MTW Statutory Objective(s):**

Reduce costs and achieve greater cost effectiveness in federal expenditures by eliminating the amount spent each month on negative rents, reducing the amount of staff time needed to calculate utility allowances and encouraging participants to find a unit that matches their voucher size.

## **Description:**

Due to HUD's rules regarding calculation of income, PHAs may pay a utility reimbursement to the participant if the utility allowance (for tenant-paid utilities) exceeds the amount of the TTP. Following implementation of this activity, RHA's PH residents and HCV participants no longer receive negative rents due to utility allowances.

RHA also simplified the HCV utility allowances for all units by creating a flat utility allowance schedule based on structure type and authorized voucher bedroom size through this activity. This simplified schedule is reviewed annually based on current utility rates and usage to determine whether the schedule accurately reflects current market conditions.

#### **Impact:**

Following HUD's approval of RHA's FY 2015 MTW Plan, RHA notified PH residents and HCV participants regarding the elimination of all negative rents effective October 1, 2014. There are currently no HCV participants or PH residents receiving a utility reimbursement payment.

At the end of FY 2023, 2,016 HCV participants were receiving the simplified utility allowance. This schedule allows HCV participants to know exactly what amount they will receive and encourages them to seek out units based on their authorized voucher size and energy efficiencies. Implementation of the simplified schedule has saved a significant amount of staff time and alleviated errors within rent calculations.

#### **Update/Status:**

RHA reviews the utility allowance schedule annually. If the review finds a utility rate has changed by 10 percent or more since the last revision, the schedule is revised to reflect the new utility rates. Recently, RHA noted that several landlords were no longer paying for utilities such as water, sewer, and trash, but rather passing this expense along to the tenant. To assist tenants in finding units that are affordable, RHA established an updated utility allowance schedule in October 2022. Tenants who now pay for at least two of these additional utilities receive a higher utility allowance to cover this increased expense.

This activity remains ongoing.

## **Activity Metrics:**

The following HUD Standard Metrics were identified and continue to be tracked for this activity.

The following Baselines, Benchmarks and/or Metrics relate to the elimination of negative rents:

2015-01 CE #1: Agency Cost Savings						
	Total cost of task	k in dollars (decrease).				
Unit of Measurement Baseline <sup>29</sup> Benchmark <sup>30</sup> Outcome Benchm						
Amount in negative rents issued to PH residents.	\$13,180	\$660	\$0	Yes		
Amount in negative rents issued to HCV participants.	\$198,785	\$9,940	\$0	Yes		

2015-01 CE #2: Staff Time Savings						
	Total time to complete	task in staff hours (dec	rease).			
Unit of Measurement Baseline Benchmark Outcome Benchmark Achieve						
PH staff hours to complete task.	6 hours annually or 0.5 hours per month	0 hours	0 hours	Yes		
HCV staff hours to complete task.	204 hours annually or 17 hours per month	0 hours	0 hours	Yes		

The following Baselines, Benchmarks and Metrics relate to the simplification of HCV utility allowances:

2015-01 CE #1: Agency Cost Savings					
	Total cost of task	k in dollars (decrease).			
Unit of Measurement Baseline <sup>31</sup> Benchmark Outcome Bench Achie					
Cost of HCV utility allowances.	\$263,371 per month	\$253,566 per month	\$133,943 per month  FY 2022: \$126,853  FY 2021: \$129,807  FY 2020: \$132,798  FY 2019: \$133,155  FY 2018: \$151,430  FY 2017: \$178,227  FY 2016: \$188,027	Yes	

<sup>&</sup>lt;sup>29</sup> Baseline is set at the cost incurred January – December 2013.

Benchmark is set at 5% of original cost based on probable hardship requests.

RHA's baseline for this Metric was estimated based on a sample of 372 HCV participants in January 2014 and assumed 100% voucher utilization with all participants receiving a utility allowance. The actual cost in October 2014 for 2,174 HCV participants who were leased up and receiving a utility allowance that month was \$201,684 which included 1,353 HCV participants who were still on the old utility allowance schedule.

2015-01 CE #2: Staff Time Savings					
	Total time to complete th	e task in staff hours (d	ecrease).		
Unit of Measurement Baseline Benchmark Outcome Benchmar Achieved					
Hours to calculate HCV utility allowances.	32.5 hours annually	12 hours annually	10.0 hours annually FY 2022: 10.4 FY 2021: 10.3 FY 2020: 10.5 FY 2019: 10.3 FY 2018: 10.4 FY 2017: 10.7 FY 2016: 11.1	Yes	

2015-01 CE #3: Decrease in Error Rate of Task Execution						
Avera	Average error rate in completing task as a percentage (decrease).					
Unit of Measurement	ment Baseline Benchmark Outcome Benchmark Achieved					
Average error rate in completing the HCV utility allowances.	2.6%	0.5%	0%	Yes		

20	2015-01 CE #5: Increase in Agency Rental Revenue					
	Rental revenue	in dollars (increase).				
Unit of Measurement	Baseline	Benchmark	Outcome <sup>32</sup>	Benchmark Achieved?		
Rental revenue after the simplification of HCV utility allowances.	\$0	\$117,760	\$983,063 \$81,922 per month or \$983.063 annually. FY 2022: \$897,976 FY 2021: \$862,525 FY 2020: \$826,635 FY 2019: \$822,347 FY 2018: \$603,048 FY 2017: \$281,485 FY 2016: \$163,886	Yes		

# **Hardship Policies:**

RHA established a hardship policy based on the elimination of negative rents that included referring affected families to Workforce Development for budgeting classes and any other assistance necessary to learn to manage their finances. The simplified utility allowance schedules have been set using current utility rates and reasonable expectations of use.

Section IV. Approved MTW Activities

Outcome reflects accumulated annual savings following implementation of this activity in FY 2014. For FY 2023 only, RHA's annual increase in rental revenue was \$85,087 or \$7,091 per month.

# **Hardship Requests:**

This activity was implemented in FY 2015 and to date, there have been no related hardship requests. Therefore, staff have determined that no excessive hardship exists for the population as a whole and no annual reevaluation of the activity has taken place.

#### **Actual Non-Significant Changes:**

There are no actual non-significant changes.

## **Actual Changes to Metrics/Data Collection:**

There are no actual changes to the metrics/data collection methodology.

## **Actual Significant Changes:**

There are no actual significant changes.

## **Challenges in Achieving Benchmarks and Possible Solutions:**

In FY 2023, RHA's average utility allowance increased to \$68.44, based on the 2,016 HCV participants who were receiving one. Although this is a slight increase from FY 2022, where RHA's average utility allowance was \$60.38 based on 2,101 HCV participants, it continues to be a decrease from FY 2019 when the average utility allowance was \$71.59. RHA does not anticipate any challenges in achieving the benchmarks identified for this activity.

# 2015-02: Allow RHA to inspect its own HCV units

## Plan Year Approved, Implemented and Amended (if applicable):

This activity was identified, approved, and implemented in FY 2015.

# **MTW Statutory Objective(s):**

Reduce costs and achieve greater cost effectiveness in federal expenditures by allowing RHA staff to inspect agency owned units rather than paying a contractor.

## **Description:**

Under HUD's rules, a unit that is owned by the PHA that administers the HCV program may not be inspected for HQS compliance by PHA staff. The PHA must obtain the services of a HUD approved independent entity to perform HQS inspections, which often resulted in longer lead times for a unit to become available for a tenant. In FY 2015, RHA staff began conducting inspections on all HCV and PBV units rather than using a third-party contractor, regardless of ownership or property management status, including properties that are owned or managed by RHA.

#### **Impact:**

Prior to the implementation of this activity, RHA was required to hire outside inspectors to conduct all inspections on RHA owned units. Furthermore, RHA staff were required to accompany the inspector to each inspection to fill out any additional paperwork. Scheduling these inspections between RHA staff and the third-party contractors often slowed down occupancy, which, over time, cost the agency more money based on the length of the vacancy.

During FY 2023, RHA staff conducted 40 initial inspections and 140 annual inspections on agency owned units rather than using a third-party contractor. Nine quality control inspections were also completed by the Director of Rental Assistance.

The following table shows the estimated amount of time RHA staff spent at each annual/initial HQS inspection. The total amount of time spent at each inspection is based on the bedroom size of the unit. It is important to note that the times estimated are conservative and do not include travel to and from the property location.

Estimated FY 2023 staff time spent inspecting RHA owned units					
Bedroom Size	Estimated amount of staff time per inspection	# of inspections performed	Staff time (in minutes)		
0	25 minutes	19	475		
1	30 minutes	42	1260		
2	30 minutes	44	1320		
3	35 minutes	63	2205		
4	40 minutes	11	440		
5	45 minutes	1	45		
6	50 minutes	0	0		
	5,7455				
	Total amount of staff time spent (in hours):				

## **Update/Status:**

The activity remains ongoing.

## **Activity Metrics:**

The following HUD Standard Metrics were identified and continue to be tracked for this activity.

2015-02 CE #1: Agency Cost Savings						
	Total cost of task in dollars (decrease).					
Unit of Measurement Baseline Benchmark Outcome Benchmark Achieve						
Total amount incurred to have RHA owned HCV units inspected by outside agencies.	\$4,645	\$0	\$0	Yes		

2015-02 CE #2: Staff Time Savings  Total time to complete the task in staff hours (decrease).						
1 otal ti	me to complete the task	t in staff nours (dec	rease).			
Unit of Measurement Baseline Benchmark Outcome Benchmark Achieve						
Hours spent inspecting HCV units owned by the Agency.	117.83 hours <sup>33</sup>	75.75 hours <sup>34</sup>	95.75 hours <sup>35</sup> FY 2022: 66.83 FY 2021: 121.08 FY 2020: 47 FY 2019: 90 FY 2018: 102 FY 2017: 105 FY 2016: 96.83	No		

#### **Hardship Policy:**

This activity is not considered a rent reform activity, no hardship policy was established or required.

## **Actual Non-Significant Changes:**

There are no actual non-significant changes.

#### **Actual Changes to Metrics/Data Collection:**

There are no actual changes to the metrics/data collection methodology.

Baseline was set based on each inspection taking 10 minutes to schedule and log and one hour for a staff member to accompany the inspector to fill out any additional paperwork for a total of 70 minutes.

Benchmark has been set based on RHA staff spending approximately 45 minutes per inspection; a savings of 25 minutes per inspection or 42.08 hours annually.

RHA staff conducted 180 inspections in FY 2023. Each inspection took approximately 25-45 minutes based on bedroom size resulting in a savings of 75.00 staff hours.

# **Actual Significant Changes:**

There are no actual changes to the metrics/data collection methodology.

## **Challenges in Achieving Benchmarks and Possible Strategies:**

Although the amount of staff time did meet the set benchmark for staff time savings (2015-02 CE #2), RHA's ability to meet this metric is completely reliant on the number of inspections scheduled. During FY 2023, RHA staff conducted 180 inspections on agency owned properties at approximately 31.92 minutes per property, 13.08 minutes less than RHA's benchmark of 45 minutes per property. Implementation of this activity continues to allow inspections to become more efficient and cost effective.

# 2016-01: Simplification of medical deductions

#### Plan Year Approved, Implemented and Amended (if applicable):

This activity was identified, approved, and implemented in FY 2016. The activity was amended in FY 2018 to restructure and further simplify the income tiers and associated deductions.

#### **MTW Statutory Objective(s):**

Reduce cost and achieve greater cost effectiveness in federal expenditures by reducing the amount of time staff spend verifying all medical deductions claimed during HCV and PH recertifications.

# **Description:**

Under HUD regulations (24 CFR §5.611), if the head, co-head/spouse, or sole member of an applicant household is elderly or disabled, the entire household may claim, as a deduction, medical expenses that are more than three percent (3%) of their annual income if the expenses are not compensated for or covered by insurance. As all deductions from income must be verified, gathering the required documentation often results in a substantial amount of time spent by households wanting to claim the deduction and, in many cases, the required documentation may include private information that some would rather not share. Rather than use third party verifications and require residents to provide receipts showing out of pocket medical expenses, RHA established simplified medical deductions based entirely on the household's gross income.

#### **Impact:**

As of June 30, 2023, 427 PH residents and 1,622 HCV participants were directly impacted by this activity. Under RHA's revised income tiers, several households are now receiving a medical deduction of \$0. Of the 2,049 eligible households, 37.40% were receiving a simplified medical deduction that was more than \$0. Broken down by program, this included 166 PH residents and 591 HCV participants.

## **Update/Status:**

Following HUD's approval of RHA's FY 2016 MTW Annual Plan on August 25, 2015, RHA began implementing simplified medical deductions in the PH and HCV programs. On January 1, 2016, RHA began applying the simplified medical deductions to all PH and HCV elderly and disabled households regardless of whether their portion of total medical expenses exceeded 3% of their annual income. This resulted in a reduction in the number of verifications required, a simplified process for both staff and residents, and a decrease in overall administrative costs. However, RHA's rental revenue within the PH program and the amount of tenant contribution to rent within the HCV program experienced a significant decrease rather than the anticipated increase.

With the announcement of an increase in Medicare premiums for 2017, RHA staff reviewed the original seven income tiers established in the FY 2016 MTW Annual Plan to determine their overall viability for program participants. Following this review, RHA amended the activity in FY 2018 to restructure and further simplify the income tiers and associated deductions. The amended income tiers are based on income guidelines provided by the State Health Insurance Assistance Program in relation to current Medicare coverage.

The following simplified medical deductions, as amended, remain effective for annuals and vouchers issued on or after January 1, 2021:

Simplified Medical Deductions			
Gross Annual Income Range   Annual Medical Deduction			
\$1 - \$12,729	\$0		
\$12,730 - \$17,110	\$1,700		
\$17,111 +	\$2,915		

The activity remains ongoing.

## **Activity Metrics:**

The following HUD Standard Metrics were identified and continue to be tracked for this activity.

2016-01 CE #1: Agency Cost Savings					
Total cost of task in dollars (decrease).					
Unit of Measurement Baseline <sup>36</sup> Benchmark Outcome					
Costs associated with PH program calculations.	\$5,040	\$0	\$67.40 FY 2022: \$0 FY 2021: \$30 FY 2020: \$30 FY 2019: \$30 FY 2018: \$30 FY 2017: \$0 FY 2016: \$2,136	No	
Costs associated with HCV program calculations.	\$20,412	\$0	\$29.90 FY 2022: \$0 FY 2021: \$24 FY 2020: \$119 FY 2019: \$24 FY 2018: \$119 FY 2017: \$201 FY 2016: \$5,880	No	

Prior to implementation, medical deductions were verified for approximately 15.17 PH households and 76.34 HCV households per month. Baseline costs were estimated based on a total cost per client of \$27.70 per PH verification and \$22.28 for each HCV verification.

2016-01 CE #2: Staff Time Savings					
To	otal time to complete	the task in staff ho	urs (decrease).		
Unit of Measurement Baseline <sup>37</sup> Benchmark Outcome					
Hours associated with PH program calculations.	191.14 hours	0 hours	2.1 hours  FY 2022: 0 hours FY 2021: 1.05 hours FY 2020: 1.05 hours FY 2019: 1.05 hours FY 2018: 1.05 hours FY 2017: 0 hours FY 2016: 80.89 hours	No	
Hours associated with HCV program calculations.	966.47 hours	0 hours	1.055 hours  FY 2022: 0 hours  FY 2021: 1.055 hours  FY 2020: 5.275 hours  FY 2019: 1.055 hours  FY 2018: 5.275 hours  FY 2017: 9.50 hours  FY 2016: 278.52 hours	No	

2016-01 CE #3: Decrease in Error Rate of Task Execution						
Averag	ge error rate in comp	oleting task as a perc	centage (decrease).			
Unit of Measurement Baseline 38 Benchmark Outcome 39 Benchmar Achieved						
Rate associated with PH program calculations.	2%	2.58%	No			
Rate associated with HCV program calculations.  5%  0%  0.19%  No						

PH Asset Managers/Assistant Managers spend approximately 1.05 hours per PH verification. Within the HCV program, each verification took Housing Specialists .325 hours and Office Clerks .73 hours.

Out of 225 audits conducted on PH tenant files, six were found to contain errors related to the calculation of medical deductions. Similarly, out of 72 audits conducted on HCV participant files, four were found to contain errors.

Eleven of the 427 PH households who were eligible for a deduction greater than \$0 were found to contain errors. Similarly, three of the 1,621 HCV households who were eligible for a deduction greater than \$0 were found to contain errors.

2016-01 CE #5: Increase in Agency Rental Revenue					
Rental revenue in dollars (increase).					
Unit of Measurement Baseline Benchmark 40 Outcome 41					
Rental revenue associated with PH program.	\$0	\$11,221	\$2,200 FY 2022: \$2,164 FY 2021: \$68 FY 2020: (\$8.883) FY 2019: (\$32,767) FY 2018: (\$52,134) FY 2017: (\$63,586) FY 2016: (\$14,794)	No	
Rental revenue associated with HCV program.	\$0	\$8,765	\$772 FY 2022: \$9,113 FY 2021: (\$148) FY 2020: (\$19,284) FY 2019: (\$104,690) FY 2018: (\$183,759) FY 2017: (\$226,182) FY 2016: (\$97,615)	No	

## **Hardship Policy:**

In the event a participant wishes to have their portion of rent calculated based on unreimbursed medical expenses contrary to this activity, they must request a hardship. A three-person committee was established by RHA to review all requests for hardship. Prior to being considered for a hardship and referred to the established committee, participants are required to meet all the criteria set forth in RHA's MTW Annual Plan and internal hardship procedure. These criteria include (1) the household's monthly rent can be no less than RHA's established minimum rent, and (2) third party documentation must be provided detailing all anticipated medical expenses including monetary amounts and frequency. Once the hardship is submitted, the three-person committee will review all the detailed expenses provided and determine whether the requested hardship is warranted. If any part of the established criteria is not met, a hardship will not be granted.

Should a medical hardship be approved in either program, RHA will experience the following cost to the agency:

RHA estimated that 308 PH residents would have their rent increased by an average of \$3.04 per month, increasing PH rental revenue by \$11,221 after implementation. Likewise, 1,094 HCV participants would have their portion of the rent increased by \$0.67 per month, an increase in annual tenant contribution to rent of \$8,765.

As of June 30, 2023, all PH residents and HCV participants were receiving RHA's standard medical deduction. Within PH, 166 PH residents had their rent increased an average of \$1.09 per month, increasing PH rental revenue by \$2,200. Similarly, 591 HCV participants had their portion of rent increase by \$0.11 per month, an annual increase in tenant contribution to rent of \$772.31.

HCV Cost for Medical Deduction Verification/Processing					
Material Time Labor					
Cost for Housing Specialist	.325 hrs @ \$25.86 per hr. \$8.40				
Cost for Office Clerk	\$5.19 .73 hrs @ \$22.34 per hr. \$16.31				
HCV Total Cost Per Client: \$29.90					

PH Cost for Medical Deduction Verification/Processing					
Material Time Labor					
Cost for Assistant Manager	\$5.19 1.05 hrs @ \$27.15 per hr. \$28.51				
PH Total Cost Per Resident: \$33.70					

## **Hardship Requests:**

During FY 2023, RHA received three hardship requests due to the implementation of this activity.

# **Actual Non-Significant Changes:**

There are no additional actual non-significant changes.

## **Actual Changes to Metrics/Data Collection:**

There are no actual changes to the metrics/data collection methodology.

## **Actual Significant Changes:**

There are no actual significant changes.

# Challenges in Achieving Benchmarks and Possible Strategies:

Throughout FY 2023, this activity affected 458 PH residents and 1,773 HCV participants, of which 188 have since moved off assistance. The outcomes reported under this metric include only those families who were eligible for the standard medical deduction and housed on June 30, 2023. This includes 427 PH residents of which 32 are receiving the correct FY 2018 medical deduction, 123 are receiving the correct FY 2021 medical deduction, and 11 are receiving an incorrect deduction amount. Similarly, 1,622 HCV participants of which 82 are receiving the correct FY 2018 medical deduction, 506 are receiving the correct FY 2021 medical deduction, and three are receiving the incorrect deduction amount. The remaining households receive no deduction based on the established income tiers or have certified that the household incurs no medical expense.

Benchmarks for agency cost savings (2016-01 CE #1) and staff time savings (2016-01 CE #2) were not met for both programs due to medical hardships that were requested. RHA does not anticipate meeting either of these benchmarks if a hardship is requested and approved by the committee. When this activity was initially proposed, it was anticipated that RHA's rental revenue would increase (2016-01 CE #5). However, implementation of this activity resulted in an overall loss. During initial analysis, RHA assumed that this activity would affect approximately 308 PH residents and 1,094 HCV participants. Upon further review it was discovered that several households were omitted from the baseline data during the initial analysis. Realizing the overall loss of rental revenue and tenant contribution to rent, RHA amended this activity in FY 2018. The amended activity revised the income tiers and related deductions. It also established a requirement that all households self-certify that ongoing medical expenses were actually incurred prior to receiving the deduction.

# 2016-02: Redefine near elderly person

## Plan Year Approved, Implemented and Amended (if applicable):

This activity was identified, approved, and implemented in FY 2016. It was expanded upon in FY 2020 to include use of this near-elderly definition within RHA's PBV program.

#### **MTW Statutory Objective(s):**

Increase housing choice for low-income families by allowing RHA to change the definition of near elderly for its PH program only and allowing RHA to treat these newly defined households as elderly for admission to one of RHA's senior PH complexes.

## **Description:**

In FY 2016, RHA modified HUD's definition of near elderly as it relates to the PH program to limit it to persons who are at least 55 years of age but below the age of 62. In FY 2020, RHA expanded this near-elderly definition to its PBV program. These newly defined near elderly households are treated as elderly to allow for their admission from the wait list to one of RHA's senior PH complexes or PBV sites, which define elderly as 55 years of age and older. RHA anticipates that this activity will increase the number of eligible families for referral to these units without raising concerns with current residents regarding potential lifestyle conflicts.

Implementation of this policy change does not qualify the near elderly family for the Elderly/Disabled Allowance, triennial recertification schedule or Simplified Medical Deduction.

## **Impact:**

Since the implementation of this activity, there have been 779 near elderly persons/families on the wait list for RHA's senior PH complexes and/or PBV sites. This includes 93 households in FY 2023 who would not have been eligible to apply had this activity not been in place. As of June 30, 2023, an additional 13 near elderly households were added to RHA's wait lists due to the implementation of this activity.

#### **Update/Status:**

This activity remains ongoing.

#### **Activity Metrics:**

The following HUD Standard Metrics were identified and continue to be tracked for this activity.

2016-02 HC #4: Displacement Prevention					
Number of households at or below 80% AMI that would lose assistance or need to move (decrease).					
Unit of Measurement Baseline Benchmark Outcome Benchmark Achieved?					
Households who would lose assistance or need to move. 0 Yes					

2016-02 HC #5: Increase in Resident Mobility						
Number of households able to move	to a better unit and	or neighborhood	d of opportunity (i	ncrease).		
Unit of Measurement	Unit of Measurement Baseline Benchmark Outcome Benchmark Achieved?					
Number of near-elderly households able to move to a better unit and/or neighborhood of opportunity.	0	0	0	Yes		

The following RHA Local Metric was identified and continues to be tracked for this activity.

2016-02 RHA Local Metric: Additional Units of Housing Made Available						
Number of housing units	made available to l	households at or l	below 80% AMI.			
Unit of Measurement Baseline Benchmark 42 Outcome Benchmark Achieved?						
Number of housing units made available to near-elderly households at or below 80% AMI.	0	17	8 FY 2022: 11 FY 2021: 8 FY 2020: 8 FY 2019: 6 FY 2018: 8 FY 2017: 27 FY 2016: 2	No		

# **Hardship Policy:**

This activity is not considered a rent reform activity, no hardship policy was established or required.

#### **Actual Non-Significant Changes:**

There are no actual non-significant changes.

## **Actual Changes to Metrics/Data Collection:**

There are no actual changes to the metrics/data collection methodology.

## **Actual Significant Changes:**

There are no actual significant changes.

## **Challenges in Achieving Benchmarks and Possible Strategies:**

Throughout FY 2023, RHA experienced 28 vacancies within its elderly PH complexes (2016-02 RHA Local Metric). As the number of vacant units varies on an annual basis, it is impossible to determine whether this benchmark will be met in future years. It is important to note that other factors, including preferences being claimed by individual applicants, will affect an applicant's wait list placement and ultimately the lease up sequence.

During CY 2014, RHA experienced 55 vacancies within its three senior PH complexes. The benchmark for this activity was established assuming that approximately 30% of these vacancies could have been offered/leased to near-elderly households.

# 2016-05: Eliminate Earned Income Disallowance (EID)

#### Plan Year Approved, Implemented and Amended (if applicable):

This activity was identified, approved, and implemented in FY 2016.

# MTW Statutory Objective(s):

Reduce cost and achieve greater cost effectiveness in federal expenditures by saving the staff time necessary to track EID participants throughout their eligibility period.

#### **Description:**

EID allows eligible tenants in the PH and HCV programs to increase their incomes through employment without triggering rent increases. Under HUD's guidelines (24 CFR §960.255), EID applies to a family member residing in PH whose annual income increases because of employment or increased earnings. Within the HCV program, EID applies to a family whose income increases because of employment or increased earnings of a family member who is a person with disabilities (24 CFR §5.617). The resulting income increase is fully excluded for 12 months and 50% excluded for an additional 12 months. As EID regulations are cumbersome to apply and only affected approximately three percent (3%) of the tenants in RHA's PH and HCV programs, RHA eliminated this HUD-mandated calculation of rent in FY 2016.

#### **Impact:**

As of July 31, 2017, all existing EID participants have transitioned off the program.

### **Update/Status:**

The activity remains ongoing.

#### **Activity Metrics:**

The following HUD Standard Metrics were identified and continue to be tracked for this activity.

2016-05 CE #1: Agency Cost Savings					
	Total cost of task	in dollars (decrease).			
Unit of Measurement Baseline 43 Benchmark Outcome Bench Achie					
Costs associated with EID calculations in the PH program.	\$2,553	\$2,553	\$0 FY 2017: \$1,612 FY 2016: \$2,016	Yes	
Costs associated with EID calculations in the HCV program.	\$440	\$440	\$0 FY 2017: \$308 FY 2016: \$396	Yes	

..

Based on 74 PH residents participating in EID (35 who were employed) and 25 HCV households participating in EID (10 who were employed). Baselines were based on a cost of \$53.74 per employed PH resident and \$43.99 per employed HCV participant. Monthly tracking by six PH staff members (25 min per month) resulted in an additional cost of \$55.98 per month.

2016-05 CE #2: Staff Time Savings							
Total time to complete the task in staff hours (decrease).							
Unit of Measurement Baseline Benchmark Outcome Benchmark Outcome							
Hours associated with EID calculations in the PH program.	Asset Manager & Assistant Asset Manager: 35*0.8 = 28 35*1.6 = 56 2.5*12 = 30 28+56+30 = 114	114 hours	0 hours FY 2017: 72 hours FY 2016: 90 hours	Yes			
Hours associated with EID calculations in the HCV program.	24 hours  Housing Specialist:  10*0.8 = 8  10*1.6 = 16  8+16 = 24	24 hours	0 hours  FY 2017: 17 hours  FY 2016: 21 hours	Yes			

2016-05 CE #3: Decrease in Error Rate of Task Execution					
A	verage error rate in completin	g a task as a percent	age (decrease).		
Unit of Measurement Baseline 45 Benchmark Outcome Benchmark Achieved?					
Error rate associated with PH program calculations.	0%	0%	0%	Yes	
Error rate associated with HCV program calculations.	0%	0%	0%	Yes	

Based on 74 PH residents participating in EID (35 who were employed) and 25 HCV households participating in EID (10 who were employed). Annual recertifications take staff 0.8 hours to complete while staff spend 1.6 hours on each change to rent calculation due to an increase in income. On average, each household also requested two changes to their rent calculation due to a change in income. Furthermore, PH staff tracked all 74 EID participants on a monthly basis. Similarly, EID rent calculations were conducted for 10 HCV households. On average, each of these households also requested two changes to their rent calculations due to a change in income.

Staff routinely conduct audits on tenant files to determine and identify errors based on the various variables to calculate rent in the PH and HCV programs. Several audits conducted less than 1% have been found to contain errors associated with EID calculations within the PH program. Furthermore, the number of households enrolled in EID on the HCV program is less than 1% of the population. Both of these factors render the average error rate as negligible.

2016-05 CE #5: Increase in Agency Rental Revenue					
	Rental revenue	in dollars (increase).			
Unit of Measurement	Baseline	Benchmark	Outcome	Benchmark Achieved?	
Rental revenue associated with PH program.	\$0	\$28,171	\$28,171 FY 2017: \$50,836 FY 2016: \$10,459	Yes	
Rental revenue associated with HCV program.	\$0	\$4,747	\$4,747 <sup>46</sup> FY 2017: 17,921  FY 2016: \$0	Yes	

## **Hardship Policy:**

EID PH residents and HCV participants who were enrolled in the program upon implementation on August 25, 2015, could retain their benefits for a minimum of one year following plan approval. As a result, no hardship policy was established or required for this activity.

#### **Actual Non-Significant Changes:**

There are no actual non-significant changes.

## **Actual Changes to Metrics/Data Collection:**

There are no actual changes to the metrics/data collection methodology.

# **Actual Significant Changes:**

There are no actual significant changes.

#### **Challenges in Achieving Benchmarks and Possible Solutions:**

Upon implementation of this activity, RHA stopped enrolling new households in EID and existing EID participants began to be phased off the program through a transition period. As all PH residents and HCV participants have successfully transitioned off the EID program, the outcomes for agency cost savings and staff time savings (2016-05 CE #1 and 2016-05 CE #2) will remain at zero. Furthermore, the outcomes for error rate and increase in agency rental revenue (2016-05 CE #3 and 2015-05 CE #5) will continue to show RHA's initial benchmark going forward.

This is tenant contribution to rent, not an increase in rental revenue to RHA.

# 2016-06: Disregard earned income of PH household members, age 18-20, who are not the head of household, co-head, or spouse

# Plan Year Approved, Implemented and Amended (if applicable):

This activity was identified, approved, and implemented in FY 2016.

## MTW Statutory Objective(s):

Create incentives for young adults to work, seek work or prepare for work in order to become economically self-sufficient.

#### **Description:**

Current HUD regulations for the PH program require that all earned income of adult children, between the ages of 18 and 20, be factored into the household's rent. To provide an incentive to pursue employment and become economically self-sufficient, RHA revised the definition of countable income and began excluding all earned income for these young adults when determining rent for the entire household. This exclusion is only applicable if the young adult is not the head of household, co-head, or spouse.

#### **Impact:**

During FY 2023, there were 74 adult children between the ages of 18-20 living in PH who were eligible to participate in this activity upon gaining employment. Of these 74 young adults, 22 are currently employed, 31 are unemployed, two receive SSI, twelve moved off the program and seven turned 21.

Average earned income of adult children (ages 18-20) who are not the head of household or co-head			
	PH residents		
Maximum Amount Earned	\$55,897		
Minimum Amount Earned \$7,410			
Average Amount Earned	\$27,099		

Total monthly earned income amount				
Monthly amount of income earned by adult children (ages 18-20) in the PH program who	\$119,280			
were not the head of household or co-head				

On average of \$119,280 was excluded from income calculations per month due to the implementation of this activity. As earned income for these young adults living in PH, who are not the head of household, co-head, or spouse, has been completely excluded, RHA experienced a loss of \$9,940 per month in potential rental revenue. With the assumption that this remained consistent throughout the year, these PH households saved an average of \$452 per month from their portion of the rent.

## **Update/Status:**

The activity remains ongoing.

# **Activity Metrics:**

The following HUD Standard Metrics were identified and continue to be tracked for this activity.

2016-06 CE #5: Increase in Agency Rental Revenue					
Rental revenue in dollars (increase).					
Unit of Measurement Baseline Benchmark Outcome Benchmark Achieved?					
Rental revenue in dollars.	\$0	\$0	\$0	Yes	

2016-06 SS #1: Increase in Household Income					
Average ear	ned income of househo	olds affected by th	is policy in dollars (increase).		
Unit of Measurement Baseline Benchmark Outcome Benchmark Achieved					
Average earned income of adult children, ages 18-20, living in PH affected by this policy.	\$11,481	\$12,629	\$27,099 FY 2022: \$21,583 FY 2021: \$20,932 FY 2020: \$14,555 FY 2019: \$21,081 FY 2018: \$18,122 FY 2017: \$11,921 FY 2016: \$11,543	Yes	

2016-06 SS #8: Households Transitioned to Self-Sufficiency					
Nu	mber of households tra	nsitioned to self-si	ufficiency (increase).		
Unit of Measurement	Baseline	Benchmark	Outcome <sup>47</sup>	Benchmark Achieved?	
Number of households transitioned to self-sufficiency.	0	0	FY 2022: 0 FY 2021: 3 FY 2020: 1 FY 2019: 0 FY 2018: 2 FY 2017: 6 FY 2016: 8  23 households affected by this policy have met RHA's first phase of self-sufficiency	Yes	

In FY 2017, RHA changed its definition of self-sufficiency to two phases. The first phase occurs as household members maintain consistent employment for 12 months or when a reduction in subsidy results in the household being responsible for more than 50% of the rent. The final phase of self-sufficiency occurs automatically once the household is no longer receiving assistance or when the household voluntarily ends participation. The outcome for this metric includes only those households who have met RHA's definition in regard to the final phase of self-sufficiency.

# **Hardship Policy:**

Although this is technically a rent reform activity, the benefit of the activity is going directly to the PH household. As a result, no hardship policy was established or required.

## **Actual Non-Significant Changes:**

There are no actual non-significant changes.

# **Actual Changes to Metrics/Data Collection:**

There are no actual changes to the metrics/data collection methodology.

# **Actual Significant Changes:**

There are no actual significant changes.

## **Challenges in Achieving Benchmarks and Possible Solutions:**

There were no challenges in achieving the benchmarks identified for this activity.

# 2016-07: Implement a \$75 fee for each additional HQS inspection when more than two inspections are required

## Plan Year Approved, Implemented and Amended (if applicable):

This activity was identified, approved, and implemented in FY 2016.

## MTW Statutory Objective(s):

Reduce cost and achieve greater cost effectiveness in federal expenditures by saving the staff time necessary to conduct more than two inspections on a single property due to the owner/manager's failure to complete the needed repairs.

## **Description:**

RHA is required to conduct re-inspections on units that fail a Housing Quality Standards (HQS) inspection to ensure that the owner/manager or tenant has corrected the noted violations. If the unit fails HQS, the owner/manager is notified in writing of the deficiencies and repairs that need to be made within 30 days. If the owner/manager does not take the required corrective action, RHA can abate the HAP payment beginning 30 days from the date of the first inspection until the required work is complete. Frequently, a third inspection is required to verify the completion of the noted deficiencies.

To encourage owners/managers to correct the noted violations quickly and provide RHA's clients with safer living conditions, RHA began charging the owner/manager a \$75 fee for each additional HQS inspection when more than two inspections are required due to their failure to complete the necessary repairs. This fee does not remove the abatement of subsidy but covers the administrative costs of conducting inspections.

#### **Impact:**

During FY 2023, RHA conducted 131 third inspections, 74 of which were due to the owner/manager's failure to correct the noted violations. Throughout FY 2023, RHA charged 38 HCV landlords the third inspection fee of \$75.

Each time RHA conducts a third inspection, the agency incurs the following cost:

Cost for a Third HQS Inspection				
	Time	Labor		
Cost for Inspector	1 hr @ \$33.00 per hr.	\$33.00		
Average cost for mileage (assuming 15 miles round trip)  15 miles @ \$0.62 per mile \$9.				
Total Cost 1	\$42.38			

#### **Update/Status:**

The activity remains ongoing.

#### **Activity Metrics:**

The following HUD Standard Metrics were identified and continue to be tracked for this activity.

2016-07 CE #1: Agency Cost Savings					
	Total cost of	task in dollars (decrease)			
Unit of Measurement	Baseline	Benchmark	Outcome	Benchmark Achieved?	
Cost to complete an HQS inspection after the second fail.	\$3,353	\$1,677	\$3,136 FY 2022: \$4,196 FY 2021: \$3,030 FY 2020: \$1,324 FY 2019: \$2,508 FY 2018: \$4,284 FY 2017: \$5,046 FY 2016: \$4,615	No	

2016-07 CE #2: Staff Time Savings					
	Total time to complete	the task in staff hours (d	lecrease).		
Unit of Measurement	Baseline	Benchmark	Outcome	Benchmark Achieved?	
Staff time to complete an HQS inspection after the second fail.	101 hours	50 hours	74 hours  FY 2022: 99 hours FY 2021: 87 hours FY 2020: 38 hours FY 2019: 72 hours FY 2018: 79 hours FY 2017: 152 hours FY 2016: 139 hours	No	

# **Hardship Policy:**

This activity is not considered a rent reform activity, no hardship policy was established or required.

## **Actual Non-Significant Changes:**

There are no actual non-significant changes.

## **Actual Changes to Metrics/Data Collection:**

There are no actual changes to the metrics/data collection methodology.

#### **Actual Significant Changes:**

There are no actual significant changes.

## **Challenges in Achieving Benchmarks and Possible Solutions:**

RHA charged 38 HCV landlords the \$75 third inspection fee in FY 2023, 74 units have incurred the \$75 third inspection fee since this activity was implemented.

As the rental market in the City of Reno, the City of Sparks and Washoe County remains tight, RHA does not want to burden or discourage landlord participation in the HCV program. Therefore, prior to the \$75 fee being assessed, staff review and consider all the reasons a unit may have failed the required inspection. If this activity were to be completely successful, the outcome for both metrics being tracked (2016-07 CE#1 and 2016-07 CE#2) would be zero.

# 2017-01: Increase verified application data for HCV applicants

## Plan Year Approved, Implemented and Amended (if applicable):

This activity was identified, approved, and implemented in FY 2017.

# **MTW Statutory Objective(s):**

Reduce cost and achieve greater cost effectiveness in federal expenditures by reducing the amount of duplicative work needed to re-verify applicant information that was previously deemed true and complete.

#### **Description:**

RHA's Section 8 Administrative Plan and federal regulations require information submitted by each applicant to be verified for accuracy as this data is ultimately used to determine program eligibility, priority status, voucher size and the amount of HAP to be paid to the landlord. Per 24 CFR §982.201(e), RHA must receive information verifying that an applicant is eligible for the HCV program within the period of 60 days prior to the issuance of a voucher. Information that is subject to change, which was verified more than 60 days prior, must be re-verified prior to the certification of the applicant's file. If there is a delay after the file has been referred to the HCV program that causes the voucher to not be issued within 60 days, the voucher is suspended, and the information is re-verified. If changes are reported after the file has been referred, but the changes took place prior to the issuance of a voucher, the file is referred back to Admissions staff to obtain written verification and determination as to whether or not the changes have any effect on eligibility, rent or unit size.

The amount of time RHA staff spends following up and tracking third party verification requests is significant and often results in information that is no more reliable than the documents provided by the applicants directly. To streamline the admissions process, reduce the amount of time required by staff, and decrease the time necessary to build a qualified applicant pool, RHA extended the length of time that all verified application data related to income is deemed valid for the HCV program to 120 days. Furthermore, stable income verifications, such as pensions and Social Security award letters, are now valid for all applicants for the duration of the current year.

## **Impact:**

Prior to implementation of this activity, RHA staff sent out approximately 2,772 third party verifications for admission on an annual basis. Following implementation of this activity, the process has become streamlined, and the number of third-party verifications was reduced by 88% to 338. Allowing stable income verifications to be valid for the current year rather than requiring applicants to obtain additional social security award letters or pension statements every 60 days has also helped to expedite applicants through the admissions process.

The following table reflects costs incurred by RHA for each verification for admission in FY 2023:

Cost for Verifications/Processing in Admissions					
Material Time Labor					
Cost for Housing Specialist		.17 hrs @ \$25.86 per hr	\$4.40		
Cost for General Office Clerk \$2.48 .23 hrs @ \$22.34 per hr \$5			\$5.14		
Cost per Verification: \$12.01					

# **Update/Status:**

This activity remains ongoing.

## **Activity Metrics:**

The following HUD Standard Metrics were identified and continue to be tracked for this activity.

2017-01 CE #1: Agency Cost Savings					
	Total cost of	task in dollars (decre	ase).		
Unit of Measurement	Baseline	Benchmark	Outcome	Benchmark Achieved?	
Total cost of task in dollars.	\$24,643	\$18,483	\$3,891 FY 2022: \$4,059 FY 2021: \$2.352 FY 2020: \$3,730 FY 2019: \$5,217 FY 2018: \$9,046 FY 2017: \$16,429	Yes	

2017-01 CE #2: Staff Time Savings							
Total time to complete the task in staff hours (decrease).							
Unit of Measurement	Baseline	Benchmark	Outcome	Benchmark Achieved?			
Total time to complete the task in staff hours.	1,108.8 hours	831.8 hours	129.6 hours  FY 2022: 135.2 hours  FY 2021: 104.4 hours  FY 2020: 165.6 hours  FY 2019: 231.6 hours  FY 2018: 401.62 hours  FY 2017: 739.2 hours	Yes			

# **Hardship Policy:**

This activity is not considered a rent reform activity, no hardship policy was established or required.

## **Actual Non-Significant Changes:**

There are no actual non-significant changes.

#### **Actual Changes to Metrics/Data Collection:**

There are no actual changes to the metrics/data collection methodology.

## **Actual Significant Changes:**

There are no actual significant changes.

## **Challenges in Achieving Benchmarks and Possible Strategies:**

No challenges were experienced in achieving the benchmarks identified and established for this activity. Benchmarks for this activity were originally based on a decrease of approximately 25% in agency cost and time savings. In FY 2023, both the agency cost savings ( $2017-01\ CE\ \#1$ ) and staff time savings ( $2017-01\ CE\ \#2$ ) saw a decrease of nearly 87.8% of baseline.

# 2017-02: Asset threshold to determine eligibility for admission

## Plan Year Approved, Implemented and Amended (if applicable):

This activity was identified, approved, and implemented in FY 2017. It was amended in FY 2020 to exclude cash assets when determining eligibility for elderly/disabled HCV and PH households.

#### **MTW Statutory Objective(s):**

Increase housing choice for low-income families with limited financial resources.

## **Description:**

Pursuant to 24 CFR §5.609, annual income is defined to include amounts derived (during the 12-month period) from assets to which any member of the family has access. Income resulting from any assets held by the family must be calculated and included when determining program eligibility and rent portions. Under HUD's current guidelines, there is no limit on the amount of assets a family may have access to prior to determination of eligibility.

To serve applicants with the greatest financial need, RHA established an asset threshold when determining initial eligibility for admission to its housing programs. If an applicant has combined assets with a cash value of more than \$50,000, or ownership interest in a suitable dwelling unit that they have a legal right to reside in, they are now determined ineligible.

#### **Impact:**

On June 30, 2023, RHA had 15,239 applicants on wait lists for various programs offered by the agency. Of these applicants, eight had assets that exceeded RHA's asset threshold. At the end of FY 2023, two of these applicants remained active on the wait list.

#### **Update/Status:**

This activity remains ongoing.

#### **Activity Metrics:**

The following HUD Standard Metric was identified and continues to be tracked for this activity.

2017-02 HC #3: Decrease in Wait List Time							
Average applicant time on wait list in months (decrease).							
Unit of Measurement	Baseline	Benchmark	Outcome	Benchmark Achieved?			
Average applicant time on wait list.	15.45 months	15.45 months	19.84 months  FY 2022: 20.92 months FY 2021: 29.79 months FY 2020: 21.84 months FY 2019: 19.02 months FY 2018: 16.06 months FY 2017: 17.33 months	No			

# **Hardship Policy:**

This activity is not considered a rent reform activity, no hardship policy was established or required.

# **Actual Non-Significant Changes:**

There are no actual non-significant changes.

## **Actual Changes to Metrics/Data Collection:**

There are no actual changes to the metrics/data collection methodology.

### **Actual Significant Changes:**

There are no actual significant changes.

## **Challenges in Achieving Benchmarks and Possible Strategies:**

There are several factors that influence the length of time an applicant will remain on the wait list which should be noted including, but not limited to, sequestration, local preferences, and the closure of the wait list. Due to these factors, it is nearly impossible to determine whether the length of time an applicant remains on the wait list has decreased as a direct result of implementation of this activity.

# 2018-01: Landlord Incentive Program

## Plan Year Approved, Implemented and Amended (if applicable):

This activity was identified, approved, and implemented in FY 2018. It was expanded upon in FY 2020 to allow for an additional condition for payment based entirely on damages to the unit caused by the tenant beyond normal wear and tear.

#### **MTW Statutory Objective(s):**

Increase housing choice for low-income families by providing an incentive for private landlord participation within the HCV program.

# **Description:**

Reno, Sparks and Washoe County have experienced a strengthening housing market resulting in private landlords refusing to participate in the HCV program. While this is due in part to the myriad of regulations that must be adhered to prior to leasing to a family participating in the HCV program, it is made worse when some landlords would rather demand a higher rent than lease to an HCV participant. Complicating matters further is that, in some cases, proper notification of a family's intent to move is not always provided which, in the HCV program, can result in the landlord having to pay back a portion of the HAP that they may have already received.

Based on a survey of participating HCV landlords, RHA implemented a Landlord Incentive Program in FY 2018. The program allows landlords to receive their contracted HAP payment through the end of the month for units occupied by HCV participants who vacate under the following conditions: (1) deceased, (2) eviction, (3) skip, (4) family responsibility violation or (5) damages to the unit caused by the tenant, beyond normal wear and tear, that are proven to cost more than the tenant's security deposit. Furthermore, an additional HAP payment equal to one month may be received for these same units regardless of the actual move-out date of the participant, if the request is made in writing by the landlord.

Under RHA's Landlord Incentive Program, landlords will only be able to qualify for one-month additional HAP payment utilizing one of the five conditions. At no time will they be allowed to claim more than one month's HAP payment by using a combination of more than one of five conditions identified.

#### **Impact:**

The Landlord Incentive Program was designed to facilitate lease ups and increase landlord participation resulting in an increase in housing choice for RHA's low-income families. As private landlords are now provided with additional assurances should they rent to HCV participants that they otherwise would not have, RHA expects this activity to facilitate the retention of landlord participation within the HCV program.

As of June 30, 2023, RHA experienced 389 move outs within its HCV program (excluding VASH & EHV) for the following reasons:

Move Out Reason	Number
Moved to Other Section 8 Unit	165
Porting Out to Other PHA	37
End of Participation: Termination – Fraud	0
End of Participation: No Longer Eligible	24
End of Participation: Voluntary Move Out	62
End of Participation: Absorbed Port	0
End of Participation: Family Responsibility Violation	42
End of Participation: Deceased	56
End of Participation: Skipped	1
End of Participation: Eviction	1
Temporary Move Out	0

Based on the criteria set forth in RHA's Landlord Incentive Plan, 101 of these move outs would have been eligible for an additional HAP payment under the Landlord Incentive Program. In FY 2023, RHA made 131 payments on behalf of 113 tenants to 62 separate landlords for a total of \$66,528. In addition, 30 payments, totaling \$14,505, were made on behalf of VASH voucher holders and \$5,422 was made on behalf of EHV households.

Landlord Incentive Program: HCV Program				
Move Out Reason	Amount Paid			
End of Participation: Family Responsibility Violation	\$13,193			
End of Participation: Deceased	\$36,564			
End of Participation: Skipped	\$6,422			
End of Participation: Eviction	\$23,852			
Damages	\$6,424			
Total Amount Paid:	\$86,455			

# **Update/Status:**

Current market conditions within Reno, Sparks and Washoe County have resulted in some private and tax credit properties carrying wait lists to fill new vacancies. To ensure that landlords in our area can maintain equal housing opportunities and follow existing procedures, RHA does not require landlords to rent to another voucher holder to qualify for this incentive.

In FY 2024, RHA amended this activity to allow for an automatic payment of the second month to the landlord. Furthermore, the payment amount has been modified to ensure the landlord receives the actual contract rent amount for the unit rather than the monthly HAP amount. To provide more of an incentive to landlords who lease to RHA's HCV participants, RHA also received approval to implement a re-lease bonus and a landlord referral bonus program.

This activity remains ongoing.

# **Activity Metrics:**

The following HUD Standard Metric was identified and tracked for this activity.

2018-01 HC #2: Units of Housing Preserved						
Number	of housing units preserved	that would otherwise not	be available (increase	·).		
Unit of Measurement Baseline Benchmark Outcome Benchmark Achieved?						
Number of housing units preserved for households at or below 80% AMI.	19	31	34	Yes		

# **Hardship Policy:**

This activity is not considered a rent reform activity, no hardship policy was established or required.

# **Actual Non-Significant Changes:**

There are no actual non-significant changes.

## **Actual Changes to Metrics/Data Collection:**

There are no actual changes to the metrics/data collection methodology.

# **Actual Significant Changes:**

There are no actual significant changes.

#### **Challenges in Achieving Benchmarks and Possible Strategies:**

RHA implemented its Landlord Incentive Program on October 1, 2017. Following implementation, staff began promoting the program to both new and current landlords through its website, quarterly landlord newsletters, landlord briefings, word of mouth, and most recently by bringing a Landlord Liaison on staff. In FY 2023, 54.84% of landlords who received the incentive payment leased their unit to another HCV family.

# 2019-01: Redetermination of rent reasonableness as a result of a change in contract rent

## Plan Year Approved, Implemented and Amended (if applicable):

This activity was identified, approved, and implemented in FY 2019.

# MTW Statutory Objective(s):

Reduce costs and achieve greater cost effectiveness in federal expenditures by reducing the amount of time it takes to process rent change requests of 10% or less. Providing some flexibility from regulation is expected to increase housing choice through the retention of landlords who are leasing to HCV program participants.

### **Description:**

Reno, Sparks and Washoe County have continued to experience a strengthening housing market that has resulted in an overall shortage of affordable housing units. With limited inventory and an influx in population the need for additional housing stock has continued to grow resulting in an extremely tight rental market and increased rents throughout the area. This strengthening market has resulted in private landlords becoming wary or simply refusing to rent to HCV participants. This is due in part to the desire of private landlords to make more of a profit but made worse by the abundance of regulations that must be adhered to when leasing to a family participating in the HCV program. These restrictive regulations include mandatory inspections and the requirement to determine whether a contract rent increase (CRI) request is reasonable. In the past, RHA's landlords expressed dissatisfaction in having to complete a rent reasonableness determination when requesting a rent increase and many openly disagreed with the comps used if the amount requested was determined to be unreasonable.

Based on this information and the current rental market conditions, RHA began waiving the requirement for a rent reasonableness determination if the new requested rent amount represented a change of 10% or less.

#### **Impact:**

During FY 2023, RHA processed 1,379 rent change requests of which 371 or 27% sought a change of 10% or less. Should a rent reasonableness determination be required, RHA incurs the following cost:

Cost for Processing CRI						
Material Time Labor						
Cost for General Office Clerk II	\$0.4024	.21 hrs @ \$23.45 per hr	\$4.92			
Cost for Rental Assistance Administrator		.02 hrs @ \$37.81 per hr	\$0.76			
Totals \$0.4024 \$5.68						
Cost per CRI Request \$6.08						

# **Update/Status:**

To ensure this policy change remains a viable option for waiving the required rent reasonableness determination following a CRI request, RHA will conduct a general analysis of the local rental

market once the market stabilizes. Based on this analysis, RHA may adjust this percentage to accommodate the current conditions.

In FY 2024, RHA amended this activity to waive the requirement for rent reasonableness determinations provided that the new requested rent amount is a change of 10% or less but requests that are at or below the current HCV payment standard are automatically approved.

This activity remains ongoing.

# **Activity Metrics:**

The following HUD Standard Metrics were identified and tracked for this activity.

2019-01 CE #1: Agency Cost Savings					
Tota	al cost of task in a	dollars (decrease	).		
Unit of Measurement Baseline Benchmark Outcome Benchmark Achieved?					
Total cost to redetermine reasonable rent as a result of a CRI request.	\$5,451	\$1,854	\$6,080 FY 2022: \$1,739 FY 2021: \$802 FY 2020: \$1,574 FY 2019: \$2,067	No	

2019-01 CE #2: Staff Time Savings					
Total time to	complete the task	k in staff hours (	(decrease).		
Unit of Measurement Baseline Benchmark Outcome Benchmark Achieved					
Total time to redetermine reasonable rent as a result of a CRI request.	254.03 hours	86.40 hours	85.28 hours FY 2022: 64.35 hours FY 2021: 37.35 hours FY 2020: 73.35 hours FY 2019: 145.13 hours	Yes	

2019-01 CE #3: Decrease in Error Rate of Task Execution <sup>48</sup>					
Average error rate in completing a task as a percentage (decrease).					
Unit of Measurement Baseline Benchmark Outcome Benchmar Achieved					
Average error rate when determining reasonable rent as a result of a CRI request.	0%	0%	0%	Yes	

<sup>48</sup> RHA utilizes GoSection8 for all rent reasonableness determinations, therefore, the agency has not experienced an error rate in task execution.

2019-01 CE #5: Increase in Agency Rental Revenue					
Re	ntal revenue in d	ollars (increase)			
Unit of Measurement Baseline Benchmark Outcome Benchmar Achieved					
Increase in rental revenue following the determination of reasonable rent as a result of a CRI request.	\$212,665	\$232,952	\$132,782 <sup>49</sup> FY 2022: \$288,893  FY 2021: \$300,893  FY 2020: \$308,646  FY 2019: \$197,969	No	

2019-01 HC #4: Displacement Prevention					
Number of households at or below	80% AMI that w	ould lose assista	nce or need to move (d	lecrease).	
Unit of Measurement Baseline Benchmark Outcome Benchmark Achieved?					
Total number of households at or below 80% AMI who would lose assistance or need to move should landlords no longer participate in the HCV program.	1,129	24	0	Yes	

2019-01 HC #5: Increase in Resident Mobility					
Number of households able	e to move to a bet	ter unit and/or n	eighborhood (increase	).	
Unit of Measurement Baseline Benchmark Outcome Benchmark Achiev					
Total number of households able to move to a better unit and/or neighborhood of opportunity as a result of landlords continuing to participate in the HCV program.	1,105	2,382	2,299  FY 2022: 2,235  FY 2021: 2,188  FY 2020: 2,251  FY 2019: 2,128	No	

# **Hardship Policy:**

This activity is not considered a rent reform activity, no hardship policy was established or required.

# **Actual Non-Significant Changes:**

There are no actual non-significant changes.

# **Actual Changes to Metrics/Data Collection:**

There are no actual changes to the metrics/data collection methodology.

# **Actual Significant Changes:**

There are no actual significant changes.

<sup>&</sup>lt;sup>49</sup> This is an increase in tenant contribution to rent and not an actual increase in rental revenue to RHA.

# Challenges in Achieving Benchmarks and Possible Strategies:

Throughout FY 2023, RHA received 1,379 CRIs of which 151 were requests from landlords who were not eligible to receive one. Although not included in the reporting metrics, 173 landlords from the VASH program requested CRIs of which 15 were deemed ineligible.

In FY 2023, nearly 73% of CRI requests processed by RHA were from landlords who requested more than a 10% increase, a considerable increase from the 24% requested in FY 2022. Although RHA did not meet some of the established benchmarks during this FY, the volatile rental market explains the challenges faced for agency cost savings (2019-01 CE #1) and staff time savings (2019-01 CE #2). If/when the rental market in Reno/Sparks begins to stabilize, RHA anticipates meeting both of these benchmarks.

# 2019-02: Provide incentives to \$0 HAP households

# Plan Year Approved, Implemented and Amended (if applicable):

This activity was identified, approved, and implemented in FY 2019.

# **MTW Statutory Objective(s):**

This activity provides incentives to families with children where the head of households is working, is seeking work, or is preparing for work by participating in job training, educational programs, or programs that assist people to obtain employment and become economically self-sufficient. Allowing qualifying households to self-certify annual income also reduces cost and achieves greater cost effectiveness in federal expenditures.

### **Description:**

Many of RHA's families who increase their household earnings and begin to pay full contract rent also experience the "benefits cliff". For several of these families, an increase in earned income results in a loss of eligibility for certain public benefits such as Temporary Assistance for Needy Families (TANF), Supplemental Nutrition Assistance Program (SNAP), childcare subsidy and housing. As a result, it is not uncommon for households approaching the end of their housing assistance within the HCV program to elect to reduce their income or lose employment to keep their housing assistance. Although these families have successfully increased their household earnings enough to pay the full contract rent, many remain fearful of no longer having the safety net offered through assistance eligibility.

To ease this fear and increase the success rate of RHA's HCV households in becoming economically self-sufficient, RHA adopted a new policy that extends the length of time a household can remain on the HCV program while receiving zero assistance. By lengthening the period from six months to 12 months, RHA expects to provide an additional level of security and confidence. Participants can continue to increase their earned income while at the same time eliminating the incentive to terminate employment or reduce working hours. The new policy aims to remove the choice many participants face between becoming more self-sufficient and maintaining housing assistance.

As an additional incentive to HCV participants on their way to self-sufficiency, RHA began to allow households at \$0 HAP to accrue a "program completion escrow" account for up to 12 months and alleviate the administrative burden placed on staff by self-certification of income for these households. Using single-fund flexibility, RHA began setting aside 15% of each household's contracted rent monthly in an escrow account while the household remains on the program receiving zero assistance. This escrow accrues beginning the first month that the family reaches \$0 HAP, accumulates monthly for up to 12 months and is provided to the family once the HAP contract has been terminated by RHA and the family has successfully transitioned off the HCV program. <sup>50</sup>

All escrow accruals are subject to funding availability and limited to one per lifetime for all adults living in the household at the time of move-off. Should the escrow accrual program cease due to funding restraints, HCV participants will receive any amounts accumulated prior. All households must be moved off of housing assistance at \$0 HAP in order to receive the accumulated escrow funds and will only be able to reapply for assistance following a three year sit out period.

# **Impact:**

Throughout FY 2023, RHA successfully moved off 17 HCV participants with some program completion funds while 34 households remain on the program at full contract rent.

The following table provides an overview of the number of HCV clients who are currently housed or who moved off the program at \$0 HAP in FY 2023:

HCV households at \$0 HAP within FY 2023					
	# of households	Cost of 12-Month Escrow Accrual			
EOP - full contract rent for 12 months	17	\$29,807			
EOP - full contract rent, moved off prior to 12 months	0	\$0			
Full contract rent, but within 12-month \$0 HAP period	34	\$57,491 <sup>51</sup>			
Full contract rent within the FY, but remain on HCV program	33	\$0			
Lost employment just prior to EOP at 12 months	7	\$0			
Estimated :	\$87,298				
Actual FY	\$29,807				

# **Update/Status:**

This activity remains ongoing.

# **Activity Metrics:**

The following HUD Standard Metric was identified and tracked for this activity.

2019-02 SS #1: Increase in Household Income					
Average earned income of	f households aff	fected by this po	licy in dollars (increase).		
Unit of Measurement Baseline Benchmark Outcome Benchmark Achieved					
Average earned income of households receiving \$0 HAP (increase).	\$16,198	\$41,675	\$51,813 FY 2022: \$47,190 FY 2021: \$41,875 FY 2020: \$42,295 FY 2019: \$53,391	Yes	

\_

Estimated cost is calculated based on the assumption that these 34 clients will remain on the HCV program at \$0 HAP and accumulate an escrow account for 12 months. These clients are currently accumulating escrow funds, but to date have not moved off the HCV program.

2019-02 SS #2: Increase in Household Savings					
Average amount of savings/escrow of households affected by this policy in dollars (increase).					
Unit of Measurement Baseline Benchmark Outcome Benchmark Achieved					
Average amount of savings/escrow of households receiving \$0 HAP (increase).	\$81	\$2,484	\$2,231 FY 2022: \$4,091 FY 2021: \$2,433 FY 2020: \$1,724 FY 2019: \$1,699	No	

2019-02 SS #3: Increase in Positive Outcomes in Employment Status						
Report for each type of employment status for those head(s) of households affected.						
Unit of Measurement Baseline Benchmark Outcome Benchmark Achieved?						
Employed Full-Time	12	41	33	Yes		
Employed Pull-Time	12	41	(32 HOH, 1 Co-Head)	1 08

Enrolled in an Educational Program	N/A	N/A	N/A	N/A		
Enrolled in Job Training Program	N/A	N/A	N/A	N/A		
	20	0	12	N		
Unemployed	20	8	(9 HOH, 3 Co-Head)	No		
Other	N/A	N/A	N/A	N/A		

2019-02 SS #5: Households Assisted by Services that Increase Self-Sufficiency					
Households assisted by services that increase self-sufficiency (increase).					
Unit of Measurement Baseline Benchmark Outcome Benchmark Achieved?					
Number of households receiving \$0 HAP and assisted by services that increased self-sufficiency.	7	21	17	No	

2019-02 SS #8: Households Transitioned to Self-Sufficiency					
Unit of Measurement Baseline Benchmark Outcome <sup>52</sup> Benchmark Achieved?					
Number of households who were receiving \$0 HAP and successfully transitioned to self-sufficiency.	25	42	17	No	

2019-02 CE #1: Agency Cost Savings					
Total cost of task in dollars (decrease).					
Unit of Measurement Baseline Benchmark Outcome Benchmark Achieve					
Total cost to process an annual reexamination of HCV households at \$0 HAP.	\$2,398	\$1,046	\$564 FY 2022: \$696 FY 2021: \$349 FY 2020: \$698 FY 2019: \$1,021	Yes	

2019-02 CE #2: Staff Time Savings					
Total time to complete the task in staff hours (decrease).					
Unit of Measurement Baseline Benchmark Outcome Bench					
Total time to process an annual reexamination of HCV households at \$0 HAP.	116.76 hours	55.02 hours	22.27 hours  FY 2022: 27.51 hours FY 2021: 18.34 hours FY 2020: 36.68 hours FY 2019: 53.71 hours	Yes	

#### **Hardship Policy:**

This activity is not considered a rent reform activity, no hardship policy was established or required.

## **Actual Non-Significant Changes:**

There are no actual non-significant changes.

# **Actual Changes to Metrics/Data Collection:**

There are no actual changes to the metrics/data collection methodology.

# **Actual Significant Changes:**

There are no actual significant changes.

In FY 2017, RHA changed its definition of self-sufficiency to two phases. The first phase occurs as household members maintain consistent employment for 12 months or when a reduction in subsidy results in the household being responsible for more than 50% of the rent. The final phase of self-sufficiency occurs automatically once the household is no longer receiving assistance or when the household voluntarily ends participation. The outcome for this metric includes only those households who have met RHA's definition in regard to the final phase of self-sufficiency.

# Challenges in Achieving Benchmarks and Possible Strategies:

The ability to become self-sufficient can vary from one household to another based on several factors including educational, social, and economic foundations. By increasing the timeline to 12 months and adding in an escrow accrual component, RHA anticipates providing an additional level of security for those participants who have increased their household income enough to be removed from housing assistance. RHA hopes to meet each of the benchmarks in the future.

# 2021-01: Affordable Housing Acquisition, Rehabilitation and Preservation

## Plan Year Approved, Implemented and Amended (if applicable):

This activity was identified, approved, and implemented in FY 2021.

# MTW Statutory Objective(s):

This activity will increase housing choice for low-income families.

# **Description:**

RHA is committed to expanding affordable housing throughout the Truckee Meadows through acquisition, new construction, or rehabilitation of housing that not only builds upon the goals outlined in the agency's strategic plan but is also consistent with the MTW demonstration. Through this activity, MTW funds are being utilized to assist in the acquisition/development of new affordable units, the rehabilitation of newly acquired properties, and the preservation and revitalization of existing affordable housing properties. Public and private funds are being leveraged, when possible, to create innovative financing and development strategies through joint ventures or other partnerships.

# **Update/Status:**

# Carville Court Redevelopment

Carville Court is an existing RHA owned property consisting of three 2-unit duplexes located at 1245-1259 Carville Dr, Reno, NV. It was built in 1963 and purchased by RHA in 1997. Two of the three duplexes are currently occupied. Following the permanent relocation of existing tenants, the existing building will be demolished and replaced with a 2-story walk-up with 11 residential units (1BD/1BR), a community room, and on-site offices for property management and supportive services staff. The development budget as of September 2023 is \$4,649,491. The funding source is currently MTW Block Grant funds, but RHA is actively pursuing other funding and intends to close on the project with multiple sources. Construction is estimated to begin in January of 2025.

RHA has contracted with the relocation services company HousingtoHome to provide planning and consulting services to RHA as well as implementation of relocation services to current tenants. Tenants will be offered a variety of resources and continued rental assistance to smoothly transition to another property and maintain housing stability.

Redevelopment of the Carville Court property will enable RHA to bring more affordable housing units into the community. Additionally, RHA will project-base 11 Housing Choice Vouchers to ensure that the property is affordable to extremely low-income individuals and has been awarded \$278,000 in HOME-ARP funds to fund the salary of a full-time supportive service provider on-site through 2030. RHA projects the property's cash flow will allow for that position to be funded beyond 2030.

# **Railyard Flats**

Railyard Flats is a new affordable housing development at 419 10th Street, Sparks, Nevada. RHA purchased the land in 2023 utilizing ARPA funds from the State of Nevada. The project is a 3-story walk up on a 1/3 acre consisting of 15 units (nine 1-BR units and six 2-BR units). It will target households at or below 60% AMI with four of the units set aside for households at or below 30% AMI. All units will include energy-efficient and all-electric appliances. Finally, the project is in an area of significant economic investment and redevelopment in downtown Sparks. Future tenants

will be within easy walking distance of a major public transportation hub as well as retail and employment opportunities.

The development budget as of September 2023 is \$6,810,836. The funding is coming from a variety of sources including, Home Means Nevada Initiative funds (American Rescue Plan Act SLFRF dollars), HOME-ARP, and MTW Block Grant funds. Construction is set to start in the 4<sup>th</sup> quarter of 2023 and is projected to be completed by 4<sup>th</sup> quarter of 2024.

## Hawk View Apartments Redevelopment

Hawk View Apartments Redevelopment project involves the conversion of a 100-unit public housing site to a project-based Section 8 project under the demolition and disposition rules authorized by Section 18 of the U.S. Housing Act of 1937. The Hawk View Apartments are located on two parcels at 1500 Steelwood Lane and 2531 Tripp Drive, Reno, Nevada 89512. RHA plans to demolish all 28 buildings and rebuild the apartments to current standards. The new 3-story buildings would create an additional 100 multi-bedroom units (200 total units) in the redeveloped Hawk View Apartments complex. The project will be built using Home Means Nevada Initiative funds (American Rescue Plan Act SLFRF dollars), 4% Low Income Housing Tax Credit (LIHTC) equity, and tax-exempt bonds. Additionally, to ensure that the project can add as many new affordable housing units as possible, the RHA board has committed up to \$7,550,000 in MTW Block Grants to cover potential financial gaps.

RHA has contracted with the relocation services company HousingtoHome to provide planning and consulting services to RHA as well as implementation of relocation services to current tenants. Tenants will be offered a variety of resources and continued rental assistance to smoothly transition to another property and maintain housing stability.

Construction is projected to start in July 2024 and be completed by January of 2026.

This activity remains ongoing.

## **Activity Metrics:**

The following HUD Standard Metrics were identified and tracked for this activity.

2021-01 HC #1: Additional Units of Housing Made Available  Number of new housing units made available for households at or below 80% AMI (increase).				
Number of new housing units made ava	uavie for househ	olas at or below	80% AMI (inc	rease).
Unit of Measurement Baseline Benchmark Outcome Benchmark Achieved				
Number of new housing units made available for households at or below 80% AMI because of RHA's Affordable Housing Acquisition, Rehabilitation and Preservation activity.	0	0	0	Yes

2021-01 HC #2: Units of Housing Preserved					
Number of housing units preserved	Number of housing units preserved for households at or below 80% AMI (increase).				
Unit of Measurement Baseline Benchmark Outcome Benchmark Achieved?					
Number of housing units preserved for households at or below 80% AMI because of RHA's Affordable Housing Acquisition, Rehabilitation and Preservation activity.	0	0	0	Yes	

2021-01 HC #5: Increase in Resident Mobility					
Number of households able to move to a b	etter unit and/or	neighborhood oj	f opportunity (i	ncrease).	
Unit of Measurement Baseline Benchmark Outcome Benchmark Achieved?					
Number of households able to move to a better unit and/or neighborhood of opportunity because of RHA's Affordable Housing Acquisition, Rehabilitation and Preservation activity.	0	0	0	Yes	

# **Hardship Policy:**

This activity is not considered a rent reform activity, no hardship policy was established or required.

# **Actual Non-Significant Changes:**

There are no actual non-significant changes.

# **Actual Changes to Metrics/Data Collection:**

There are no actual changes to the metrics/data collection methodology.

## **Actual Significant Changes:**

There are no actual significant changes.

# **Challenges in Achieving Benchmarks and Possible Strategies:**

There were no challenges in achieving the established benchmarks.

# 2021-03: Partnership to Assist Homeless Youth

## Plan Year Approved, Implemented and Amended (if applicable):

This activity was identified, approved, and implemented in FY 2021.

# MTW Statutory Objective(s):

This activity increases housing choice for homeless youth.

# **Description:**

Washoe County continues to see a steady number of individuals experiencing homeless. Unfortunately, this also includes our community's youth. Eddy House, a local 501(c)3 non-profit, is the central intake and assessment facility in northern Nevada for homeless youth, ages 12-24. Since 2011, Eddy House has provided resources towards stabilizing youth who have experienced homelessness and/or are considered high risk. Recently, the local non-profit purchased and moved into a building that now serves as a resource center during the day and an overnight facility with 43 beds. The new center continues to serve as the central intake and assessment facility while also addressing the immediate overnight and emergency needs of Eddy House's extremely marginalized, non-system population of high-risk youth, ages 12-24.

To complement the new facility and assist this vulnerable population, RHA began utilizing single fund flexibility to assist Eddy House with their 24-hour center by funding up to 43 beds.

# **Impact:**

Through this activity, RHA assists Eddy House in their mission to provide shelter and services to the homeless youth population. RHA was able to provide Eddy House with assistance for an average of 37 youth monthly in FY 2023

# **Update/Status:**

This activity remains ongoing.

# **Activity Metrics:**

The following HUD Standard Metrics were identified and tracked for this activity.

2021-03 HC #1: Additional Units of Housing Made Available					
Number of new housing units made a	vailable for house	holds at or below	80% AMI (inc	rease).	
Unit of Measurement Baseline Benchmark <sup>53</sup> Outcome Benchmark Achieved?					
Number of new housing units made available for households at or below 80% AMI due to this partnership.	0	43	37	No	

53

Eddy House originally proposed 48 overnight beds, however upon completion of their new 24-hour facility, this number was reduced to 43. The benchmark for this activity was updated to reflect this change.

2021-03 HC #7: Households assisted by Services that Increase Housing Choice					
Number of households receiving services aimed to increase housing choice (increase).					
Unit of Measurement	Unit of Measurement Baseline Benchmark Outcome Benchmark Achieved				
Number of households receiving services aimed to increase housing choice due to this partnership.	0	43 <sup>54</sup>	37	No	

# **Hardship Policy:**

This activity is not considered a rent reform activity, no hardship policy was established or required.

# **Actual Non-Significant Changes:**

There are no actual non-significant changes.

## **Actual Changes to Metrics/Data Collection:**

There are no actual changes to the metrics/data collection methodology.

# **Actual Significant Changes:**

There are no actual significant changes.

# **Challenges in Achieving Benchmarks and Possible Strategies:**

Although RHA did not anticipate any leasing issues related to this activity, it is designed to assist homeless youth in both a community living space and 24-hour drop-in center. The very transient nature of the at-risk population being served make it difficult to anticipate any leasing issues that may be encountered. RHA will continue to reach out to Eddy House to provide the support necessary to ensure this at-risk population continues to be assisted.

\_

Eddy House originally proposed 48 overnight beds, however upon completion of their new 24-hour facility, this number was reduced to 43. The benchmark for this activity was updated to reflect this change.

# 2022-01: Workforce Development Program

## Plan Year Approved, Implemented and Amended (if applicable):

This activity was identified, approved, and implemented in FY 2022.

# **MTW Statutory Objective(s):**

Implementation of this activity will provide incentives to families with children where the head of household is working, is seeking work, or is preparing for work by participating in job training, educational programs, or programs that assist people to obtain employment and become economically self-sufficient.

## **Description:**

Beginning with its initial application to HUD in 2012, the Family Self-Sufficiency (FSS) program has been a critical component of RHA's participation in the MTW Demonstration. Based on activities implemented and expanded upon over the years, the FSS program quickly begun to evolve. Past successes and failures led staff to revise the agency's definition of self-sufficiency in FY 2017 and restructure the FSS program into a Workforce Development (WFD) Program in FY

2019. Through this restructuring, RHA began to provide a more client focused approach to all facets of self-sufficiency.

Increasing the number of PH residents and HCV participants moving toward the final phase of self-sufficiency by directly providing or connecting them to available educational opportunities and job trainings that promote economic independence continued to be a main pillar of RHA's WFD program in FY 2022. Addressing the need for sustainable employment that encourages economic mobility across multiple generations became an integral part of the program's design as well. To achieve this, RHA's WFD program began addressing the needs of the entire family - from one individual member, to parents, and youth.

The mission of the Workforce Development Program is to increase economic security among participants, to strengthen family foundations with the intention of building generational wealth, and to teach fundamental skills to promote independence. Our goal is to lead RHA families and youth to their fullest potential while participating in the Workforce Development Program.

It is anticipated that the addition of a two-generation approach to

WFD will help motivate parents to pursue their education or obtain a better job based on the success they see from their child(ren)'s involvement while inspiring youth to become self-sufficient as they enter adulthood. Although some parents and/or youth may already be reaching milestones or engaged with WFD programs, the goal of a two-generation approach is to encourage more family members to participate. Increased participation will serve to cultivate growth within the family, improve the odds of building generational wealth, and move the entire family toward self-sufficiency.

#### **Impact:**

By the end of FY 2023, 81 participants have signed Contracts of Participation and are actively involved in RHA's WFD program. The program is designed for motivated participants who are ready to create a concise plan to reach self-sufficiency. As such, each active participant must be interested and have the motivation to work with their Workforce Development Coordinator to:

Set and attain goals

- Increase employment skills and/or enroll in higher education classes
- Attend Workforce Development in-house workshops that focus on soft and hard employment skills
- Conduct job searches and/or attend career fairs
- Maintain employment

To assist motivated WFD participants working toward the goals identified in their Individual Training and Services Plans (ITSPs), RHA utilized single fund flexibility to implement several financial incentives. This includes providing rent credits based on goal completion and financial assistance with some of the most common barriers to self-sufficiency through the establishment of a Self-Sufficiency Fund.

Throughout FY 2023, RHA provided over \$1,900 in financial assistance to WFD program participants who experienced unexpected hardships that created a barrier to self-sufficiency. Prior to disbursing any Self-Sufficiency Funds, RHA's three-person Hardship Committee must review each request to determine viability. Some of the requests approved by the hardship committee over the year include assistance with past due rent, emergency utility bill payments, and educational/class fees.

The following table provides a breakdown of the number of rent credits provided by RHA to 22 participating WFD households who met some of the goals identified in their ITSPs:

Rent credits provided to WFD participants within FY 2023					
	\$ of rent credit	# of households	Cost of Rent Credit		
Obtaining Employment (32+ hours/week)	\$25	3	\$75		
Six months - Consistent same source employment	\$50	7	\$350		
12 months – Consistent same source employment	\$100	7	\$700		
Vocational Certification Earned	\$150	5	\$750		
AA/BS Degree Earned	\$200	1	\$200		
36 months - Consistent same source employment	\$250	1	\$250		
48 months - Consistent same source employment	\$300	1	\$300		
Actual FY 2023 cost:			\$2,625		

Implementation of this activity also serves as an investment in RHA's youth. RHA's Youth Workforce Development Program, or Start Smart, has been designed to assist PH and HCV youth in establishing short and long-term educational and career goals. Benefits of program participation are highlighted with each eligible family and include one-on-one mentoring with RHA staff, financial credits for workshop participation, job search support, and assistance with financial aid and scholarship searches.

Earned financial credits are paid directly to the participating youth upon graduation from the Start Smart program. Furthermore, each graduate will also be given the opportunity to apply for one of

three one-time scholarships, \$10,000 each, to be used toward post-secondary plans identified through participation in the program.

In FY 2023, RHA saw its first class of Start Smart graduates. These eight young adults accumulated \$37,600 in financial incentives and three were awarded an additional scholarship of \$10,000 each to be used toward their post-secondary plans. As of June 30, 2023, RHA has 19 youth, from 18 PH and HCV households, who are actively participating in Start Smart and building their financial incentive credits. Since joining the program, these 19 youth have accumulated \$48,450 in financial incentive credits through their ongoing participation in the program.

The following table provides a breakdown on the number of financial credits accumulated by participants who continued to participate in the program throughout FY 2023:

Incentive credits earned by RHA youth through Start Smart in FY 2023						
	Cost of incentive					
Quarterly meetings with Youth WFD Coordinator	\$50	55	\$2,750			
Attended workshop w/parent	\$400	68	\$27,200			
Attended workshop w/o parent	\$200	16	\$3,200			
Obtained employment	\$300					
Total FY 2023 Start Smart finan	\$33,450					

As indicated when this activity was proposed, RHA anticipates that the addition of a two-generation approach to WFD could motivate parents to pursue their education or obtain a better job based on the success they see from their child(ren)'s involvement. In FY 2023, five active WFD participants have a child who is also active in the Start Smart program.

#### **Update/Status:**

Recently CIRE Equity donated space within the Paradise Plaza shopping center to RHA for the establishment of a workforce development hub. In the future, this donated space will house all of RHA's Workforce Development activities. To support this expansion of RHA's Workforce Development Program, RHA's Board of Commissioners committed \$800,000 to assist in the necessary rehab of this donated space utilizing MTW single fund flexibility.

This activity remains ongoing.

# **Activity Metrics:**

The following HUD Standard Metrics were identified and tracked for this activity.

2022-01 SS #1: Increase in Household Income					
Average earned income of households affected by this policy in dollars (increase).					
I   I   I   I   I   I   I   I   I   I				Benchmark Achieved?	
Average earned income of households enrolled in WFD Program.	\$7,222 <sup>55</sup>	\$10,111	FY 2023: \$18,092 FY 2022: \$15,364	Yes	

2022-02 SS #2: Increase in Household Savings						
Average amount of savings/escrow of households affected by this policy in dollars (increase).						
Unit of Measurement	Outcome	Benchmark Achieved?				
Average amount of savings/escrow of households enrolled in WFD program.	\$1,468 <sup>56</sup>	\$1,615	FY 2023: \$3,340 FY 2022: \$2,351	Yes		

2022-01 SS #3: Increase in Positive Outcomes in Employment Status					
Report for each type of em	ployment status	for those head(	(s) of households affected	l.	
Unit of Measurement	Baseline	Benchmark	Outcome <sup>57</sup>	Benchmark Achieved?	
Employed Full-Time	7	9 or 18%	29 or 36% (27 HOH, 2 Co-Head)	Yes	
Employed Part-Time	11	14 or 28%	20 or 25% (19 HOH, 1 Co-Head)	No	
Enrolled in an Educational Program	0	0 or 0%	0 or 0%	Yes	
Enrolled in Job Training Program	0	0 or 0%	0 or 0%	Yes	
Unemployed	37	28 or 56%	43 or 53% (35 HOH, 8 Co-Head)	Yes	
Other	N/A	N/A	N/A	N/A	

Baseline was established using participating WFD households and reflects the average earned income at the time each household signed the contract of participation.

Baseline was established using participating WFD households and reflects the average amount of savings/escrow at the time each household signed the contract of participation.

Outcome percentages are based on 81 WFD participants with signed contracts at the end of FY 2023.

2022-01 SS #5: Households Assisted by Services that Increase Self-Sufficiency					
Households assisted by services that increase self-sufficiency (increase).					
Unit of Measurement Baseline Benchmark Outcome Bench Achie					
Number of households enrolled in WFD program and assisted by services that increased self-sufficiency.	50	67	81	Yes	

2022-01 SS #8: Households Transitioned to Self-Sufficiency						
Unit of Measurement Baseline Benchmark Outcome <sup>58</sup> Benchmar Achieved						
Number of households enrolled in WFD program who successfully transitioned to self-sufficiency.	0	2	2	Yes		

# **Hardship Policy:**

This activity is not considered a rent reform activity, no hardship policy was established or required.

# **Actual Non-Significant Changes:**

There are no actual non-significant changes.

### **Actual Changes to Metrics/Data Collection:**

There are no actual changes to the metrics/data collection methodology.

#### **Actual Significant Changes:**

There are no actual significant changes.

#### **Challenges in Achieving Benchmarks and Possible Strategies:**

Although RHA successfully graduated three households from the WFD program, only two households voluntarily moved off assistance thus earning the 25% escrow bonus. RHA understands the fear that many households experience when they may no longer have the safety net of ongoing housing assistance. RHA continues to explore ways to highlight the additional 25% escrow bonus incentive as a way to not only increase participation but encourage graduates to voluntarily move off of housing assistance.

Section IV. Approved MTW Activities

In FY 2017, RHA changed its definition of self-sufficiency to two phases. The first phase occurs as household members maintain consistent employment for 12 months or when a reduction in subsidy results in the household being responsible for more than 50% of the rent. The final phase of self-sufficiency occurs automatically once the household is no longer receiving assistance or when the household voluntarily ends participation. The outcome for this metric includes only those households who have met RHA's definition in regard to the final phase of self-sufficiency.

# **B.** Not Yet Implemented Activities

The activities discussed in this section have been approved by HUD but not yet implemented by RHA. The following table provides an overview of each of the approved MTW activities that have not yet been implemented including the year it was identified, the primary statutory objective(s) the activity is intended to impact, and the Authorization(s) cited.

MTW activities approved but not yet implemented						
Activity #	Authorization(s)					
2021-02	2021	STAR Apprenticeship Program	Create incentives for families to work, seek work or prepare for work.	Attachment C Section C.11 and Section D.2.a.		

# 2021-02: STAR Apprenticeship Program

#### **Description**

As Washoe County's workforce and employers evolve, training and preparation programs are becoming necessary to secure several of the higher paying jobs that are available within the region. In FY 2021, RHA proposed using single fund flexibility to establish the STAR Apprenticeship Program. This 24-week program will be designed to provide career-connected learning opportunities for residents of all ages. Through the program, PH residents and HCV participants will be provided with on-the-job training and related classroom instruction that will serve to increase current skill levels. More importantly, each STAR participant will gain valuable work experience within one of RHA's departments (maintenance, development, finance, etc.) and be provided with continuous feedback regarding expectations and overall performance throughout.

#### **Update/timeline for implementation**

RHA initially anticipated this activity was to be implemented in January 2021. Due to the evolving nature of the COVID-19 pandemic as well as internal staffing concerns, it is now unclear when this activity will be implemented.

# C. Activities on Hold

RHA does not have any MTW activities on hold.

# D. Closed Activities

The activities discussed in this section have been previously approved by HUD but closed by RHA. The following table provides an overview of each activity including the year it was approved, the primary statutory objective(s) the activity is intended to impact, and the authorization(s) cited.

	Closed MTW Activities						
Activity #	Fiscal Year Approved	Fiscal Year Closed	Activity Name	Statutory Objective(s)	Authorization(s)		
2014-01	2014	2023	Assign PBVs to RHA owned/controlled units without competitive process	Reduce costs and achieve greater cost effectiveness.	Attachment C Sections D.2.b. and D.7.a.

# 2014-01: Assign PBVs to RHA owned/controlled units without competitive process

## Plan Year Approved, Implemented and Amended (if applicable):

This activity was identified, approved, and implemented in FY 2014.

# **Description:**

Utilizing numerous funding sources, RHA acquired and maintains over 160 scattered site properties throughout the City of Reno, the City of Sparks, and Washoe County. To expand the housing choices of many low-income families, RHA began assigning PBVs to these agency owned/controlled units without going through a competitive process. A Technical Amendment to the FY 2014 MTW Annual Plan followed that allows for initial contract rents to be set by RHA if that rent is set at or below the applicable low HOME rents for the area.

# **MTW Statutory Objective(s):**

Reduce costs and achieve greater cost effectiveness in federal expenditures.

# Description of Statutory Exceptions outside of MTW Flexibilities that could have been beneficial:

RHA has not identified any statutory exceptions outside of MTW flexibilities that might have provided additional benefit to this activity.

#### **Activity Metrics:**

The following HUD Standard Metrics were identified and tracked for this activity.

2014-01 CE #1: Agency Cost Savings					
	Total cost of task in dollars (decrease).				
Unit of Measurement Baseline Benchmark				Benchmark Achieved?	
Cost of assigning PBVs to RHA owned/controlled unit without competitive process.	\$720/property	\$0	\$0	Yes	

2014-01 CE #2: Staff Time Savings				
Total time to complete the task in staff hours (decrease).				
Unit of Measurement Baseline Benchmark		Outcome	Benchmark Achieved?	
Amount of RHA staff hours required to complete task.	.25 hours or 15 minutes per property	0 hours	0 hours	Yes

## **Year of Close Out:**

This activity was closed in FY 2023.

## **Reason for Close Out:**

In FY 2024 RHA received approval to create a Local Project Based Voucher Program (Activity

2024-02) to consolidate all current PBV activities into one. The outcomes related to this activity will continue to be reported on under this new activity.

# 2014-03: Rent Reform Controlled Study

## Plan Year Approved, Implemented and Amended (if applicable):

This policy was identified, approved, and implemented in FY 2014.

### **Description:**

This activity's main objective was to rigorously promote self-sufficiency through a rent reform program that provided strong incentives to adult household members to seek and obtain employment. The Rent Reform Study was tested by bringing at least 150 families with children off the HCV wait list, assigning them to one of two groups of participants based on when their name was pulled from the wait list, and issuing them vouchers limited to five years. This activity did include elderly/disabled families with children.

For half of the families participating the study, rent was set using standard HCV rent calculations subject to the same policies and procedures as all other HCV participants. This group, also known as the control group, had rents set using RHA's current HCV policy, 30% of adjusted monthly income.

The study was designed to test two of the strongest incentives for HCV participants to become self-sufficient: (1) the ability to increase income without affecting rent and (2) the knowledge that their housing assistance will end after five years. These two incentives were given to study group participants, the other half of the Rent Reform Study. Participants in this group had rents set in advance which did not change based on income or household size. Rents for the study group only changed after the participant was on the program for two years or if the required bedroom size of the unit changed based on additional members being added to the household. As a result, the disincentive for obtaining new income was removed as these families can keep any increase in earned income without worrying that 30% of this income increase will be calculated for rent.

# MTW statutory objective(s):

Create incentives for families to work, seek work or prepare for work <u>and</u> reduce costs and achieve greater cost effectiveness in federal expenditures.

## Year of close out:

This activity was closed in FY 2019.

#### **Reason for close out:**

RHA staff considered several factors before reaching a decision to close this activity. Based on the rental market conditions resulting in a decline in RHA's current HCV lease up figures along with the undue stress that a time-limited voucher may cause for the participating family, it was determined that this activity would be closed. Notification was given to all remaining Rent Reform Controlled Study participants of RHA's intent to close the activity at which time all active households were transitioned to a regular HCV voucher.

# 2014-04: Expand self-sufficiency activities

# Plan Year Approved, Implemented, Amended and Closed:

This activity was identified, approved, and implemented in FY 2014. It was amended in FY 2015 and FY 2017.

# **MTW Statutory Objective(s):**

Provide incentives to families with children where the head of household is working, is seeking work, or is preparing for work by participating in job training, educational programs, or programs that assist people to obtain employment and become economically self-sufficient.

# Description of Statutory Exceptions outside of MTW Flexibilities that could have been beneficial:

RHA has not identified any statutory exceptions outside of MTW flexibilities that might have provided additional benefit to this activity.

# **Description:**

The FSS Lite Program, like the traditional FSS Program without an interest-bearing escrow account, was proposed and implemented in FY 2014. Upon implementation, the FSS Lite Program, designed to promote self-sufficiency through streamlined FSS service delivery, became mandatory for PH residents who are delinquent in completing their Community Service hours. Mobility Demonstration households who are unemployed without a qualifying exemption are also required to participate in the FSS Lite Program and prior to close out, Rent Reform Controlled Study participants were encouraged to take advantage of the program.

By utilizing single fund flexibility, RHA expanded the FSS Lite Program in FY 2015 and established a Self-Sufficiency Fund. The Self-Sufficiency Fund is designed to cover specific costs associated with self-sufficiency activities and is used whenever possible to assist program participants in achieving their self-sufficiency goals.

In FY 2017, RHA re-proposed this activity to allow for the establishment of one-time and/or ongoing rent credits to serve as an incentive to FSS Lite Program participants to complete the goals identified in their Individual Training and Services Plans (ITSP), as well as increase participation in the FSS Lite Program overall.

### Year of close out:

This activity was closed out and replaced with Activity 2022-01 in FY 2022.

#### **Reason for Close Out:**

RHA recently restructured its entire FSS Program into a Workforce Development Program focused on Job placement and job retention for all able-bodied participants in RHA's housing programs, including youth. As the goal of this activity is to propel households toward the final phase of self-sufficiency, RHA will no longer refer households with delinquent community service hours to the Workforce Development Program. This fundamental change resulted in this activity, including the FSS Lite Program, being closed and replaced with RHA's newest Workforce Development Program (Activity 2022-01).

# 2014-07: Alternate HQS verification policy

# **Implementation year:**

This policy was identified, approved, and implemented in FY 2014.

# MTW statutory objective(s):

Reduce costs and achieve greater cost effectiveness in federal expenditures.

# **Description:**

HCV units that pass the HQS inspection on the first visit will not be inspected until two years following the last passed inspection, as long as both the landlord and HCV participant sign a certification that the unit is in good repair. If the landlord and HCV participant do not each certify or agree on the condition of the unit, an annual HQS inspection is conducted. The year following a successful self-certification, RHA will conduct a standard HQS inspection.

#### Year of close out:

This activity was closed out in FY 2017.

## **Reason for close out:**

HUD is now allowing for biennial HQS inspections through Section 220 of the 2014 Appropriations Act, this activity has been closed.

# 2014-08: Partner with local nonprofits to provide housing to at risk families

## Plan Year Approved, Implemented and Amended (if applicable):

This policy was identified, approved, and implemented in FY 2014.

## **Description:**

RHA is providing PBV units to clients of its nonprofit partners. These PBVs are for two years and each of the nonprofit partners provide supportive services. RHA also worked with Silver Sage Manor, Inc. to assign five PBVs for units at their NSP3 property located at 435 Moran Street. This property was completely rehabilitated using NSP3 funds provided by the City of Reno. Although Silver Sage Manor, Inc. does not provide any supportive services, their property houses elderly individuals in the City of Reno, the City of Sparks, and Washoe County community who are, or may soon become, homeless.

#### MTW Statutory Objective(s):

Increase housing choice for low-income families and provide incentives to families with children where the head of household is working, is seeking work, or is preparing for work by participating in job training, educational programs, or programs that assist people to obtain employment and become economically self-sufficient.

# Description of Statutory Exceptions outside of MTW Flexibilities that could have been beneficial:

RHA has not identified any statutory exceptions outside of MTW flexibilities that might have provided additional benefit to this activity.

# **Activity Metrics:**

The following HUD Standard Metrics were identified and tracked for this activity.

2014-08 CE #4: Increase in Resources Leveraged				
Amount of funds leveraged in dollars (increase).				
I   I   I   I   I   I   I   I   I   I				Benchmark Achieved?
Amount of funds leveraged in dollars by partnering with local non-profits.	\$0	\$13,260	\$15,850	Yes

2014-08 HC #4: Displacement Prevention				
Number of households at or below 80% AMI that would lose assistance or need to move (decrease).				
Unit of Measurement	Baseline	Benchmark	Outcome	Benchmark Achieved?
Number of households at or below 80% AMI that would lose assistance or need to move.	0	0	0	Yes

2014-08 HC #5: Increase in Resident Mobility				
# of households able to move to a better unit and/or neighborhood of opportunity (increase).				
Unit of Measurement	Baseline	Benchmark	Outcome	Benchmark Achieved?
Number of households able to move to a better unit and/or neighborhood of opportunity because of partnership.	0	2	0	No

2014-08 HC #7: Households Assisted by Services that Increase Housing Choice				
Number of households receiving services aimed to increase housing choice (increase).				
Unit of Measurement	Baseline	Benchmark	Outcome <sup>61</sup>	Benchmark Achieved?
Number of households receiving services aimed to increase housing choice due to partnership.	0	2	22	Yes

<sup>&</sup>lt;sup>59</sup> Benchmark is set assuming full lease up of five units with CAAW, RHA's longest partnership. CAAW has estimated approximately \$221 per month per client in additional resources.

Outcome for this benchmark includes the 12 PBV units leased at Willie J Wynn Apartments. Washoe County Health and Human Services Agency provides approximately 15 hours each month for case management services for all 12 units.

Outcome for this benchmark includes five PBV units leased at 435 Moran St without case management services.

#### Year of close out:

This activity was closed in FY 2023.

#### Reason for close out:

In FY 2024 RHA received approval to create a Local Project Based Voucher Program (Activity #2024-02) to consolidate all current PBV activities into one. The outcomes related to this activity will continue to be reported on under this new activity.

# 2015-03: Eliminate caps on PBV allocations and allow for assignment of PBVs to 100% of RHA-owned, non-Public Housing properties

# Plan Year Approved, Implemented and Amended (if applicable):

This activity was identified, approved, and implemented in FY 2015. It was amended in FY 2017.

# **Description:**

RHA owns non-PH dwelling units and complexes which have been assigned PBVs and utilized in various housing programs to help more households move off the wait lists. Per 24 CFR §983.56, PBV assistance for units in a project cannot exceed more than 25% of the number of dwelling units (assisted or unassisted) in the project.

In FY 2015, RHA waived the per project cap on RHA owned non-PH complexes allowing for the assignment of PBVs to up to 100% of these units, increasing both the rental revenue for RHA and housing choices for low-income families. In FY 2017, RHA requested and received approval for a waiver to lift the 20% limit on the amount of voucher funding that may be utilized under the PBV program.

# **MTW Statutory Objective(s):**

Reduce costs and achieve greater cost effectiveness in federal expenditures <u>and</u> increase housing choice for low-income families.

# Description of Statutory Exceptions outside of MTW Flexibilities that could have been beneficial:

RHA has not identified any statutory exceptions outside of MTW flexibilities that might have provided additional benefit to this activity.

# **Activity Metrics:**

The following HUD Standard Metric was identified and tracked for this activity.

2015-03 HC #4: Displacement Prevention				
Number of households at or below 80% AMI that would lose assistance or need to move (decrease).				
Unit of Measurement	Baseline	Benchmark	Outcome	Benchmark Achieved?
Households at or below 80% AMI that lost assistance or needed to move.	0	0	0	Yes

#### Year of close out:

This activity was closed in FY 2023.

#### **Reason for close out:**

In FY 2024 RHA received approval to create a Local Project Based Voucher Program (Activity #2024-02) to consolidate all current PBV activities into one. The outcomes related to this activity will continue to be reported on under this new activity.

# 2015-04: Required Savings Plan for Earned Income Disallowance (EID) PH residents

# Plan Year Approved, Implemented and Amended:

This activity was identified, approved, and implemented in FY 2015.

# MTW statutory objective(s):

Create incentives for families to work, seek work or prepare for work.

## **Description:**

EID allows eligible residents in the PH program to increase their incomes through employment without triggering rent increases. When any assisted participant in the PH program, who is unemployed or under-employed, obtains a job or increases their wages, they are eligible for the EID benefit. The resulting increase in income is fully excluded for 12 months and 50% excluded for an additional 12 months.

While the goal of EID is to motivate people who qualify for the program to accept employment, PH EID participants are often unable to maintain steady employment and frequently have issues once the EID period runs out because they have not learned how to effectively manage their money. To encourage PH residents to think more about their finances and ultimately prepare for the end of the EID period, RHA began requiring that all EID PH residents participate in a savings plan.

#### Year of close out:

This activity was closed out in FY 2018.

#### **Reason for close out:**

With the elimination of EID in RHA's FY 2016 MTW Annual Plan, this activity has been closed.

## 2016-03: Time limited vouchers and redesign of traditional FSS Program

#### Plan Year Approved, Implemented and Amended:

This activity was identified and approved in FY 2016.

#### MTW statutory objective(s):

Create incentives for families to work, seek work or prepare for work.

#### **Description:**

In FY 2016, RHA proposed and received approval to establish a five-year time limit for all new non-elderly/non-disabled applicants participating in the HCV program with the goal of promoting self-sufficiency and increasing housing opportunities. Furthermore, to better serve existing HCV

and PH FSS participants and all new non-elderly/non-disabled HCV participants with time limited vouchers, RHA received approval to redesign the traditional HCV and PH FSS Program.

#### Time limited vouchers:

To assist more families in need and promote self-sufficiency, work-able non-elderly/non-disabled households receiving subsidies will be given an impetus to become self-sufficient and cycle off of the program through the implementation of five-year time limited vouchers. Prior to being issued a time limited voucher, all new non-elderly/non-disabled applicants will be required to attend an in depth, eight-hour financial literacy class. Should a family choose not to participate in the class, they will be removed from the HCV wait list entirely and will need to reapply.

In addition to the mandatory financial literacy class, all new non-elderly/non-disabled HCV participants will meet with a Workforce Development Coordinator within three months of lease up to create an ITSP. The ITSP will outline the family's goals to achieve self-sufficiency within five years. All time limited voucher holders will also be required to meet annually, at minimum, with a Workforce Development Coordinator to review the ITSP and track their progress.

## Redesign of traditional FSS Program:

To better serve existing HCV and PH FSS participants and all new non-elderly/non-disabled HCV participants with time limited vouchers, the traditional HCV and PH FSS Program will be redesigned. The redesign will eliminate the escrow accrual for all new HCV participants while allowing PH FSS participants to continue to participate in FSS with the traditional escrow accrual; however, upon successful completion of the FSS Program, the PH resident will only receive their escrow balance upon forfeiture of their housing assistance. Should the family choose to forfeit the balance of the accrued escrow, they will be allowed to maintain their PH unit. All current/existing HCV and PH FSS participants will be allowed to continue their escrow accrual through the expiration of their FSS contracts and maintain housing assistance under current FSS Program guidelines.

#### Year of close out:

This activity was closed in FY 2020.

#### **Reason for close out:**

In FY 2014, RHA began issuing vouchers limited to five years as part of a Rent Reform Controlled Study (Activity 2014-03) within the HCV program. RHA partnered with an outside institution to evaluate the continuing effects and changing statuses of families participating in the Rent Reform Controlled Study. The purpose of the evaluation was to properly gauge whether increases in income that do not affect a household's rent and whether limiting vouchers to five years was incentive enough for families to become self-sufficient. As RHA worked through the lessons learned from the Rent Reform Controlled Study, staff determined that implementation of this activity on all non-elderly/non-disabled HCV participants would result in undue stress on participating families and determined that this activity should be closed.

# 2016-04: Allow HCV participants to lease units that exceed the 40% rent burden

# Plan Year Approved, Implemented and Amended (if applicable):

This activity was identified, approved, and implemented in FY 2016.

## **Description:**

Through the HCV program, rental subsidies are provided for standard-quality units that are chosen by the tenant in the private market. Per 24 CFR §982.508, tenant rent plus utilities is limited to no more than 40% of monthly adjusted income when the family first receives voucher assistance in a unit. However, this maximum rent burden requirement is not applicable at reexamination if the family stays in place. In many cases, tenancy is not approved because the tenant's portion of rent exceeds this maximum 40% rent burden by a relatively small amount.

To increase housing choice for several HCV participants, RHA began permitting these participants to lease units that exceed the 40% maximum rent burden in accordance with their individual financial circumstances. HCV participants can now choose housing that is more costly than otherwise permitted under HUD regulations if the initial maximum rent burden does not exceed 50% of their monthly adjusted income at the time of approving tenancy and executing a HAP contract.

# **MTW Statutory Objective(s):**

Increase housing choice for low-income families by providing HCV participants with more of a choice at lease up.

# Description of Statutory Exceptions outside of MTW Flexibilities that could have been beneficial:

RHA has not identified any statutory exceptions outside of MTW flexibilities that might have provided additional benefit to this activity.

# **Activity Metrics:**

The following HUD Standard Metric was identified and tracked for this activity.

2016-04 HC #5: Increase in Resident Mobility					
Number of households able to move to a better unit and/or neighborhood of opportunity (increase).					
Unit of Measurement	Baseline	Benchmark	Outcome	Benchmark Achieved?	
Number of households able to move to a better unit and/or neighborhood of opportunity.	0	52 <sup>62</sup>	FY 2022: 6 FY 2021: 5 FY 2020: 11 FY 2019: 4 FY 2018: 35 FY 2017: 5 FY 2016: 1	No	

# Year of close out:

This activity was closed in FY 2023.

Section IV. Approved MTW Activities

During January and February 2014, RHA staff had 52 families who were residing in units that exceeded the 40% maximum rent burden. On average, these families had a rent burden of 58.24%.

Throughout FY 2023, four families chose units that exceeded 40% of their monthly adjusted income. On average, these families had a rent burden of 45.73%.

# Reason for close out/lessons learned:

RHA began implementing this activity in FY 2016. Overall, this activity has been relatively ineffective at increasing housing choice among HCV participants. Recently staff began exploring ways the agency could not only increase voucher utilization but also assist HCV participants who want to move to low poverty, high opportunity neighborhoods within our region. Rather than place the increased rent burden on the participants, RHA recently implemented Exception Payment Standards for 12 specific zip codes throughout the Truckee Meadows where rents were unaffordable based on RHA's traditional payment standards to allow for more upward mobility.

# 2016-08: Expand Project Based Voucher Program

#### Plan Year Approved, Implemented and Amended (if applicable):

This activity was identified, approved, and implemented in FY 2016. It was expanded upon in FY 2019 to include families who are participating in Washoe County's workforce development programs.

# MTW Statutory Objective(s):

Increase housing choice for low-income families.

### **Description:**

In FY 2016, RHA expanded its PBV program to include an allocation of up to 50 PBVs to privately owned properties in exchange for the owner's commitment to provide affordable housing to individuals and/or families who are experiencing homelessness. This activity was amended in FY 2019 to expand RHA's PBV program even further to address the lack of affordable housing options for families who are actively participating in workforce development programs within Washoe County. RHA will continue to partner with local non-profit organizations who can provide ongoing case management as well as direct referral for each PBV unit once a vacancy occurs. Through these collaborations, RHA strives to provide stability in housing so that homeless and "working poor" households can improve their skills, obtain employment, and ultimately work toward self-sufficiency.

According to the requirements outlined in RHA's Administrative Plan, no project may set aside more than 25% of its total units for PBVs. However, depending on the size of the owner's complex, it is possible that 100% of the units within the complex will be project based. Therefore, this 25% requirement has been waived for properties applying for PBVs under this activity.

# Description of Statutory Exceptions outside of MTW Flexibilities that could have been beneficial:

RHA has not identified any statutory exceptions outside of MTW flexibilities that might have provided additional benefit to this activity.

#### **Activity Metrics:**

The following HUD Standard Metrics were identified and tracked for this activity.

2016-08 HC #3: Decrease in Wait List Time						
Average applicant time on wait list in months (decrease).						
Unit of Measurement Baseline Benchmark Outcome Benchmark Achieved?						
Average time on wait list in months.	N/A	N/A	N/A	Yes		

2016-08 HC #4: Displacement Prevention						
Number of hous	seholds at or below 80% AM	II that would lose assista	nce or need to move (d	lecrease).		
Unit of Measurement	Raseline <sup>04</sup>   Renchmark   Outcome					
Households at or below 80% AMI that would lose assistance or need to move.	0	0	0	Yes		

The following RHA Local Metrics were identified and continue to be tracked for this activity.

2016-08 RHA Local Metric: Increase in Resident Mobility						
Number of hous	seholds able to move to a be	tter unit and/or neighbor	hood of opportunity (i	ncrease).		
Unit of Measurement	Baseline Benchmark Outcome Benchm					
Households able to move to a better unit and/or neighborhood of opportunity due to partnership.	0	50	FY 2022: 23 FY 2021: 21 FY 2020: 23 FY 2019: 25 FY 2018: 21 FY 2017: 15 FY 2016: 0	No		

RHA has included a clause in the RFP for PBV assignment that specifically states that RHA will not consider proposals from owners of properties in which families or individuals are being or will be displaced.

2016-08 RHA Local Metric: Households Assisted by Services that Increase Housing Choice					
Ног	useholds receiving services a	imed to increase housing	g choice (increase).		
Unit of Measurement	Baseline Benchmark Outcome Bench				
Households receiving services aimed to increase housing choice due to partnership.	0	50	FY 2022: 23 FY 2021: 21 FY 2020: 23 FY 2019: 25 FY 2018: 21 FY 2017: 15 FY 2016: 0	No	

#### Year of close out:

This activity was closed in FY 2023.

#### Reason for close out:

In FY 2024 RHA received approval to create a Local Project Based Voucher Program (Activity #2024-02) to consolidate all current PBV activities into one. The outcomes related to this activity will continue to be reported on under this new activity.

### **Section V**

### SOURCES AND USES OF MTW FUNDS

#### V. Sources and Uses of MTW Funds

#### A. Financial Reporting

- Available MTW Funds in the Plan Year RHA has submitted unaudited and audited information in the prescribed Financial Data Schedule (FDS) format through the Financial Assessment System – PHA (FASPHA), or its successor system.
- ii. Expenditures of MTW Funds in the Plan Year RHA has submitted unaudited and audited information in the prescribed FDS format through the FASPHA, or its successor system.
- iii. Describe Application of MTW Funding Flexibility

#### Application of "MTW Funding" Flexibility

In FY 2023, RHA utilized single fund flexibility allowed for under its MTW designation for the following applications that do not use MTW authorizations in Attachment C and/or D:

 Recently, RHA began using single fund flexibility to cover the wage and benefits costs for staff members throughout the agency who work directly and indirectly on RHA's MTW program. The total wage and benefits cost based on these staff allocations for FY 2023 was \$1,007,444.

#### B. Local Asset Management Plan

i. Did the MTW PHA allocate costs within statute in the Plan Year?

ii. Did the MTW PHA implement a local asset management plan (LAMP) in the Plan Year?

iii. Did the MTW PHA provide a LAMP in the appendix?

iv. If the MTW PHA has provided a LAMP in the appendix, please provide a brief update on implementation of the LAMP. Please provide any actual changes (which must be detailed in an approved Annual MTW Plan/Plan amendment) or state that the MTW PHA did not make any changes in the Plan Year.

Description: N/A

## Section VI ADMINISTRATIVE

#### VI. Administrative

A. General description of any HUD reviews, audits or physical inspection issues that require the agency to take action to address the issue;

There are no actions required from any reviews, audits, or physical inspections.

B. Results of latest PHA-directed evaluations of the demonstration, as applicable; and

RHA executed its MTW agreement on June 27, 2013, and began working with the University of Nevada, Reno (UNR) to administer and conduct an annual analysis of its Rent Reform Controlled Study and Mobility Demonstration participants. A questionnaire was developed and has since been administered annually to program participants beginning in September of 2014. On August 30, 2018, RHA received notification from UNR that they would no longer be able to meet their obligation toward the studies. As of that date, UNR released data related to both studies to RHA for an in-house staff member or non-UNR contractor to analyze.

On January 23, 2019, RHA executed a data sharing agreement to establish a research partnership with UW to assist with the Mobility Demonstration, Rent Reform Controlled Study, and other related research projects and needs. The survey and administrative data for the Mobility Demonstration and Rent Reform Controlled Study was transferred to Rebecca Walter, the project lead at UW to begin analyses. As the Rent Reform Controlled Study has been closed, analyses and results for the Mobility Demonstration is included in Section VII as Attachment I.

- C. Certification that the PHA has met the three statutory requirements of: 1) assuring that at least 75 percent of the families assisted by the Agency are very low-income families; 2) continuing to assist substantially the same total number of eligible low-income families as would have been served had the amounts not been combined; and 3) maintaining a comparable mix of families (by family size) are served, as would have been provided had the amounts not been used under the demonstration.
  - 1) At the end of FY 2023, 2,795 households out of a total of 2,950 households or 94.81% were very low-income (<50% AMI).
    - a) Public Housing: 661 out of 721 or 91.68%
    - b) Housing Choice Vouchers: 2,134 out of 2,229 or 95.74%
- 2) Baseline numbers have been set by HUD at 3,199. On June 30, 2023, 2,950 households were housed or 94.34% of baseline.
- 3) RHA is maintaining a comparable mix of families by family size as shown in the table on page 21, Mix of Family Sizes Served (in Plan Year).

# Section VII ATTACHMENT

#### VII. Attachment

#### **Attachment I: Mobility Demonstration Study**

Analyses and Results as of August 25, 2023

The Mobility Demonstration began in 2014 and allows households in public housing to move to PBV single-family, duplex, or multifamily units in low-poverty neighborhoods. The purpose of this study is to determine if a move out of public housing to a low-poverty neighborhood improves outcomes for households with children. RHA has partnered with Dr. Rebecca J. Walter at the University of Washington to analyze the data and outcomes for the Mobility Demonstration Study.

A within-subject design is used to compare household outcomes over time using administrative and American Community Survey (ACS) data (Table 1). Many of the households moved in public housing before the Mobility Demonstration Study was initiated and were enrolled in the study when they moved from public housing to a PBV unit. The household characteristics, household outcomes, and neighborhood characteristics assessed in this study are included in Table 1. The Wilcoxon Rank Sum Test was used instead of the Paired Samples T-Test since the data violates the assumption of normality, there are outliers in the data, and the sample size is small. The 2016 ACS 5-year Estimates were used for the neighborhood characteristics since most participants moved from public housing to a PBV unit in 2014. In 2022, a new survey was administered to capture additional household outcomes. The survey gathers information about physical and mental health, safety, finances and wealth accumulation, employment and education, child well-being, and neighborhood and housing preferences over the last year. Eighteen households that have moved into a PBV unit have participated in the survey within the last year. Descriptive statistics are provided for the survey responses.

Table 1. Variables

	Data Source	Data Type	Statistical Test
Household Characteristics			
Gender	Administrative	Categorical	Descriptive Statistics
Race	Administrative	Categorical	Descriptive Statistics

Percent White	ACS	Continuous	Wilcoxon
Percent Hispanic or Latino	ACS	Continuous	Wilcoxon

Only households that participated in the study for at least one year are included in the study so within-subject analyses over time can be conducted. This resulted in 48 households being included in the analyses. Households entered and exited the study at different times. There are 19 households that are currently enrolled in the study and 29 households that have exited the study (Table 2).

Table 2. Sample Size and Number of Years of Participation in the Study

Participant Year	Count	<b>Currently Enrolled</b>	Exits
Year 1	48	0	8
Year 2	40	2	7
Year 3	31	2	5
Year 4	24	1	4
Year 5	19	3	2
Year 6	14	2	0
Year 7	12	0	2
Year 8	7	3	1
Year 9	6	6	0
Total		19	29

Of the 29 exits, over half of the exits from the mobility program have been voluntary self-sufficiency exits (Table 3). Within the second year after the move from public housing, some households voluntarily exited the program and were able to pay their rent in full on their own, while on the other hand, it took other households over six years to reach this point. The sample size is too small to generalize an approximate period for how long the average non-elderly and/or non-disabled household needs housing assistance before they can afford housing without a subsidy.

Table 3. Reasons for Exiting the Program

Reason	Count	Percent
Deceased	1	4%
Program/Lease Violation	3	10%
Transferred to VOO	7	24%
Voluntarily Left Program	3	10%
Paying Full Rent/Purchased Home	15	52%
Total	29	100%

Many households in the study are White, non-Hispanic, and female-headed households that are single, divorced, or widowed (Table 4). The median number of years that households were in public housing before transferring to a PBV unit was four, with the range being from one to seventeen years. The median household age is thirty-six with the youngest head of household at the beginning of the study age 23 and oldest 63. The median household size is four and ranges from two to nine members (this program is specifically for families with children). The median number of adults per household is one while the median number of children is two (Table 4).

Table 4. Household Characteristics at Baseline (n=48)

		Count	Percent
Gender	Male	5	10.4%
	Female	43	89.6%
Race	White	38	79.2%
	Non-White	10	20.8%
Ethnicity	Hispanic or Latino	17	35.4%
	Non-Hispanic or Latino	31	64.6%
Marital Status	Married/Cohabitating	12	25.0%
	Single/Divorced/Widowed	36	75.0%
		Median	Range
Years in Public Hou	sing	4	1 - 17
Head of Household	Age	36	23 - 63
Household Size		4	2 - 9
Number of Adults in Household		1	1 - 4
Number of Children	n in Household	2	0 - 7

Although more heads of household are typically employed in PBV units compared to their tenure in public housing, there isn't any statistical difference in employment compared to baseline regardless of how long the household has participated in the program (Table 5).

Table 5. Employment Status

		Baseline	Baseline	<i>p</i> -value <sup>1</sup>
		Unemployed	Employed	
Year 1 ( <i>n</i> =48)

<sup>&</sup>lt;sup>1</sup>The exact *p*-value is calculated based on a binomial distribution because there are 25 or fewer records in at least one cell. <sup>2</sup>No value is reported because each group must have a minimum of one to conduct a statistical comparison.

Annual household income is statistically significantly higher from baseline compared to every year recorded after baseline (Years 1 through 8) for households that moved from public housing to PBV units except for Year 9 (Table 6). The median difference at Year 1 was only \$3,222 but at Year 8 is \$17,114. The median difference for Year 9 is greater than baseline but the sample size is small and two households in Year 9 have an annual household income lower than when they entered the program which is why Year 9 is not statistically significant.

Table 6. Annual Household Income

	Baseline Median	Comparison	Median	Z
		Year Median	Difference	
Annual Household Income				
Year 1 ( <i>n</i> =48)	\$16,125	\$19,346	\$3,222	-2.819**
Year 2 ( <i>n</i> =40)	\$15,738	\$19,990	\$4,253	-3.671**
Year 3 ( <i>n</i> =31)	\$15,622	\$23,081	\$7,459	-3.381**
Year 4 ( <i>n</i> =24)	\$16,125	\$22,950	\$6,826	-2.743**
Year 5 ( <i>n</i> =19)	\$15,853	\$23,650	\$7,797	-2.173*
Year 6 ( <i>n</i> =14)	\$14,612	\$21,463	\$6,852	-2.542**
Year 7 ( <i>n</i> =12)	\$11,854	\$32,603	\$20,749	-3.059**
Year 8 ( <i>n</i> =10)	\$11,854	\$28,968	\$17,114	-2.803**
Year 9 ( <i>n</i> =6)	\$14,612	\$20,450	\$5,838	-0.734

<sup>\*</sup> p < 0.05; \*\* p < .01; \*\*\* p < .001

In the last year, most households had no visits to a hospital or emergency room for physical health issues. Visits to a hospital or emergency room for mental health, behavioral health or emotional issues was rare with most households having no visits in the last year (Table 7).

Table 7. Physical and Mental Health Outcomes (n=18)

	Median	Range
Number times in the past year any member in the		
household visited a hospital or emergency clinic for		
physical health problems	0	0-10
Number times in the past year any member in the		
household visited a hospital or emergency clinic for		
mental health, behavioral health, or emotional problem	0	0-5

The survey asked households to rank the neighborhood amenities that were most and least important to them (Table 8). The most important neighborhood attribute is a low crime rate. This is followed by, being within close proximity to grocery stores, neighborhoods with sidewalks, and near restaurants and shopping and parks and recreation.

#### Table 8. Neighborhood Preferences (n=17)

A neighborhood that has a low crime rate.

A neighborhood close to grocery stores.

A walkable neighborhood with sidewalks.

A neighborhood close to restaurants and shopping.

A neighborhood close to parks and recreation

A neighborhood with job opportunities nearby.

A neighborhood with low population and dispersed housing density.

A neighborhood that has a lot of diversity in terms of race, age, family type.

A neighborhood accessible by public transportation.

A neighborhood with low poverty rates.

A neighborhood with a community center and/or community events.

A neighborhood close to downtown.

Most Important

Least Important

The survey asked households to rank the housing and neighborhood amenities most important for their children (Table 9). The most important attribute is each child having their own bedroom. Having a home that has a yard that is safe to children to play in and a low crime rate are also important to respondents.

#### Table 9. Housing and Neighborhood Preferences for Children (n=16)

Each child has their own bedroom.

The home has a yard that is safe for children to play in.

The neighborhood has low crime rates.

The home is on a quiet street away from heavy traffic.

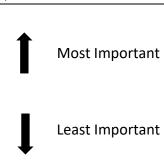

The neighborhood has good schools/daycares.

The home is close to my child/children's school/daycare.

The neighborhood has friendly neighbors that I can count on.

The home is near a park or other recreational activities.

There are other children in the neighborhood living close by.

In the survey, households were asked why they might stay in their current home if they are paying full contract rent (Table 10). Respondents were given the option to select one or multiple reasons. The most common reason for households to remain in place is because the rent is affordable and many households

responded it is too expensive to move somewhere else. Other common reasons include liking the home and neighborhood. Several households wanted to remain in place because their current home is either close to their child's school/daycare, work, or family/friends. A few households don't have time to search for a new place or move. Two of the households plan to move as soon as they can pay the full contract rent.

Table 10. Reasons for Staying in Current Home (n=18)

	Frequency
The rent is affordable.	13
I like the neighborhood.	12
I like the home.	10
It is too expensive to move somewhere else.	9
I am close to work.	9
I don't want my child/children to go to a different daycare/school.	6
I am close to family/friends.	3
I don't have time to search for a new place or move.	2
I plan to move as soon as I can pay the full contract rent.	2

The survey asked each household to envision their tenure situation in five years (Table 11). The majority believe they will own their own home or will be in the same home paying full contract rent. Less than half of the respondents believe they will still be receiving subsidized rent.

Table 11. Future Plans (*n*=18)

	Frequency	Percent
In the same home with subsidized rent.	8	44%
In the same home paying full contract rent.	3	17%
In a home that you own.	7	39%

For neighborhood characteristics of public housing compared to PBV unit location, there are statistically significant differences in all neighborhood characteristics except for the owner occupancy rate. Educational attainment, median household income, and median home value are all statistically significantly higher in PBV neighborhoods compared to public housing neighborhoods. In the neighborhoods where PBV units are located, the poverty rate, unemployment rate, and proportion of vacant housing units are statistically significantly lower than the neighborhoods where public housing is located. Additionally, in PBV neighborhoods, there are statistically significantly higher proportions of single-family homes and rent rates. In the PBV neighborhoods, there is a higher percentage of White households and less Hispanic or Latino households than in the public housing neighborhoods (Table 10).

Table 10. Neighborhood Characteristics (n=48)

	Public Housing		Median	
	Median	PBV Median	Difference	Z
Percent high school graduate or higher	65.2%	91.2%	26.0%	-5.335***
Percent bachelor's degree or higher	15.0%	26.2%	11.3%	-5.191***
Unemployment rate	9.3%	5.3%	-4.0%	4.114***
Median household income	\$25,545	\$52,008	\$26,463	-4.627***
Percent of people in poverty	40.1%	12.9%	-27.2%	6.032***
Proportion of vacant housing units	9.2%	8.4%	-0.8%	4.547***
Proportion of single-family homes	45.0%	60.9%	15.9%	-3.519***
Owner occupancy rate	44.8%	53.4%	8.6%	-1.600
Median home value	\$100,800	\$164,450	\$63,650	-5.663***
Median gross rent	\$823	\$916	\$93	-1.985*

<sup>\*</sup> p < 0.05; \*\* p < .01; \*\*\* p < .001

For neighborhoods where PBV units are located compared to the Reno Metropolitan Area, neighborhood characteristics throughout Reno are comparable to the neighborhoods where households moved into PBV units (Table 11). The only major differences are the unemployment rate and median home value, which are both lower in neighborhoods where PBV units are located compared to Reno Metropolitan Area.

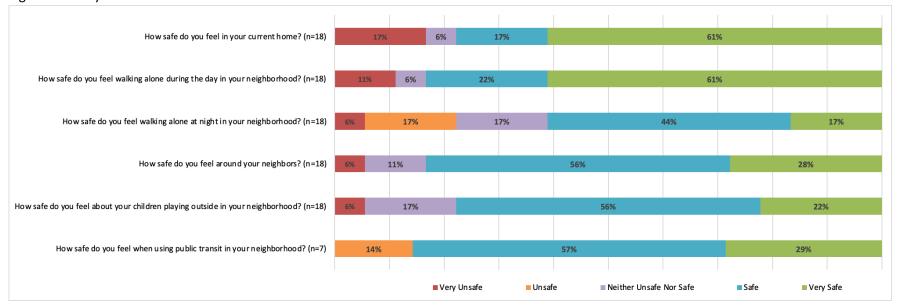

Table 11. Neighborhood Characteristics in PBV Neighborhoods Compared to Reno Metro Area (n=48)

	Reno	PBV Units
Percent high school graduate or higher	87.1%	91.2%
Percent bachelor's degree or higher	28.9%	26.2%
Unemployment rate	8.0%	5.3%
Median Household Income	\$55,103	\$52,008
Percent of people in poverty	14.9%	12.9%
Proportion of vacant housing units	10.0%	8.4%
Proportion of single-family homes	59.9%	60.9%
Owner occupancy rate	57.1%	53.4%
Median home value	\$236,300	\$164,450
Median gross rent	\$917	\$916
Percent White	84%	83.5%
Percent Hispanic or Latino	23.4%	27.1%

Most households feel safe in their home, neighborhood, and around their neighbors. The majority also feel safe when their children are playing outside in their neighborhood. Most survey respondents even feel safe walking alone in their neighborhood at night. The few households that use public transit also consider it to be generally safe.

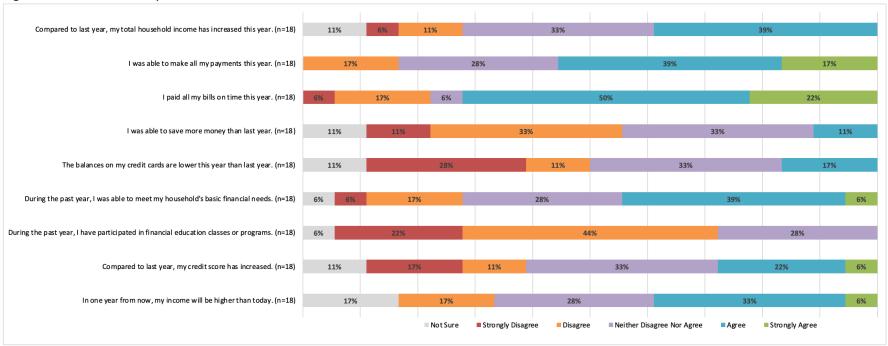

Figure 1. Safety

39% of households report that their household income has increased from the previous year and 45% of households stated that their basic financial needs were met. At least half of the respondents were able to make all their payments on time over the year and had lower balances on their credit cards compared to the previous year. However, the majority of households were unable to increase their credit score and report that they were unable to save more money than the previous year. Respondents did not participate in financial education classes or programs this last year. The response regarding future income is mixed and only 39% of the households believe that their income will be higher in a year from now.

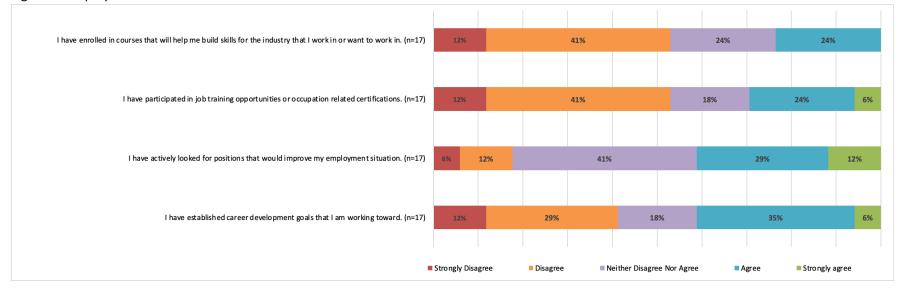

Figure 2. Financial Security and Wealth Accumulation

Within the last year, although some households have established career development goals that they are working toward, less than one-third of respondents have taken advantage of job training opportunities or occupation related certificates. 41% of the respondents are actively looking for a position that would improve their employment situation.

Figure 3. Employment and Education

Most households responded positively regarding their child's well-being. Respondents reported being able to help their child learn new skills, thought their child's basic needs were met, saw substantial progress in educational goals, and were able to do things together as a family. Most households also reported having a network of friends and family members that supported the social development of their child and that they were able to provide the opportunity for their child to participate in after school, athletic, recreational, or religious activities. Childcare needs were met for more than half of the households although there are a few households that reported this was a challenge.

Figure 4. Child Well-Being
